## SAMPLE ENTRY

Title	<b>The Convention refugee determination process in Canada</b>
Author, Place of publication, Publisher, Date of publication, Pagination	by M. Young. Ottawa : Library of Parliament, Research Branch, 1987. 13 p. Bibliogr. (Current issues review ; 86-26E) <i>French ed. (La reconnaissance au Canada . . .) on the same fiche.</i>
Series statement	ISBN 0-660-12567-6 MICROLOG 88-00800 1 fiche
Notes	
ISBN	
Microfiche	
Accession Number	
Abstract	The increase of refugee status claiming immigrants in Canada has led to a review of the immigration policy concerning this group. This report looks at the weaknesses of current legislation which is linked to the Geneva Convention and its Protocol, studying Canada's past adherence to the rights afforded under its protection. Also discusses public and government opinion on support for a humanitarian and generous refugee policy and questions of balancing efficiency with procedural fairness to claimants. Gives a chronology of events since 1969.

# Introduction

The **Canadian Research Index - Microlog** puts all of Canada's hard-to-find government and research literature at your fingertips. **Canadian Research Index** in print is a monthly indexing and abstracting service. An electronic version on CD-ROM or via the Internet is also available. **Microlog** represents our fulltext document service. Most titles included in **Canadian Research Index** are available in paper as well as microfiche format. Together, these services are a powerful tool for finding Canadian report publications.

The **Canadian Research Index** includes scientific and technical research papers in physical, natural and social sciences. It also includes policy papers, important statistical publications, and annual reports.

Documents issued in English or French are catalogued, indexed and abstracted in the language of the publication, while bilingual documents are catalogued, indexed and abstracted in both languages.

Every effort is made to ensure the currency of the index. For instance, documents appearing in the checklist of Canadian Government Publications are delivered by the **Microlog Service** approximately two months after publication of the list.

## SOURCES

- government publications from the federal, provincial and municipal levels
- depository publications of reference value
- non-depository publications issued by government organizations, laboratories and research centres
- non-profit organizations, educational institutions and research groups
- some monographs and serials issued by Statistics Canada

## ORGANIZATION

**Canadian Research Index** comprises the following sections:

**Titles and abstracts:** A full bibliographic citation and a descriptive abstract for each title.

**Corporate name index:** Access by controlled format corporate names based on Canadian Authorities.

**Personal name index:** Access by personal name.

**Subject index:** Subject terms based on Library of Congress and Canadian Subject Headings are assigned to each document. A cross-referencing structure assists searchers.

**Series titles:** Lists by title and numbers all reports in a series; series are available as an on-going subscription or retrospective collection.

**Microfiche collections:** Lists contents of each fiche collection for quick reference. These collections can be used as current awareness lists in broad subject areas to notify users of new acquisitions.

## ELECTRONIC ACCESS

The full **Canadian Research Index** file from 1982 to date is available in electronic formats on the SilverPlatter SPIRS platform. It is accessible on CD; it may be licensed for network use on a local server or on a SilverPlatter ERL server; and it is available for Internet subscription. Reports may be ordered through the National Technical Information Service in the U.S.A., or directly through **IHS/Micromedia's Global Information Centre**. All catalogued documents issued by Statistics Canada are now included in electronic versions of **Canadian Research Index**. For information, contact IHS/Micromedia's CD Centre at 1-800-387-2689.

## DOCUMENT DELIVERY

The unique **Microlog Accession Number** is the key to immediate retrieval of any document. Most documents cited in **Canadian Research Index** are available as part of the **Microlog Microfiche Subscription Service**, institutions may subscribe to complete or partial collections of the documents in the Index. Individual copies on microfiche or paper reprints may be ordered through **IHS/Micromedia's Document Delivery Service**. To order, please contact:

# Introduction

**Microlog : Index de recherche du Canada** met à votre disposition toutes les publications du gouvernement et les travaux de recherche difficiles à se procurer. L'**Index de recherche du Canada** imprimé est un service mensuel d'indexation et de résumés. Une version électronique est également offerte sur CD-ROM ou dans Internet. **Microlog** représente notre service de documents en texte intégral. La plupart des titres figurant dans l'**Index** sont disponibles sous forme imprimée et sur microfiche. Ces services combinés constituent un outil très efficace pour retrouver les publications des différents gouvernements du Canada.

L'**Index** contient entre autres des recherches en sciences physiques, naturelles et sociales, des énoncés de politique, des statistiques et des rapports annuels.

Les ouvrages publiés en français ou en anglais sont indexés et résumés dans la langue de publication; les ouvrages bilingues sont traités dans les deux langues.

De vastes efforts sont déployés pour assurer la pertinence de l'**index**. Par exemple, on peut obtenir les documents qui figurent sur la Liste des publications du gouvernement du Canada environ deux mois après leur parution sur cette liste.

## SOURCES

- publications fédérales, provinciales et municipales
- publications déposées servant de référence
- publications non déposées publiées par les organismes gouvernementaux, les laboratoires et les centres de recherche
- publications d'organismes à but non lucratif, d'établissements d'enseignement et de groupes de recherche
- certaines monographies et publication en série publiées par Statistique Canada

## ORGANISATION DE L'INDEX

L'**Index de recherche du Canada** comprend les sections suivantes :

**Titres et résumés**: tous les titres sont catalogués et accompagnés d'un résumé descriptif.

**Index des dénominations sociales**: donne un accès par dénominations sociales fondées sur les vedettes d'autorité du service Canadiana.

**Index des noms**: donne un accès par auteur.

**Index des matières**: des descripteurs fondés sur les vedettes matières des documents Library of Congress Subject Headings et Canadian Subject Headings sont

associés à chaque publication; un réseau de renvois facilite la recherche.

**Titres de collections**: tous les rapports publiés en série sont classés par titre et numéro. Ces documents sont disponibles par le biais d'un abonnement permanent et ils sont aussi intégrés à une collection rétrospective.

**Collections de microfiches**: chaque collection apparaît dans une section séparée pour faciliter la recherche. Ces listes peuvent aussi servir à renseigner les usagers sur les nouveautés.

## ACCÈS ÉLECTRONIQUE

Le fichier complet de l'**Index de recherche du Canada**, de 1982 à aujourd'hui, est disponible sous forme électronique à partir de la plate-forme SilverPlatter SPIRS. Il est offert sur CD-ROM et il est possible d'obtenir des licences d'utilisation en réseau pour un serveur local ou pour un serveur SilverPlatter ERL. Il est également disponible par le biais d'un abonnement Internet. Les rapports peuvent être commandés par l'intermédiaire du National Technical Information Service aux États-Unis ou encore directement au **Global Information Centre de IHS/Micromedia**. Tous les documents catalogués publiés par Statistique Canada sont intégrés dans les versions électroniques de l'**Index de recherche du Canada**. Pour plus de détails, contactez le personnel de IHS/Micromedia au 1 800 387-2689.

## LIVRAISON DE DOCUMENTS

Le numéro d'accès unique de **Microlog** est la clé qui permet de repérer immédiatement tout document. La majorité des documents cités dans l'**Index de recherche du Canada** sont offerts par le service d'abonnement aux microfiches de **Microlog**. Les organismes peuvent s'abonner à l'ensemble ou à certaines des collections de documents de l'**Index**. On peut également commander des reproductions de documents sur microfiches ou sur papier par l'intermédiaire du service de livraison de documents de **IHS/Micromedia**. Pour commander, communiquer avec:

# Sample CRI Search

*"How can a person from a foreign country qualify for refugee status in Canada?"*

The researcher can search in CRI as in any library catalogue - by subject, author and title.  
Because the index is bilingual, searching can be done in English or in French.

## Recherche type avec IRC

*"Comment une personne d'un pays étranger peut-elle demander le statut de réfugié au Canada?"*

La méthode de recherche dans IRC est la même que dans une bibliothèque, puisque les documents sont indexés par auteur, par sujet et par titre. L'index étant bilingue, la consultation peut se faire en français ou en anglais.

### La Reconnaissance au Canada du statut de réfugié au sens de la Convention

par M. Young. Ottawa: Bibliothèque du  
Parlement. Service de recherche, 1987.  
14 p. Bibliogr. (Bulletin d'actualité 86-26F)  
L'éd. anglaise (The Convention refugee.) sur  
la même fiche.  
ISBN 0-660-92124-3  
MICROLOG 88-00800 1 fiche

Le processus de reconnaissance du statut de  
réfugié au sens de la Convention de Genève,  
tel qu'il est énoncé dans la Loi sur  
l'immigration, sert à déterminer si les  
personnes qui revendiquent ce statut y ont  
effectivement droit et peuvent bénéficier de la  
protection accordée aux réfugiés au sens de la  
Convention. Ce processus s'est avéré  
inadéquat, tant au point de vue juridique que  
pratique. Dans ce bulletin, on examine les  
mécanismes en vigueur actuellement et le  
projet de réforme contenu dans la loi C-55  
déposé en mai 1987.

## STEP 2/DEUXIÈME ÉTAPE

### A unified search strategy

The search strategy should include all the monthly  
issues. Start with the most recent issue and work back.  
Monthly issues are cumulated annually.

### Établir une stratégie de recherche unifiée

La stratégie de recherche doit tenir compte de toutes  
les publications mensuelles, à commencer par les plus  
récentes. Chaque année, ces publications font l'objet  
d'une refonte.

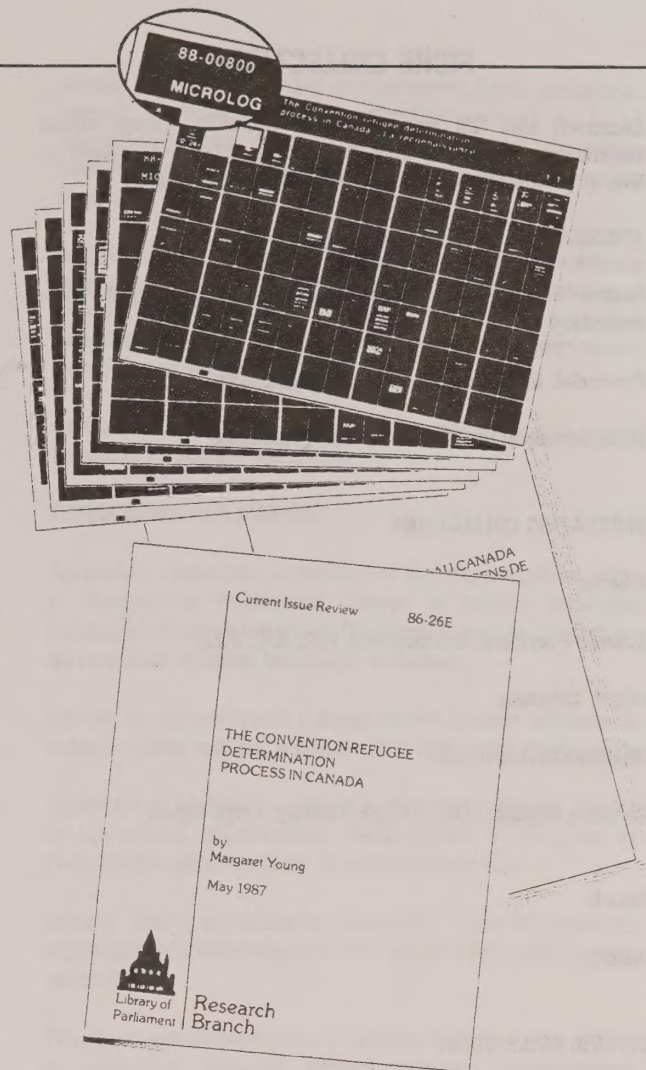

## STEP 3/TROISIÈME ÉTAPE

### Retrieve the publication

Each bibliographic citation gives a full description of the relevant document. Locate the document by the microfiche number in the library's collection or order from Micromedia. Individual publications are available for purchase on microfiche or paper. The bibliographic description provides publisher source information.

### Repérer la publication

Chaque notice bibliographique comprend une description complète du document; celui-ci peut être repéré grâce au numéro de microfiche de la bibliothèque; sinon, il faut le commander à Micromedia. On peut se procurer les monographies sur microfiches ou sur papier. La description bibliographique comporte également des indications sur l'éditeur.

## FICHE COLLECTIONS

Documents from CRI are available on microfiche through various subscription plans ranging from the complete collection to subsets by level of government (jurisdiction), geographic area, or subject.

### JURISDICTION COLLECTIONS

**Federal:** titles issued at the federal level, both depository and non-depository

**Provincial:** titles issued by provincial governments

**Local/Municipal:** titles issued by local governments

### GEOGRAPHIC COLLECTIONS

Alberta

Atlantic Provinces: Newfoundland, N.S., N.B., P.E.I.

British Columbia

Manitoba/Saskatchewan

Northern Regions: N.W.T., Yukon Territory, Arctic regions

Ontario

Quebec

### SPECIAL COLLECTIONS

**Critical issues:** documents from Canadian jurisdictions on issues that receive public attention and are the subject of debate

**Fisheries and Oceans Canada:** documents published by the Dept. of Fisheries and Oceans

**Canada Centre for Mineral and Energy Technology (CANMET):** documents published or contracted out by the Centre

**Depository Collection:** documents published by the federal government issued through the Federal Depository Program

**FEARO:** documents published by the Canadian Environmental Assessment Research Council (CEARC) and/or the Federal Environmental Assessment Research Office (FEARO)

**Non-Depository Collection:** documents published by the federal government, not issued through the Federal Depository Program. Available as a complete collection or as a science or social science sub-collection

**ONTERIS (ON COLLECTION):** ONTERIS documents for which we have microfilming rights and which meet our inclusion policy

## COLLECTIONS DE MICROFICHES

Les publications incluses dans l'IRC sont en vente sur microfiches, en collection complète ou en collections plus petites regroupant des titres par juridiction, par aire géographique ou par matière.

### COLLECTIONS GOUVERNEMENTALES

**CA** **Fédéral :** publications émises par le gouvernement fédéral, régies ou non par le Programme de dépôt

**PR** **Provincial :** publications émises par les gouvernements provinciaux.

**MU** **Local/Municipal :** publications émises par les gouvernements locaux et municipaux

### COLLECTIONS GÉOGRAPHIQUES

**AL** **Alberta**

**AP** **Provinces de l'Atlantique :** T.-N., N.-É., N.-B., Ile-du-Prince-Édouard

**BC** **Colombie-Britannique**

**MS** **Manitoba et Saskatchewan**

**NO** **Régions du nord :** Territoires du Nord-Ouest, Yukon, régions arctiques

**ON** **Ontario**

**QU** **Québec**

### COLLECTIONS PARTICULIÈRES

**CI** **Sujets d'actualité :** documents publiés au Canada et portant sur des questions d'intérêt public et des sujets de débat

**CF** **Pêches et Océans Canada :** documents publiés par le Département des pêches et océans

**CM** **Centre canadien de la technologie des Minéraux et de l'énergie (CANMET) :** documents publiés ou commandés par le Centre

**DE** **Programme de dépôt :** documents publiés par le gouvernement fédéral régis par le Programme de dépôt

**FE** **BFEE :** documents publiés par le Conseil canadien de recherche sur les évaluations environnementales (CCREE) et/ou le Bureau fédéral d'examen des évaluations environnementales (BFEE)

**ND** **Collection non déposée :** documents publiés par le gouvernement fédéral, non régis par le Programme de dépôt, disponible en collection complète ou en sous-collection Scientifique ou Sciences humaines.

**OR** **ONTERIS (COLLECTION ON) :** documents d'ONTERIS pour lesquels nous avons les droits de microfilmage et qui satisfont à nos politiques d'inclusion

**Science:** agriculture; energy; environment; fisheries; forestry; life sciences; natural resources, earth sciences and mining; physical sciences; planning, housing and construction industry; technology; telecommunications; transportation

**Social sciences:** behavioural sciences; commerce and economics; culture, recreation and humanities; education; external affairs; health and medical care; justice and law; labour; native peoples; public administration; public works; social affairs

**Statistics:** statistical documents or documents containing a significant amount of statistical data

## SUBJECT COLLECTIONS

**Agriculture:** agricultural chemistry and economics; agricultural equipment facilities and operations; agricultural resource surveys; agronomy, horticulture and plant pathology; animal husbandry and veterinary medicine; food technology

**Behavioural sciences:** abuse; human behaviour; psychology; public opinion; suicide; survey methods

**Commerce and Economics:** banking and finance; consumer affairs; domestic and international commerce, marketing and economics; foreign industry development and economics

**Culture, Recreation and Humanities:** archaeology; arts; history and historic sites; libraries; lotteries; recreational activities; sports; theatre

**Education:** community and school; educational legislation; educational research; issues related to school-aged children; learning; school and university funding; teacher collective bargaining and pension funds; teaching methods

**Energy:** batteries and components; electric power production; fuel conversion processes; fuels; geothermal energy; heating and cooling systems; policies and regulations; resources; solar energy; supply and demand; transmission

**Environment:** environmental assessment reports; environmental health and safety; environmental policy; pollution and control of air, noise, solid wastes, water, pesticides and radiation

**External Affairs:** disarmament and arms control; foreign affairs and policy; foreign aid; international relations and trade

**Fisheries:** aquaculture; commercial fishing, fishing equipment and processing of fishery products; fish biology and habitat; fishing boat accidents; laws related to fisheries; sport fishing

**Forestry:** afforestation and reforestation; forest ecology; forest fires and prevention; forest products; logging; pulp and paper industry; wood trade

**SC** Science : agriculture; énergie; environnement; pêche; planification logement et industrie de la construction; sciences de la vie ressources naturelles, sciences de la Terre et exploitation minière sciences physiques; sylviculture; technologie; télécommunications transport

**SS** Sciences sociales : administration publique; affaires extérieures affaires sociales commerce et économie; culture, récréation e sciences humaines; éducation; justice et droit; population; autochtones; santé et soins médicaux; science du comportement travail; travaux publics

**ST** Statistiques : documents statistiques ou contenant une quantité importante de données statistiques

## COLLECTIONS PAR MATIÈRE

**AG** Agriculture : agronomie, horticulture et pathologie végétale; chimie et économie de l'agriculture; élevage et science vétérinaire; installations et fonctionnement de l'équipement agricole; sondage sur les ressources agricoles; technologie alimentaire

**BS** Science du comportement : comportement humain; méthodes de sondage; opinion publique; personne maltraitée; psychologie; suicide

**CO** Commerce et économie : affaires et finances; commerce national et international; consommation; développement et économie de l'industrie étrangère; marketing et science économique

**CU** Culture, loisirs et sciences humaines : activité récréative; archéologie; arts; bibliothèques; histoire et sites historiques; loteries; sports; théâtre

**ED** Éducation: apprentissage; école et communauté; financement scolaire et universitaire; législation scolaire; méthodes d'enseignement; négociation collective et fonds de pension de l'enseignant; questions concernant les enfants d'âge scolaire; recherche en éducation

**EN** Énergie : combustible; énergie géothermique; énergie solaire; offre et demande; piles et composantes; procédés de conversion du combustible; politiques et règlements; production d'électricité; ressources; systèmes de chauffage et de refroidissement; transmission

**EV** Environnement : contrôle et pollution (air, bruit, déchets solides, eau, pesticides et radiation); politique environnementale; rapports d'évaluation environnementaux; santé et sécurité de l'environnement

**EX** Affaires extérieures : aide étrangère; commerce international désarmement et contrôle des armes; relations et politiques étrangères; relations internationales

**FI** Pêche : accidents de bateaux de pêche; aquiculture; biologie et habitat du poisson; loi concernant la pêche; pêche commerciale, équipement de pêche et transformation des produits de la pêche; pêche sportive

**FO** Forêts et sylviculture : écologie forestière; exploitation des forêts; feux de forêts et prévention des feux de forêts; industrie des pâtes et papiers; menuiserie; produits forestiers; reboisement

<b>Health and medical care:</b> health care assessment and quality assurance; health care utilization; health-related cost; health services; public health and industrial medicine; technology; vital statistics	HE	<b>Santé et soins médicaux :</b> assurance de la qualité et évaluation des soins médicaux; coûts reliés à la santé; exploitation des soins médicaux; santé publique et médecine industrielle; services médicaux; statistiques démographiques; technologie

### 1990 Beaufort Sea ice scour repetitive mapping program, vol. 1

Robert Myers...et al. ; In cooperation with Geological Survey of Canada, PERD Offshore Geotechnics Subprogram. Ottawa : Environmental Studies Research Funds, 1996. xviii, 271 p. : ill., Maps, Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 129) ISBN 0-921652-32-1 MICROLOG 97-06916 (4 fiche)

Reports on a program having the ultimate goal of providing sufficient information on present-day ice scour dynamics to effectively constrain the design of subsea installations in the Beaufort Sea. Chapter 1 provides background on previous Beaufort ice scour data bases, as well as on the historical development of repetitive mapping and the new scour data base (NEWBASE). Scour parameters relevant to subsea engineering are also addressed. Chapter 2 summarizes a 1990 repetitive mapping field program and discusses implications of new survey technology. Chapter 3 describes new scour identification, scour parameter measurement, and data processing techniques used, concluding with results of a comparative scour depth re-measurement project. Results of the NEWBASE update and scour tracking study are presented in chapter 4, including a preliminary analysis of scour distribution and scour depth distribution with respect to water depth. Detailed descriptions of tracked scours and a three-stage model of scour rise-up processes are also provided. The final chapter summarizes the 1990 update and analysis of NEWBASE as well as results of the scour tracking study.

### The 1990 fall waterfowl study, Mission and Neebing marshes : a report

To: the North Shore of Lake Superior Great Lakes Cleanup Fund Program ; prepared by: Jean Hall-Armstrong and Robert S. Rempel. Thunder Bay, ON : Ministry of the Environment, 1992. 72 p. : ill., Maps (North shore of Lake Superior remedial action plans technical report series / Ontario. Ministry of the Environment ; no. 12) On cover: North Shore of Lake Superior Remedial Action Plans. On back cover: Canada-Ontario Agreement Respecting Great Lakes Water Quality. ISBN 0-7729-9864-7 MICROLOG 97-06894 (1 fiche)

Presents results of a waterfowl survey conducted at six sites in the Mission and Neebing marshes near Thunder Bay from September to December 1990. The survey was designed to collect baseline data against which to compare waterfowl responses to proposed wetland rehabilitation projects. Species counted included mallards, Canada geese, common goldeneye, black ducks, and scaup. Results presented include species occurrence and abundance, relative abundance and distribution for the most common species, diurnal trends, and seasonal/migratory patterns.

### 1996-97 estimates, part III : Immigration and Refugee Board of Canada

Canada. Dept. of Finance. Ottawa : Supply & Services Canada, Canada Communication Group, Publishing, 1996. 38, 41 p. : ill. Bilingual (Budget des dépenses...Commission de l'immigration...). On cover: Expenditure plan. ISBN 0-660-59887-6 CCG-P no. BT31-2/1997-III-12 MICROLOG 97-07034 (1 fiche)

This document provides estimates detail for the department and its programs primarily in terms of the results expected and the money spent. It begins with an overview of the roles and responsibilities of the portfolio and the spending plan for the coming fiscal year. This format is followed for the department and each of the programs administered. Administrative information includes a profile of financial requirements by object, personnel requirements, capital expenditures, transfer payments, revenue, loans, investments and advances, and the net cost of the program. Details include such information as personnel requirements, by occupational group, authorized person-years, and current salary range. Program descriptions include formal programs as well as activities related to government policy.

### The 1997 survey about health and the health system in Alberta

By Herbert C. Northcott and Benjamin R. Northcott. Edmonton : Alberta Health, 1997. 99 p. : ill. On title page: Conducted by the Population Research Laboratory, University of Alberta. ISSN 1480-0020 MICROLOG 97-07187 (2 fiche)

Describes research methodology, profiles respondents, and presents results of a 1996 survey of 4,000 adult Albertans. The purpose of the survey was to assess progress towards a number of key performance measures identified in the Alberta Health business plan. Survey questions assessed self-reported health status and health needs, behavioural and lifestyle contributions to health, availability and accessibility of health care services, information received from health care providers, degree of satisfaction with the health care system, and variations by age, gender, and health region. Comparisons were also made with a similar survey conducted in 1995.

## 20 year forestry development plan, 1996-2015

St. John's : Dept. of Forest Resources & Agro-foods, Newfoundland Forest Service, 1996. 133 p. MICROLOG 97-07393 (2 fiche)

This plan document describes the goals and objectives of the Newfoundland Forest Service for 1996 to 2015 and sets the stage for protection of the province's natural ecosystems by ensuring that management is conducted in a sustainable manner through adaptive ecosystem management. The plan also contains the timber resource analysis and forest management strategy for the province, including wood requirements for various industry sectors. Programs and activities supporting the strategy are found in the final two chapters. These include initiatives related to decision support systems, forest mapping, woodlot management, national and international activities, forest industry development, forest roads, fire protection, insect and disease control, silviculture and research, information and education services, human resource development, and forestry legislation compliance and enforcement.

## Access near aquatic areas, a guide to sensitive planning, design and management

Victoria : Ministry of Environment, Lands & Parks ; Ottawa : Environment Canada ; Fisheries & Oceans ; Vancouver : Real Estate Foundation, 1996. iii, 82 p. : ill., Maps, Bibl. (Stewardship series / British Columbia and Canada) Funded by: Fraser River Action Plan. ISBN 0-7726-3115-8 MICROLOG 97-06970 (2 fiche)

This document provides a guide to balancing conservation with planning, design, and management of access near aquatic areas. It focuses on settlement lands and is intended for use by parks planners and staff, landscape architects, consultants, environmental agencies, and conservation groups. It first introduces the ecological context for management of aquatic environmentally sensitive areas (ESAs) and the principles of access planning, design, and management. It then presents advice on site assessment and planning principles for public trails and access points to those ESAs, and describes design and construction standards for public access (trails, decks, boardwalks, foot bridges, gates, safety measures). Subsequent sections cover trail management and maintenance, protection of aquatic ESAs using barriers, and aquatic ESA protection tools such as greenways, legislation, cooperative management, and covenants. The final section contains a case example of planning for public access in a residential area with sensitive aquatic features. The appendix includes summaries of a number of aquatic area access projects, a list of key legislation, and a glossary. BC CA CF ND NR PR PW SC

## Accommodating equality, guidelines : reasonable accommodation guidelines under the provisions of the Manitoba Human Rights Code

Manitoba Human Rights Commission. Winnipeg : The Commission, 1996. 32 p. French ed. (*Mesures d'adaptation pour...*) on the same fiche. MICROLOG 97-07306 (1 fiche)

## Adaptation and recommendation testing of forage varieties in Saskatchewan : final report

Of the Saskatchewan Forage Council ; prepared by: Randy Pastl. Regina : Agriculture Development Fund, 1997. vi, 14 p. Cover title: *Continuation of adaptation and recommendation testing of forage crop varieties in Saskatchewan : final report.* MICROLOG 97-06938 (1 fiche)

Describes and presents results of field testing of forage crop varieties in Saskatchewan carried out from 1992 to 1996. Forage yield and quality results are presented for such crops as bromegrass, wheatgrass, alfalfa, wildrye, and canarygrass. AG MS PR SC

## Addressing the issues of physical demands analysis (PDA) in the Ontario public service (OPS) : final report

By Hal De Lair. Toronto : Ministry of Labour, Centre for Disability & Work, 1993. 19 p. MICROLOG 97-07275 (1 fiche)

Physical demands analysis (PDA) has been used in the Ontario public service as a means for determining accommodation needs for job applicants with physical disabilities. A 1992 study verified that the use of PDA resulted in discriminatory hiring practices. This report describes the development of an alternative methodology for the identification of accommodation needs and solutions which is intended to avoid disability bias, be easy to understand and use, and fulfil managers' duty to accommodate. The new approach utilizes a template which provides prompts for the identification of accommodation needs. The template contains five workplace features and four types of accommodations in relationship to a given stage of the employment system and a specific functional limitation. Examples of application of the new approach are given for the case of an information technology analyst job being filled by a wheelchair user, a person with visual impairment, and a person with a hearing limitation. ### An Alliance of universities as an agent of knowledge transfer to small firms

By James E. McConnell. Buffalo, NY : State University of New York at Buffalo, Canada-United States Trade Center, 1997. 30 p. : *Bibl.* (Occasional paper / State University of New York at Buffalo. Canada-United States Trade Center ; no. 17)  
MICROLOG 97-06820 (1 fiche)

Describes and assesses a regionally focused strategy of industry modernization that is being launched by a consortium of research universities located in western New York state. This nationally funded demonstration program (the Greater Regional Industry Technology Program, or GRIT) is designed to upgrade the competitive advantages of small manufacturing firms that are presently financially stable but are experiencing increasing competition from foreign manufacturers because of inferior products and/or process technologies. The analysis identifies both the advantages and difficulties that arise when four schools of engineering attempt to work together to deliver new technologies and engineering know-how to small firms. The design of this demonstration program is compared to state-level programs that have been designated as best and most promising in providing assistance to small firms.

### Alternative financing for the United Nations : an idea whose time has finally come?

By James P. Walker. Ottawa : Dept. of Foreign Affairs & International Trade, 1995. 12 p. : *Bibl.* (Policy staff commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 10)  
MICROLOG 97-07444 (1 fiche)

The problem of outstanding contributions to United Nations finance by individual nations is long standing and has adverse effects on the organization's effectiveness and credibility. This commentary reviews the financing issue and addresses whether the time has come for the United Nations to move toward autonomous funding schemes. Alternative sources of financing are discussed in three categories: a tax on foreign exchange transactions; taxes or levies on travel, transport, communications or other international transactions; and taxes on the use of part of the global commons, such as seabed rights or pollution taxes. The commentary concludes with recommendations regarding options for Canada.

### Analysis of a steering truck retrofit for 6-axle locomotives

By RESCO Engineering ; author: Roy E. Smith. Montreal : Transport Canada, Transportation Development Centre, Safety & Security, 1996. 2 v. : *ill.*, *Bibl.* *Contents: Vol. 1 : Main report -- vol. 2 : Appendices.*  
MICROLOG 97-07398 (3 fiche)

Describes work performed and results achieved in a program of analysis to determine the benefits of retrofitting 6-axle locomotives with axle steering. Time- and frequency-domain analyses were conducted using the A'GEM software package and selected time-domain cases were repeated using the NUCARS vehicle analysis software for comparison. Predictions were made of wheel/rail angle of attack, wheel/rail forces, wear, tractive effort, and stability. The economic consequences of the performance enhancements produced by the retrofit were calculated and net present values for the retrofit were determined under various operating scenarios. The formulas are provided to enable extension of this analysis to other situations. Appendices include detailed analytical results.

### Analysis of triethylenediamine by theoretical techniques

By J. Mancuso and Rod J. McEachern. Pinawa, MB : Whiteshell Laboratories, 1997. 25 p. : *ill.*, *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11603 ISSN 0067-0367)  
ISBN 0-660-16895-2 CCG-P no. CC2-11603E  
MICROLOG 97-07383 (1 fiche)

In the event of a reactor accident, fission-produced iodine can be released as iodomethane. Triethylenediamine (TEDA) adsorbed onto the surface of charcoal filters is used to contain this gas via chemical reactions. This report presents a study of TEDA using the HyperChem 4.5 software to illustrate the utility of modern computational methods. The semi-empirical parametric method 3 (PM3) was used for all calculations. The study examined the formation and structure of the methyl-TEDA iodide salt formed in the iodomethane reactions and the electron-donor-acceptor complex between TEDA and iodomethane. The infrared vibrational frequencies of TEDA were determined and the calculated and experimental values were compared. To test the accuracy of PM3, the heat of formation of various compounds as well as various reaction enthalpies were calculated. Carbon-substituted TEDA analogues were also modelled and studied in terms of their reaction enthalpies to see if these improved the efficiency of the reaction between TEDA and iodomethane.

### Analytical modelling of oil and gas spreading under ice

By G. Comfort. Ottawa : Environmental Studies Research Funds, 1987. vi, 57 p. : *ill.*, *Bibl.* (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 077) ISBN 0-920783-76-7  
MICROLOG 97-07183 (1 fiche)

Wotherspoon et al. (1985) developed an analytical model to describe the spread of oil and/or gas under a level ice cover. This paper evaluates that model by undertaking a separate spreading analysis based on the observed processes and on a review of the available literature. The evaluation was performed for a spill in the southern Beaufort Sea for the case where currents are negligible. The re-

sulting analysis was used to predict the probable spread of oil and gas under an ice sheet. Results are compared to the Wotherspoon model predictions. The most significant differences between those two approaches are discussed. A computer program listing of a spreading model is appended.

### Animal agriculture, our living business : video and supportive booklet, final report

Prepared for Saskatchewan Department of Agriculture and Food, Agriculture Development Fund ; prepared by Foundation for Animal Care Saskatchewan Inc. (FACS). Saskatoon, SK : The Foundation, 1997. 13 p. *Cover title: A Balanced view of animal agriculture, video and supportive booklet : final report.*  
MICROLOG 97-07346 (1 fiche)

Reviews a project undertaken to fill the need for an educational package that would publicize and promote the animal agricultural industry in Saskatchewan. Describes the development and production of a video and accompanying booklet whose primary target audiences are schools, colleges, universities, the general public, governments, and potential industry supporters. The project involved development of a basic script, pre-production preparation, video filming and still photography at various Saskatchewan locations, and post-production (editing and addition of sound and graphic elements).

Reports of extensive layoffs in large organizations, both public and private, are a regular occurrence in the media. As part of a comprehensive research effort to examine job instability, the objective of this paper is to assess one dimension of job instability, permanent layoffs. The key question addressed in the paper is "have permanent layoffs in Canada increased in the 1990s as compared to earlier comparable periods?" The data source used in this research is the Longitudinal Worker File on the separations of Canadian workers from 1978 to 1993.

### Assessing conifer seed for fungal pathogens

By Sylvia Greifenhagen and Glenna H. Hayden.  
Sault Ste. Marie, ON : Ministry of Natural Resources, Ontario Forest Research Institute, 1997. 7 p. : *Bibl.* (Forest research note / Ontario Forest Research Institute ; no. 56 ISSN 0381-2650)  
MICROLOG 97-07488 (1 fiche)

Tree seeds are routinely assayed in British Columbia to identify and quantify specific fungal pathogens in order to help identify high risk seedlots prior to stratification and sowing. This paper describes a study to determine the effectiveness of the British Columbia seed assay method for identifying high-risk conifer seedlots in Ontario. Seedlots were selected from storage based on past germination performance or disease history and standard amounts of seed (spruce and pine) were shipped to a pathology laboratory for testing for the presence of *Fusarium*, *Sirococcus*, and *Phomopsis* fungi. Preventive strategies to reduce disease losses in seedlots are recommended.

### Atelier national sur l'ampleur des incendies de végétation au Canada : rapport de l'Atelier, cri d'alarme pour le développement durable des forêts canadiennes

[par] Albert J. Simard. Ottawa : Ressources naturelles Canada, Service canadien des forêts, Direction des sciences, 1997. x, 44 p. (Rapport d'information / Service canadien des forêts ; ST-X-13F ISSN 1192-1064) *L'éd. anglaise* (National Workshop on Wildland Fire...) sur la même fiche. ISSN 1192-1072 ISBN 0-662-81991-8  
GCC-E no Fo29-33/13-1996F  
MICROLOG 97-07205 (2 fiche)

Ce rapport répond au cinquième objectif de l'Atelier national sur l'ampleur des incendies de végétation au Canada, soit de diffuser les constatations et recommandations des participants. Il a été établi à partir des notes de Paul Ward sur les exposés et celles des rapporteurs des groupes de discussion. Il résume simplement l'Atelier sans interprétation des propos entendus, des constatations et des recommandations. Il incombera aux analystes des

politiques, aux responsables de la lutte contre les incendies, aux chercheurs et aux autres intéressés d'en tirer la signification en fonction de leurs propres intérêts. L'Atelier avait 5 objectifs : déterminer si les incendies ont augmenté ; évaluer et classer par ordre d'importance les causes possibles ; résumer les impacts potentiels ; recommander des mesures appropriées ; diffuser les constatations et recommandations des participants.

### Audit of operational planning, Ministry of Forests, Lake Forest District, Small Business Forest Enterprise Program

British Columbia. Forest Practices Board. Victoria : The Board, 1997. 1, 20 p.  
MICROLOG 97-07410 (1 fiche)

Presents findings of a limited-scope audit of operational planning for forest management activities in the British Columbia Ministry of Forests Small Business Forest Enterprise Program in the Lakes Forest District, Prince Rupert Forest Region. In the context of this audit, operational planning includes forest development plans, silviculture prescriptions, and logging plans. The audit included examination of the 1996-2000 Forest Development Plan, 43 silviculture prescriptions, 27 cutting authorizations, and 31 logging plans. It focused only on compliance with the operational planning requirements of the Forest Practices Code. Deficiencies are identified and recommendations are made to remedy situations of non-compliance.

### Autogenous healing properties of cement-based grouts

By Maria Onofrei, Leyton H. Roe and Barry Shenton. Pinawa, MB : Whiteshell Laboratories, 1997. 38 p. : *ill.*, *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11753 ISSN 0067-0367) ISBN 0-660-16970-3 CCG-P no. CC2-11753E  
MICROLOG 97-07384 (1 fiche)

Presents results of a study conducted to provide information on the ability of cement-based grouts to self-seal. Autogenous sealing was investigated both on bulk grouts and in thin films of grouts. In both cases, self-sealing capabilities was examined with water flowing through the grout. Autogenous sealing was studied through changes in pore structure (decrease in pore radius and volume of pores) and changes in the rate of water flow through the grouts. Reasons for observed changes in porosity are noted and the material observed to form in the available pore spaces is identified.

### Background ELF magnetic fields in Ontario offices

By Maurice Bitran, David Charron and John Nishio. Toronto : Ministry of Labour, Occupational Health & Safety Branch, Radiation Protection Service, Non-Ionizing Radiation Section, 1995. 14 p. : *ill.*, *Bibl.* ISBN 0-7778-4731-0  
MICROLOG 97-06836 (1 fiche)

Describes a study to measure the range of background extra-low-frequency (ELF) magnetic fields in 40 Ontario offices in order to determine the potential exposure range of office workers to these fields and to evaluate the assumption that office workers are a low-exposure group. Offices in the sample studied were divided into two groups: those that, in addition to electrical office equipment, had extraneous ELF sources such as transformers and distribution cables, and offices that had electrical office equipment but no extraneous sources. Measurements were made with an isotropic ELF magnetic field meter one metre above the floor in orthogonal grid patterns. Results of measurements between the two groups are compared, and the relation between the measurements and current ELF exposure guidelines is noted.

### Beaufort Sea extreme wave studies assessment

By Alan Murray and Marc Maes. Ottawa : Environmental Studies Revolving Funds, 1986. xii, 97 p. : *ill.*, *Maps*, *Bibl.* (Environmental Studies Revolving Funds report / Environmental Studies Revolving Funds (Canada) ; no. 023) ISBN 0-920783-22-8 MICROLOG 97-07195 (2 fiche)

There is a wide disparity in the results obtained in studies that quantified the worst sea states in the Beaufort Sea for the purpose of establishing suitable design criteria for offshore projects. The purpose of this report is to seek to explain and attempt to reconcile these differences through a comparison of the methods and assessment of the data used. In addition, shortcomings, weak assumptions, and uncertainties associated with the various methodologies are identified and suggestions for improvements are made. The report focuses on two studies, conducted by Hydrotechnology Ltd. and Seaconsult Marine Research Ltd., the former using a parametric hindcasting method and the latter using a spectral approach. A probabilistic extreme wave estimation approach based on joint probability distributions for wind speeds, duration, and fetch length is used as part of a sensitivity analysis to explain the discrepancies in the two studies' sets of published results. On the basis of the critical review and the sensitivity analysis, an appropriate extreme wave height range is estimated for deep water locations in the Beaufort Sea.

### Best management practices : nutrient management

Toronto : Ministry of Agriculture, Food & Rural Affairs ; Ottawa : Agriculture & Agri-Food Canada, 1994. 69 p. : *ill.*, *Bibl.* *French ed. (Les Pratiques de gestion optimales...)* : 97-06968/2. ISBN 0-7778-2684-4 MICROLOG 97-06967 (2 fiche)

This booklet describes best practices for agricultural nutrient management in Ontario. It begins with a review of the importance of nutrients to crops and the effects of nutrient additions on the environment. Basic background information on nutrients follows, including the nutrient cycle, the behaviour of nutrients in soil and plants, and types of nutrient deficiencies found in Ontario. Sources of nutrients are then reviewed, including naturally occurring sources, fertilizers, manures, and wastes. The final sections cover testing for nutrients and interpreting test results, and application of nutrients on the farm. Includes glossary.

### Brush encroachment control

By Garry Bowes and Brant Kirychuk. Regina : Saskatchewan Agriculture & Food, ADF, 1997. 85 p. : *ill.*, *Bibl.* *Cover title: Control brush encroachment and regrowth in the parkbelt with mechanical bark scuffers and a herbicide wiper : final report.* MICROLOG 97-07014 (1 fiche)

Describes a project that evaluated three different types of bark scrapers and a carpet wiper sprayer

for controlling aspen poplar growth at two community pasture sites in Saskatchewan. Bark scrapers are mechanical devices pulled over trees, which then bend over and have part of the bark peeled off. A carpet wiper has a folded outdoor carpet boom with herbicide applied on the inside; the herbicide seeps through the carpet and is wiped onto foliage as the boom passes over. Boom height can be adjusted so that only taller plants can be treated and small shrubs left as wildlife habitat. Results presented from field trials include size of aspen and scrape characteristics following scraper treatments; percent canopy kill and number of aspen suckers remaining; appearance of new suckers; yields of pasture following scraping; number of scraper passes needed for aspen management; time of application versus canopy kill; comparison with rotary mower and fire treatments; and canopy cover and forage yields following herbicide treatment.

### The Business of culture, a strategy for Ontario's cultural industries : the report

Ontario. Advisory Committee on a Cultural Industries Sectoral Strategy. Toronto : Ministry of Culture, Tourism & Recreation, 1994. 124 p. : Bibl. *French ed. (Affaires de culture, une stratégie...)* : 97-05450/2. *Summary (19 p.) and Résumé (19 p.) laid in.* ISBN 0-7778-3211-9 MICROLOG 97-06965 (3 fiche)

This report examines Ontario's cultural industries and assesses them using the same criteria that would be applied to any industry, including productivity, the ability to create jobs, the ability to produce competitive products, and the ability to gain market share. The strengths and weaknesses of various cultural sectors are evaluated along with their ability to contribute to the provincial economy.

Five broad sectors are examined: book publication, distribution, and sales; magazine and periodical publication, distribution, and sales; the production, distribution, sale, or exhibition of film or television programs; the production, distribution, sale, or exhibition of audio or video music recordings as well as music in print or machine readable form; and the production of commercial theatre. The report also sets out a strategy for strengthening Ontario cultural industries, including a vision and strategic goals, ways to make those industries more effective in the marketplace, positioning of the industries for the future, and changes to the operating environment. ### Business plan, 1997/98-1999/2000

Alberta. Alberta Community Development. Edmonton : The Ministry, 1997. 10 p. MICROLOG 97-07062 (1 fiche)

Alberta Community Development promotes community development, supports and independence and well-being of seniors; protects human rights and promotes fairness and equity; preserves, protects and presents Alberta's unique cultural and natural history; and, prevents and treats addictions. This document presents the business plan for the department for 1997-98 to 1999-2000 and describes the year's activities for each of its core businesses, as set out in its mandate. A consolidated income statement is included. AL PA PR SA SS

### Business plan and supplementary information, 1996/97-1998/99

Alberta. Alberta Community Development. Edmonton : The Ministry, 1996. 30 p. MICROLOG 97-07063 (1 fiche)

This document presents the Alberta Community Development business plan for 1996-97 to 1998-99. It describes activities for the year for each of its core businesses: promoting community development; supporting the independence and well-being of seniors; protecting human rights and promoting fairness and access; preserving, protecting and presenting Alberta's unique cultural and natural history; and includes a Ministry consolidated income statement. Appendices include performance measures for each of these core businesses, and a strategic business plan for Alberta seniors. AL PA PR SA SS

### Cadre proposé pour la mise en oeuvre de la politique monétaire après l'entrée en fonction du système de transfert de paiements de grande valeur (STPGV) : deuxième document de travail

Ottawa : Banque du Canada, 1996. 11 p. *L'éd. anglaise (A Proposed framework for the implementation...)* sur la même fiche. MICROLOG 97-07473 (1 fiche)

Ce document de travail aborde deux importantes questions d'ordre technique que soulève l'entrée en fonction du STPGV. En premier lieu, l'effet que les transactions de la Banque et les flux des paiements du gouvernement fédéral passant par la Banque du Canada ont sur le niveau des encaissements de règlement continueraient d'être neutralisés par l'entremise des transferts des dépôts du gouvernement plutôt que par des opérations de pension effectuées sur l'open market. La seconde question a trait au traitement des résultats de la compensation des effets de papier restants. CA CO ND SS

### Cadre proposé pour la mise en oeuvre de la politique monétaire après l'entrée en fonction du système de transfert de paiements de grande valeur (STPGV) : premier document de travail

Ottawa : Banque du Canada, 1995. 13 p. : ill. *L'éd. anglaise (A Proposed framework for the implementation...)* sur la même fiche. MICROLOG 97-07472 (1 fiche)

Dans la mise en oeuvre de sa politique monétaire, pour influencer sur le taux du financement, les paiements de la Banque sont effectués sous forme de chèques (ou papier). Ce document de travail aborde deux importantes questions d'ordre technique que soulève l'entrée en fonction du système de transfert de paiements de grande valeur (STPGV). La première concerne les moyens de neutraliser l'effet, sur les encaissements de règlement, des flux de paiements du gouvernement fédéral passant par la Banque du Canada et celui des transactions qu'effectue la Banque pour son propre compte. La deuxième a trait au traitement des résultats de la compensation des effets de papier

restants; pour cette question, deux solutions sont envisagées. Le résultat net de la compensation des effets de papier pourrait entrer en vigueur soit le lendemain soit de façon rétroactive le jour même, à la suite du processus de compensation (comme c'est actuellement le cas). Le document se penche sur les incidences de l'une et l'autre solution.

### The Calculated solubilities of hematite, magnetite and lepidocrocite in steam generator feedtrains

By David J. Jobe. Pinawa, MB : Atomic Energy of Canada Limited, Whiteshell Laboratories, 1997. 31 p. : ill., Bibl. (AECL research / Atomic Energy of Canada Ltd. ; AECL-11683 ISSN 0067-0367) ISBN 0-660-16981-9 CCG-P no. CC2-11683E MICROLOG 97-07299 (1 fiche)

Describes a study of the solubility of three iron oxides under representative steam generator feed train conditions. Solubilities were calculated using a thermodynamic data base for these oxides and the associated aqueous species. Results are presented for the solubility of iron for both magnetite in equilibrium with other iron oxides and for the individual oxides in the presence of various oxygen partial pressures. Calculations were also performed for feed train solutions containing 5 parts per billion of dissolved oxygen and pH buffered using mixtures of amines. The effect of the variation in iron solubility along the feed train with solution pH, temperature, and redox potential on corrosion product transport to the boiler is also discussed.

### Calf model for evaluating immune responses during disease and following vaccination : final report

By Philip Griebel. Regina : Agriculture Development Fund, 1997. 9 p. On cover: Prepared by VIDO. MICROLOG 97-07006 (1 fiche)

Reviews research conducted to determine whether dexamethasone treatment would facilitate the investigation of cell-mediated immune responses in calves. The first step involved determination whether dexamethasone treatment of lambs altered the antibody and cell-mediated immune responses to a vaccine antigen (the gD protein isolated from bovine herpes virus 1). The second step was to determine if this information could be used in cattle to develop better methods of assaying cell-mediated immune responses.

### Canada : drawers of water, hewers of wood and dangers of other myths

By I. Prakash Sharma, Allen Brown and David Weiner. Ottawa : Dept. of Foreign Affairs & International Trade, 1996. xiii, 29 p. : ill. (Policy staff paper / Canada. Dept. of Foreign Affairs & International Trade ; SP80A) (Trade policy series / Canada. Dept. of Foreign Affairs & International Trade ; 96/07) French ed. (Le Canada : porteurs d'eau...). : 97-06410/1. MICROLOG 97-07484 (1 fiche)

This paper explores issues relevant to the perception that Canada is bound to remain primarily an exporter of natural resources. The characteristics of resource-based economies with regard to diversification toward manufactured goods are noted, with comparisons made between Canada and three other resource-based economies (Australia, Argentina, New Zealand). This is followed by a review of the changes in the composition of trade, both imports and exports, and the growth in intra-industry trade in manufactures and commercial services. Characteristics of Canadian export manufacturing industries are then reviewed and some common misconceptions about Canada as a perceived resource-based economy are criticized. Finally, policy implications of a shift from resource-based exports to more advanced manufactured exports are discussed.

### Canada's Alcohol and Other Drugs Survey, 1994 : a discussion of the findings

By Patricia MacNeil and Ikuko Webster. Ottawa : Health Canada, Office of Alcohol, Drugs & Dependency Issues, 1997. xii, 92 p. : ill., Bibl. French ed. (Enquête canadienne de 1994 sur l'alcool...). : 97-07221/2. ISBN 0-662-24330-7 CCG-P no. H39-338/1-1994E MICROLOG 97-07220 (2 fiche)

Presents and discusses findings of a national survey of Canadians' behaviours and attitudes around alcohol and other drugs. The first chapter describes the survey objectives, coverage, and methodology, the latter including logistic regression analysis and multivariate analysis to examine the many independent variables that may influence particular behaviours and their interrelationships. Chapter 2 covers results relating to alcohol, including drinking patterns and harmful consequences of alcohol use. Chapter 3 presents results related to tobacco use, including consumption, relation to alcohol use, and experiences in quitting smoking. Chapters 4 and 5 cover the use of licit and illicit drugs, and chapter 6 focuses on gambling, its prevalence and correlates. The final chapter presents results related to public opinion regarding alcohol issues and cannabis policy.

### The Canadian Airborne Regiment in Somalia, a socio-cultural inquiry : a study

By Donna Winslow. Ottawa : Commission of Inquiry into the Deployment of Canadian Forces to Somalia, 1997. x, 330 p. : ill., Bibl. *French ed. (Le Régiment aéroporté...)* : 97-06840/4. ISBN 0-660-16944-4 CCG-P no. CP32-64/6-1997E MICROLOG 97-06816 (4 fiche)

This study examines one possible socio-cultural explanation for the events which took place in Somalia in early 1993, asking to what extent military culture (particularly the culture of the Canadian Airborne Regiment) affected the behaviour of Canadian soldiers there. The study methodology included examination of visual and written records as well as extensive interviews with Canadian Forces personnel involved in those events. The study is organized into sections reflecting the factors affecting the events discussed: contradictions within the military establishment, the culture and organization of the Airborne combat unit, and the situational contingencies that arose from the external environment in Somalia (physical, social, and cultural).

### Canadian policy analysis model : CPAM

By Richard Black and David E. Rose. Ottawa : Bank of Canada, 1997. 68 p. : ill., Bibl. (Working paper / Bank of Canada ; 97-16. ISSN 1192-5434) ISBN 0-662-26005-8 MICROLOG 97-06855 (1 fiche)

Documents the structure and properties of the Canadian Policy Analysis Model (CPAM), a model designed to provide a reasonably complete representation of the Canadian macro economy. CPAM is a one-domestic-good, small-open-economy model which features an endogenous supply side, behavioural equations for the principal components of demand, forward-looking expectations, and reaction functions for both the monetary and fiscal authorities. The model has an explicit steady state and is dynamically stable over a wide range of disturbances. CPAM is similar to the Bank of Canada Quarterly Projection Model (QPM) and has been calibrated to reflect QPM's dynamic properties in deterministic simulations. However, CPAM is smaller and has been configured to simulate much faster than QPM so that stochastic simulations on a large scale are feasible.

### Characterisation of iceberg pits on the Grand Banks of Newfoundland

By Susan H. Davidson and Alvin E. Simms. Ottawa : Environmental Studies Research Funds, 1997. xiv, 162 p. : ill., Maps, Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 133) ISBN 0-921652-37-2 MICROLOG 97-06972 (3 fiche)

The study described in this report was to examine the characteristics of iceberg pits on the Grand Banks and to provide an overall framework for the assessment of risk to seabed facilities from the iceberg pitting process. The study used a variety of techniques for data compilation, review, mapping, and analysis, including standard database techniques, statistical analyses, spatial analyses based on geographic information systems, and development of empirical rules using data-based knowledge acquisition techniques. The report first reviews the iceberg scour databases used in the study, then presents results of assessment of the spatial distribution and frequency of iceberg pitting events, the characteristics of the iceberg pit population, the relationship between iceberg pit formation and a variety of environmental parameters, and the risk levels associated with pit formation.

### The Characterization and analysis of load and load effect uncertainties for fixed offshore structures and their code implications, phase I

Centre for Frontier Engineering Research. Calgary, AB : National Energy Board, 1993. viii, 42 p. : ill., Bibl. On cover: Program of Energy Research and Development. ISBN 0-662-23659-9 MICROLOG 97-07223 (1 fiche)

Describes a study that focused on addressing the conceptual issues related to classifying and analyzing uncertainties in loads on offshore structures, and on developing a sound and practical methodology for uncertainty analysis. Uncertainties are classified with respect to source: basic uncertainty regarding physical parameters affecting the design load, model uncertainty regarding the calculations used to estimate physical parameters, and distribution uncertainty regarding probability distributions used to model random quantities. A generalized load model that incorporates all uncertainties is described and applied to wave loads on the Hibernia offshore structure. Effects of individual and combined uncertainties on calculated design loads are analyzed and the implications for design code development are discussed.

CA ND PS SC

### The Characterization and analysis of load and load effect uncertainties for fixed offshore structures and their code implications, phase II

Centre for Frontier Engineering Research. Calgary, AB : National Energy Board, 1994. vi, 40 p. : ill., Bibl. On cover: Program of Energy Research and Development. ISBN 0-662-23660-2 MICROLOG 97-07224 (1 fiche)

Describes a study conducted to further develop and test a previously developed methodology for characterization and modelling of uncertainties in the determination of loads on offshore structures. Tasks carried out in the study include a finalization of the methodology; an investigation of the sensitivity of the 100-year load effect with respect to the distribution types used to model uncertain parameters, the degree of non-linearity of the load effect model, and the probabilistic characterization of model uncertainty as fixed or variable in time; and development of design load factors leading to a specified target reliability level for a range of parameters. On the basis of the results, recommendations are developed regarding design code implementation for offshore structures.

### Characterization of rapidly changing populations of Phytophthora infestans in Canada, 1996

Charlottetown : Agriculture & Agri-Food Canada, Charlottetown Research Centre, 1997. 5 p. (Agri-info factsheet / Charlottetown Research Centre (Canada) ; 97-06) At head of title: Potato Program. MICROLOG 97-07140 (1 fiche)

Phytophthora infestans is a fungus that causes late blight of potato, a disease responsible for major crop failures such as the 19th-century Irish potato famine. Influx of new mating types of the fungus has resulted in increased disease problems and the genetics of fungal populations in Canada are changing rapidly, with many new strains appearing more aggressive and resistant to fungicide. This report reviews research in the Charlottetown Research Centre's potato program with regard to monitoring the evolution of *P. infestans* in Canada and recommending control programs to deal with new strains of the fungus. Research activities include determination of fungal genotypes and characterization of sensitivity of strains to the fungicide metalaxyl.

### Chemical products from Saskatchewan wild plants : final report

Fytokem Products Inc. Regina : Saskatchewan Agriculture & Food, Agriculture Development Fund, 1997. 62 p. : Bibl. MICROLOG 97-07012 (1 fiche)

Describes a project that surveyed 300 Saskatchewan wild plant species for their content of extractable biochemicals and examined these species for the presence of specific chemical classes of economic interest. Plant samples were subjected to methanol extraction, and extracts were screened for the presence of flavonoids, proanthocyanins, and aromatic oils. Analytical methods included chromatography, mass spectrometry, ultraviolet analysis, and nuclear magnetic resonance. General characteristics of the extracts are described along with follow-up examinations of extracts of selected species. Concludes with an outline of efforts to initiate commercial development of wild plant chemicals. Includes tables showing: plant species name, extract yield and aroma, and extract consistency; chemical classes previously reported from Saskatchewan plants; acid-hydrolyzed extracts, by species, showing flavonoids and other phenolic components; and traditional uses of selected species.

### Climatology of severe storms affecting coastal areas of eastern Canada

By R.D. Brown, P. Roebber and K. Walsh. Ottawa : Environmental Studies Revolving Funds, 1986. xii, 233 p. : ill., Maps, Bibl. (Environmental Studies Revolving Funds report / Environmental Studies Revolving Funds (Canada) ; no. 020) ISBN 0-920783-19-8  
MICROLOG 97-06925 (3 fiche)

Presents a study conducted to provide a set of worst storms for east coast regions, ranked by severity, and to classify the identified storms by type and season. The rationales behind the study were to provide a climatology of severe wave-producing storms and to identify the meteorological conditions associated with severe wave development for subsequent application of hindcast procedures and extreme value analysis in order to estimate design wave parameters. The region studied comprised the entire Canadian east coast from the Gulf of St. Lawrence to Baffin Bay. A variety of data sources was assembled to allow identification of potentially severe wave events covering the period from 1946 to 1982. Storm selection is summarized and discussed for seven sub-regions of the study area, and storm data are given in an appendix. Climatology of severe storms is discussed in terms of temporal distribution, seasonal patterns of storm tracks, and regional storm classification.

### CMHC's approach to mortgage underwriting for multiple projects

Canada Mortgage & Housing Corporation. Ottawa : The Corporation, 1997. 21 p. French ed. (L'Approche de la SCHL à la souscription...) on the same fiche. On cover: Mortgage Loan Insurance.  
MICROLOG 97-06940 (1 fiche)

Canada Mortgage and Housing Corporation Mortgage (CMHC) insurance has been in existence for over fifty years. During that time, it has assisted in the financing of one of every three housing units in Canada. This extensive experience has provided a unique perspective on risk assessment. CMHC has developed this document to explain to lenders or brokers the approach it has developed to underwrite residential projects. The reader will also know what documents will be required to support an underwriting recommendation and the reasoning behind the requirements.

### Code d'éthique de la recherche avec des êtres humains

Groupe de travail des trois conseils (Canada). Ottawa : Conseil de recherches médicales du Canada ; Conseil de recherches en sciences naturelles et en génie du Canada ; Conseil de recherches en sciences humaines du Canada, 1997. iii, 124 p. : Bibl. L'éd. anglaise (Code of ethical conduct...) : 97-06922/2.  
MICROLOG 97-06923 (2 fiche)

Ce code comprend deux parties. La première propose une description générale de son contexte et de sa portée et précise un cadre éthique devant permettre de mieux comprendre les questions éthiques et de les résoudre. La seconde, qui comprend dix chapitres, propose des instructions, des procédures et des pratiques. Cette seconde partie est émaillée de suggestions concernant les pratiques éthiques acceptables, qui se fondent sur l'expérience accumulée des spécialistes exerçant dans divers domaines - y compris des chercheurs poursuivant des projets sur l'éthique de la recherche avec des êtres humains. Cependant, celles-ci n'ont pas un caractère obligatoire. Enfin, on trouvera à la fin de ce document un glossaire des termes utilisés destiné à faciliter les références.

### Code of ethical conduct for research involving humans

Tri-Council Working Group (Canada). Ottawa : Medical Research Council of Canada ; Social Sciences & Humanities Research Council of Canada ; Natural Sciences & Engineering Research Council of Canada, 1997. iii, 111 p. : Bibl. French ed. (Code d'éthique de la recherche...) : 97-06923/2.  
MICROLOG 97-06922 (2 fiche)

This code has been written to help researchers, members of Research Ethics Boards (REBs), and administrators of institutions to develop and maintain the highest standards of ethical conduct in research involving humans. The first part establishes a philosophical approach within which to begin consideration of research ethics and a framework of ethical principles considered as fundamental to the ethical conduct of research. Part two provides ethical prescriptions, procedures, and practices. Topics covered include the composition and operation of REBs, informed consent, privacy and confidentiality, access to personal records, continuing ethical review, conflict of interest, clinical trials, responsibility for adverse outcomes, inclusiveness in research, research with collectivities, human genetic research, research on human reproduction, and the use of human tissue. The appendix includes sample consent forms and a glossary.

### Comparison of directional wave spectra

By Barbara-Ann Jusko. Ottawa : Environmental Studies Revolving Funds, 1988. xxviii, 227 p. : ill., Maps, Bibl. (Environmental Studies Revolving Funds report / Environmental Studies Revolving Funds (Canada) ; no. 099) On cover: Environmental Studies Research Funds.  
ISBN 0-920783-98-9  
MICROLOG 97-06866 (3 fiche)

Describes a directional wave spectrum intercomparison study designed to address various concerns related to ocean engineering and wave modelling. Two directional buoys were used to collect wave data at a site in the Hibernia area of the Grand Banks, a wave hindcast model was selected, synthetic aperture radar imagery was used to estimate directional spreads, and some ground-truthing was supplied for heave estimates and wave direction/wind direction. Section one of the report discusses the field operation and data collection, data processing techniques, and the relative performance of the buoys in terms of data return and results obtained. Section two details the hindcast model selection, choice of events, wind field used as input, and the spectra produced. Section three discusses assumptions and limitations behind the data sets and compares in a bulk statistical sense for spectral properties and also record by record when necessary. An examination of analyses specific to directional wave buoy data illustrates their potential usefulness for trouble-shooting and for studies ranging from the assessment of the direction of group travel to changes in wave surface shape. A final discussion on the applicability and performance of the instruments and methods leads to recommendations for future use.

### Les Conditions de logement des peuples autochtones au Canada : rapport sommaire

Ark Research Associates. Ottawa : Société canadienne d'hypothèques et de logement, Division des politiques et de la recherche sociales et économiques, 1996. x, 29 p. : ill., *Cartes géogr., Bibl. L'éd. anglaise (The Housing conditions of Aboriginal...)* sur la même fiche.  
ISBN 0-660-95386-2 GCC-E no NH15-151/1996F  
MICROLOG 97-06919 (1 fiche)

De nombreuses études de cas ont fait état des conditions de logement à la fois mauvaises et dangereuses ainsi que du surpeuplement dans les collectivités autochtones du Canada. Ces études ayant été fondées sur des approches variées, il est difficile d'en comparer les résultats ou d'obtenir une perspective nationale. Le principal but de cette étude est de décrire les conditions de logement actuelles de tous les peuples du Canada qui s'identifient en tant qu'Autochtones. A cette fin, l'étude fait appel aux données détaillées sur les peuples autochtones fournies par le recensement de 1991 et l'Enquête post-censitaire auprès des peuples autochtones de Statistique Canada. Ces informations sont utilisées en conjonction avec les normes élaborées par la SCHL pour évaluer les conditions et les besoins en matière de logement.

### Les Conditions de vie au Québec : un portrait statistique

Yves Nobert...et al. Québec : Bureau de la statistique du Québec, 1996. 349 p. : ill., *Bibl.*  
ISBN 2-551-17187-3  
MICROLOG 97-07023 (4 fiche)

Cet ouvrage constitue plus qu'une mise à jour de la publication parue en 1992 intitulée *Portrait social du Québec*, par rapport à la publication précédente, celle-ci comporte quelques changements dans ses grandes composantes. Alors que les volets démographique et environnemental ont été retirés, 2 éléments nouveaux ont été ajoutés. Il s'agit du chapitre sur les transferts et services gouvernementaux à la population ainsi qu'une étude spéciale qui développe davantage l'un des aspects de la sécurité des personnes: la violence conjugale. Dans chacun des chapitres, la démarche d'analyse adoptée vise, lorsque c'est possible, à apprécier si les conditions de vie se sont améliorées ou détériorées. Aux fins de cet ouvrage, c'est l'année 1995 qui a été retenue

comme année cible la plus récente. Cependant, pour de nombreux indicateurs, particulièrement ceux issus de recensements de la population ou d'enquêtes pluriannuelles, il s'agit d'une année antérieure à 1995. Le document comprend des statistiques.

### Consolidated fluid holdover time field test data

Prepared for Dryden Commission Implementation Project, Transport Canada ; by APS Aviation Inc. Montreal : APS Aviation Inc., 1995. xii, 167 p. : ill. *On cover: All fluids.*  
MICROLOG 97-07276 (2 fiche)

Presents results from a research program conducted to advance aircraft ground de-icing and anti-icing technology. Consolidated data are provided which are associated with the substantiation of international standard tables of holdover times, which are the times that a test fluid can delay ice formation. Holdover times are given as a function of weather condition, fluid mixture, and outside air temperature. Testing included natural snow tests conducted outdoors at Dorval Airport and tests of simulated freezing fog, freezing drizzle, light freezing rain, and rain on cold-soaked surfaces carried out at National Research Council facilities. Test data are subdivided as a function of precipitation condition. Charts have been developed for each precipitation condition type to illustrate the important variables such as precipitation rate, temperature, and wind speed as a function of fluid failure time.

### Consumer evaluation of wheelchair accessible social housing

Options Consulting. Ottawa : Canada Mortgage & Housing Corporation, 1996. vii, 120 p. : ill., *Bibl.*  
MICROLOG 97-06834 (2 fiche)

Evaluates the congruence between the design of wheelchair accessible residential units and the requirements of the consumers for whom they are designed. The study sample consisted of 34 people with disabilities who lived in wheelchair accessible non-profit housing units in the greater Vancouver area. A survey instrument was used to structure an interview with each participant in their residence, and measurements and observations were also obtained pertaining to the dwelling and specific design features related to accessibility. The findings reflect both the subjective experiences of the participants and the objective quantitative data regarding the physical design features. Recommendations are made with respect to design issues in order to contribute to the design and construction of appropriate and accessible housing for persons with disabilities.

### Cultural and chemical control of pythium seed and root rot of field pea : final report

Prepared by: Alberta Research Council ; authors, Sheau-Fang Hwang...et al. Regina : Saskatchewan Agriculture & Food, ADF, 1997. 71 p. : *Ill., Bibl.*  
MICROLOG 97-07026 (1 fiche)

In the Alberta and Saskatchewan parkland region, sudden temperature drops after planting of field pea seeds often cool the soil enough to inhibit germination and predispose seeds and seedlings to infection by soil pathogens. This report describes a project conducted to improve seedling establishment of field pea by developing an integrated control program for Pythium seed decay, damping-off, and root rot. Field studies were conducted to determine the effect of seeding date and fungicidal seed treatments on Pythium root rot of field pea, and laboratory studies investigated the feasibility of integrating chemical seed treatments with biological control measures. Results presented include crop yield, percent survival, plant height and weight, and degree of nodulation of field pea following treatment.

### Database report for the Caen frost heave test facility

L.E.C. Engineering Ltd. Calgary, AB : National Energy Board, 1994. v. 89 p. : *ill., Bibl.* *On cover: Program of Energy Research and Development.* ISBN 0-662-25504-6  
MICROLOG 97-07229 (2 fiche)

Describes databases for data from experiments completed 1990-93 at the joint Canada-France chilled buried pipeline test facility located in Caen, France. The facility consists of a refrigerated hall containing a trough filled with frost susceptible soil in which a steel pipe (273 millimetres diameter, 16 metres long) is buried, along with associated instrumentation and refrigeration equipment. The facility is used for research into the effects of frost heave around a buried pipeline under controlled experimental conditions. The 1990-93 experiments examined forces that would be exerted on a buried gas pipeline crossing a boundary between permafrost and unfrozen, frost-susceptible ground. Information is included on the experimental operating conditions, the instrumentation used, and details of databases for pipe elevation and strain data, temperature data, soil pressures, soil heave data, and soil surface profile data.

### Dating fractures and fracture movement in the Lac du Bonnet Batholith

By M. Gascoyne...et al. Pinawa, MB : Whiteshell Laboratories, 1997. 129 p. : *ill., Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11725 ISSN 0067-0367)  
ISBN 0-660-16964-9 CCG-P no. CC2-11725E  
MICROLOG 97-07237 (2 fiche)

Summarizes and examines all work done from 1980 to the present on determining the age of rock crystallization, fracture initiation, fracture reactivation, and rates of fracture movement in the Lac du Bonnet Batholith, in order to provide information for the Canadian nuclear fuel waste management program. Geological and petrographic indicators of relative age were calibrated with radiometric age determinations on minerals and whole rock samples. Reactivation of fractures during the Pleistocene was established from uranium-series dating methods and use of stable isotopic contents of fracture infilling materials, mainly calcite. Some indication of movement on fracture zones during the Pleistocene is given by electron spin resonance dating techniques on fault gouge.

MICROLOG 97-06842 (2 fiche)

The purpose of this paper is to: identify the implications for international business and markets of various vertical restraint practices; provide a comparative analysis of the treatment accorded to vertical business practices in the law of Canada, the United States, and Japan; and examine some of the implications for the co-ordination of trade and competition policies. In particular, the paper analyzes five specific vertical restraints in detail: resale price maintenance, exclusive territorial and customer restrictions, exclusive dealing, tied sales, and vertical franchising agreements.

### Dépense d'énergie quotidienne et cycle de l'eau chez les oiseaux de rivage à Alert, sur l'île d'Ellesmere, T.N.-O.

Par R.I. Morrison, N.C. Davidson et Theunis Piersma. Ottawa : Environnement Canada, Service canadien de la faune, 1997. 9 p. (Cahiers de biologie / Service canadien de la faune ; no 211 ISSN 0703-0967) *L'éd. anglaise* (Daily energy expenditure and water turnover...) : 97-06012/1. ISSN 0069-0023 ISBN 0-662-82104-1 GCC-E no CW69-9/211F  
MICROLOG 97-07016 (1 fiche)

Les oiseaux de rivage qui nichent sur le littoral nord de l'île d'Ellesmere fréquentent certaines des terres les plus septentrionales du monde. Ce cahier de biologie présente les résultats des premières mesures empiriques de la DEQ des oiseaux de rivage effectuées durant la saison de nidification à Alert d'après la technique de l'eau à double marque. Il présente également les résultats de mesures du cycle de l'eau.

### Descriptive sensory analysis : the profiling approach

By L.E. Jeremiah, L.L. Gibson and K.L. Burwash. Ottawa : Agriculture & Agri-Food Canada, Research Branch, 1997. 10 p. (Technical bulletin / Canada. Agriculture & Agri-Food Canada. Research Branch ; 1997-2E) ISBN 0-662-25-963-7

CCG-P no. A54-8/1997-2E  
MICROLOG 97-07249 (1 fiche)

In food product research and development, it is often necessary to look beyond overall palatability, texture, and flavour and evaluate the individual components of these properties. This can be accomplished by using descriptive sensory analysis and the profiling approach to food texture and flavour. This bulletin provides details regarding this approach, including information on the evaluation of food character notes (aroma, flavour, taste), texture, intensity, order of appearance, aftertastes, after-feelings, and the use of sensory evaluation panels.

### Désertification, le chemin parcouru : la contribution du Canada à la poursuite des objectifs de la Convention des Nations Unies sur la lutte contre la désertification

Hull, PQ : Agence canadienne de développement international, 1997. 28, 28 p. : *ill. Bilingue* (Desertification, meeting the challenge...). ISBN 0-662-62790-3 GCC-E no E94-250/1997  
MICROLOG 97-07189 (1 fiche)

La désertification est un problème urgent qui touche de nombreuses régions de la planète. On estime que près du quart de la surface émergée totale du globe est constituée de zones semi-arides, à l'exclusion des zones hyper-arides (les déserts), menacées de désertification. Ce document porte précisément sur la contribution du Canada à la poursuite des objectifs de la Convention des Nations Unies sur la lutte contre la désertification. Il donne une liste des projets bilatéraux de l'ACDI, et de CRDI (Centre de recherches pour le développement international) en ordre par région et pays et avec le budget total de chaque projet.

### Desertification, meeting the challenge : Canada's commitment to the United Nations Convention to Combat Desertification

Hull, PQ : Canadian International Development Agency, 1997. 28, 28 p. : *ill. Bilingual* (Desertification, le chemin parcouru...). ISBN 0-662-62790-3 CCG-P no. E94-250/1997  
MICROLOG 97-07189 (1 fiche)

Desertification is an urgent problem affecting regions in many parts of the world. It is estimated that nearly one quarter of the world's total land area is dry-land, excluding hyper-arid areas (deserts), and at risk from desertification. This document looks at Canada's commitment to the United Nations convention to combat desertification. It also includes a list of Canadian International Development Agency and International Development Research Centre approved projects relating to combating desertification, arranged by region, sub-region and country.

### Design and performance of a high dynamic range clamping amplifier for a MAWS transceiver (U)

By D. Michael Bowry and Bob W. Robinson. Ottawa : National Defence, Defence Research Establishment Ottawa, 1996. vii, 20 p. : *ill., Bibl.* (Technical note / Defence Research Establishment Ottawa ; 96-006)  
MICROLOG 97-07449 (1 fiche)

A missile approach warning system for the CF-18 aircraft includes a transceiver whose receive chain has a final stage that converts a radar return into an intermediate frequency subsequently digitized by an analogue to digital converter (ADC). The last stage must also provide amplification to that return, while clamping the output to a desired threshold so as to restrict the degree of potential ADC saturation during strong radar returns. The clamping amplifier must be able to recover from saturation in 50 nanoseconds or less and provide at least 73 decibels of dynamic range under normal operation.

This report outlines the amplifier design specifications, performance issues considered in the design (dynamic range, third-order intermodulation products, saturation recovery time), and the performance test results of the clamping amplifier.

### Design of an iceberg scour repetitive mapping network for the Canadian east coast

Geonautics Ltd. Ottawa : Environmental Studies Revolving Funds, 1987. ix, 50 p. : *Maps* (Environmental Studies Revolving Funds report / Environmental Studies Revolving Funds (Canada) ; no. 043). *Fold. maps not filmed*. ISBN 0-920783-42-2  
MICROLOG 97-07354 (1 fiche)

Provides recommendations for the establishment of a network for the purpose of monitoring the recurrence rates of iceberg/seabed interactions on the eastern Canadian continental shelf. The network is based on a detailed analysis of predicted iceberg grounding densities, generated by a computer model, combined with available information on existing iceberg scours, observed and interpreted groundings and scours, seabed geological conditions, and existing geophysical data. The network recommended covers a variety of water depths and surficial geological conditions over a broad geographic range, ensuring that the results will be applicable to many other areas on the shelf. The size and orientation of each control area or corridor, the geophysical instruments to be used, the survey techniques, and the recommended intervals between surveys are specified and are designed to ensure optimum probability of successful, complete, and reproducible data collection.

### Designated substances in the workplace : a guide to the asbestos regulation for construction projects, buildings and repair operations

Toronto : Ministry of Labour, 1987. iv, 118 p. : *ill.*, *Bibl.*  
MICROLOG 97-06835 (2 fiche)

This guide has been prepared to help employers, builders, workers, health/safety personnel, and others to meet the requirements of the Ontario designated substance regulation respecting asbestos on construction projects and in building and repair operations. The guide begins with a review of the hazards of asbestos, of the asbestos regulation and its application, and of the prohibitions and limitations on asbestos use. The guide also contains sections on the classification of workers exposed to asbestos, procedures for asbestos removal, inspection and notification requirements, the utilization and management of asbestos in buildings, the use of respirators, instruction and training requirements for workers exposed to asbestos, medical surveillance requirements, and the use of equivalent measures and procedures. The appendices include a glossary, checklists for asbestos work procedures and respirator inspection, and procedures for bulk sampling and for work with asbestos-containing friction materials.

### Developing improved waxy and high amylose barley varieties : final report

By B.G. Rossnagel. Regina : Saskatchewan Agriculture & Food, ADF, 1997. 53 p. *On title page: Prepared by Crop Development Centre. Cover title: Developing improved hullless waxy and high amylose barley varieties : final report.*  
MICROLOG 97-07013 (1 fiche)

Describes a project designed to advance the development of specialty starch (waxy and high-amylose) hullless barley genotypes for production in Saskatchewan. Several unique combinations of beta-glucan, acid extract viscosity, and waxy/fractured/normal starch type were selected and put through the breeding process, with several crosses

designed to add improved disease resistance, straw strength, yield potential, threshability, and physical grain quality to these base materials. High amylose genotypes were purified and characterized for beta-glucan concentration and viscosity. Seed stock development of several specialized starch, beta-glucan, and viscosity selections was also completed.

### The Development of a Canadian oil-spill countermeasures training programme

By S.G. Potter, S.L. Ross and L.C. Oddy. Ottawa : Environmental Studies Research Funds, 1987. viii, 199 p. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 079) ISBN 0-920783-78-3  
MICROLOG 97-07200 (3 fiche)

This report discusses four phases of a project conducted to develop a program to train oil industry personnel who have countermeasures responsibilities with respect to oil spills on Canada lands. The focus is on marine oil spills of major proportions and on the response training needed for these. The first phase of the project identified the exact training needs for the Canadian offshore oil industry in terms of spills of concern, who needs training, and specific subjects of that training. This phase was based on interviews with oil company environmentalists and analyses of oil spill contingency plans. The second phase involved evaluation of existing courses to identify those which satisfy the identify training needs identified in the first phase. The third phase involved development of a detailed curriculum for a proposed Canadian Oil Spill Training Programme. Detailed course outlines for each new course are provided which serve as a framework for the actual development of the courses. The final phase provided a summary and recommendations on program implementation, course delivery, and other future requirements.

### Development of marketable herb-flavoured honey products : final report

By Branka Barl, Alan McCurdy and Carol Ann Patterson. Regina : Agriculture Development Fund, 1997. 26 p. : *ill.* *On cover: Prepared by University of Saskatchewan.*  
MICROLOG 97-06999 (1 fiche)

Describes a project to assist a Saskatchewan company to develop a new line of herb-flavoured honey products that meet quality and safety standards. Specific objectives were: to extract essential oil flavorants from locally grown spearmint and peppermint; to develop an optimal process for flavouring honey and to formulate a marketable herb-flavoured honey product; and to conduct chemical and microbiological analysis of raw and herb-flavoured honey products. Creamed and liquid honey and two types of flavorants, ground herb leaves and essential oils, were evaluated. Products, both raw and processed, were tested for pH, water activity, and soluble products, and for microbe content.

Sensory evaluation of the flavoured honeys was carried out by a test panel, and results are presented. Appendices include chromatographic analyses and a copy of the sensory evaluation questionnaire.

### Development of optimal fertilizer rate recommendations for use when direct seeding canola with an air seeder : final report

Saskatchewan Canola Growers Assn. Regina : Agriculture Development Fund, 1997. 20 p. : *ill.*  
MICROLOG 97-07119 (1 fiche)

Reports on trials conducted to develop recommendations for seed-placed fertilizer rates for use when direct seeding canola with air seeders. In the trials, four different designs of air seeder openers were used, with various spread patterns of seed and fertilizer. Nitrogen fertilizer was placed with the seed at various rates in a field-scale randomized complete plot design. Results presented include plant counts taken at emergence versus seeder opener design and fertilizer rate; effect of fertilizer placement and rate on yield and on contribution margin; and effect of row spacing on row width utilization.

### The Development of speech communication capability tests : final report

By Sharon M. Abel. Downsview, ON : Defence & Civil Institute of Environmental Medicine, 1993. 39 p. : *ill.*, *Bibl.*  
MICROLOG 97-07447 (1 fiche)

Describes experiments undertaken to determine the effect of a mild bilateral sensori-neural hearing loss on speech perception in noise in subjects with communications experience. Two groups with normal hearing and hearing loss were compared with respect to the following measures: detection thresholds at 2000 Hertz and 4000 Hertz in quiet and in a background of 90-decibel helicopter noise, frequency selectivity in the region of 2000 Hertz, consonant discrimination in quiet and in speech spectrum noise, and word recognition in multi-talker babble noise. Perceived communication handicap was assessed by two questionnaires, the first to document communications experience and the second a standard profile for routine audiometric assessments.

### Direct seeding of alfalfa and meadow brome grass for hay and seed production : final report

H.A. Loeppky...et al. ; prepared by: Agriculture and Agri-Food Canada. Regina : Agriculture Development Fund, 1997. 20 p. : *Bibl.*  
MICROLOG 97-07002 (1 fiche)

Traditional establishment techniques for perennial forages involve extensive use of tillage to control weeds before seeding and prepare a fine, firm seedbed. This report describes experiments conducted at four sites in northern Saskatchewan to determine the effect of reducing or eliminating tillage on hay and seeding production of alfalfa and meadow brome grass. Three seeding dates were also included in the trials to see whether seeding date altered the response to reduced tillage. Results are presented in terms of such matters as crop establishment, weed populations, and crop productivity.

### Divergent inequalities, theory and empirical results -- Rev.

By Michael C. Wolfson. Ottawa : Statistics Canada, Analytical Studies Branch, 1997. 24 p. : *ill., Bibl. (Research paper series / Statistics Canada. Analytical Studies Branch ; no. 66) French ed.*

(Mesures d'inégalité divergentes...) on the same fiche. ISSN 1200-5223 ISBN 0-662-21717-9  
SCC 11F0019MPE no. 66  
MICROLOG 97-06815 (1 fiche)

Widely used summary statistical indicators of inequality or the disappearing middle class are potentially misleading. Four kinds of divergence between evidence cited and conclusions claimed are considered. The first is a distinction between the fundamental concepts of inequality and polarization. Second, some measures in wide use do not correspond to the gold standard concept of inequality rankings based on Lorenz curves. Beyond these conceptual problems, claims made about trends in inequality may be inappropriate because they fail to account for sampling variability, or because they should be more clearly circumscribed when only a sub-population like full-time male workers is being considered. For all of these cases of potential divergence, examples are given using Canadian data on labour incomes over the 1967 to 1991 period.

### Drop size and dispersant effectiveness : small-scale laboratory testing

By Randy Belore and Donald Mackay. Ottawa : Environmental Studies Research Funds, 1987. v, 31 p. : *ill., Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 082) ISBN 0-920783081-03*  
MICROLOG 97-07203 (1 fiche)

Describes a study conducted to evaluate the validity of a mathematical model (Mackay et al., 1986) concerning the prediction of the effectiveness of oil spill dispersants. The model predicts the likely effectiveness of a dispersant using the mean dispersant drop size and the oil slick thickness distribution based on two dispersion regimes: dispersant performance limited and access limited. A small scale laboratory test was developed to test the theory. Important components of the test included a system for dispersant application in ultra-uniform drop sizes, the ability to generate oil slicks of uniform thickness, and the establishment of an appropriate dispersant dosage and mixing energy. Tests were carried out with three dispersants and four crude oils.

### East coast repetitive seafloor mapping, 1979/1990

Geonautics Ltd. Ottawa : Environmental Studies Research Funds, 1991. ix, 151 p. : *ill., Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 128) ISBN 0-921652-30-5*  
MICROLOG 97-06901 (2 fiche)

In early December 1979, sidescan sonar surveys were conducted on the north-eastern Grand Banks, consisting of ten survey lines about 70 kilometres in length and spaced two kilometres apart. The purpose of the survey was to document the character and distribution of iceberg scours in the Hibernia

offshore development area as a basis for improved understanding of the scouring process and better information concerning the severity of scouring and potential impacts on future oil-related seabed installations. This report presents a study conducted to resurvey those ten survey lines using identical equipment and operating parameters, and to analyze the data for the purposes of identifying new scour events and/or documenting observable changes to previously mapped features. The new survey was conducted August through September 1990. Results of the two surveys are compared, and key criteria are highlighted which must be satisfied when attempting to use acoustic remote sensing methods for detecting seabed changes.

### Economic impact study of major marine initiatives : final report

Prepared by: Hickling Corporation ; in association with: Booz, Allen & Hamilton Inc. Ottawa : Dept. of Fisheries & Oceans, 1996. x, 204 p. : *ill.*  
MICROLOG 97-07435 (3 fiche)

Examines the economic impact of seven federal marine initiatives: the Marine Navigation Services Fee for aids to navigation; the Icebreaking Services Fee; the reform of the port system; the commercialization of the St. Lawrence Seaway Authority; the reform of pilotage; the withdrawal of the Canadian Coast Guard from dredging in harbours and channels; and the initiation of emergency response organizations. Study methodology was characterized by a high degree of openness and interaction with industry and a rigorous analytical approach, including meetings with industry representatives and detailed case studies on 16 movements considered to be the most sensitive to changes in cost. The study examined short-term economic impacts of the seven initiatives in four fiscal years, 1996/97 to 1999/2000. Impacts are presented by major sector, including forest products, grain, minerals, met-

als, containers, ferries, and petroleum transport; by region, including Canada-United States trade; and in other areas/sectors including remote areas and public institutions.

### Effects of aerial spraying of forestry herbicides on aquatic ecosystems, part V : results from environmental monitoring of study sites

By Geoffrey B. Jones, L. Gordon Goldsborough and Dennis J. Brown. Winnipeg : Manitoba Environment, 1996. viii, 88 p. : ill., *Maps, Bibl.* (Report / Manitoba. Manitoba Environment ; no. 96-08) *On cover: Canada-Manitoba Partnership Agreement on Forestry.*  
MICROLOG 97-06858 (2 fiche)

Describes a long-term study established to examine the response of forest aquatic vegetation to glyphosate applications at eight small ponds in the south-eastern boreal forest region of Manitoba. The ponds were monitored over 1985-1993, and were grouped into four pairs on the basis of similarities in water chemistry. One pond of each pair was designated as a control while the other received aerial applications of glyphosate. Baseline physical, chemical, and vegetation features of each site were recorded prior to glyphosate application. Following the herbicide treatment, a regular sampling schedule was established to monitor the chemical and physical variables at each site. In addition, weather conditions were monitored during each growing season over the whole study area. Results presented relate to whether glyphosate application affected the water chemistry of the ponds studied.

### Effects of streamflow regulation on groundwater discharge through brook trout spawning and incubation sites in the Nipigon River

Prepared by: R. Allen Curry...et al. ; for the North Shore of Lake Superior Great Lakes Cleanup Fund Program. Thunder Bay, ON : Ministry of the Environment, 1992. vii, 42 p. : ill., *Bibl.* (North shore of Lake Superior remedial action plans technical report series / Ontario. Ministry of the Environment ; no. 13) *On cover: North Shore of*

*Lake Superior Remedial Action Plans.*  
ISBN 0-7778-0013-6  
MICROLOG 97-06895 (1 fiche)

The Nipigon River in northern Ontario is an important source of hydroelectric generation and, as such, is subject to fluctuations in water levels which can be damaging to biota. Critical spawning and nursery habitat for brook trout in the Nipigon are susceptible to short-term water level fluctuations and minimum flow rates, and groundwater flow (an important component to successful brook trout spawning and incubation) is affected by fluctuations in river levels. The study reported in this document was conducted to determine the effect of river level fluctuations in the Nipigon on groundwater flow and subsequently on brook trout spawning and recruitment. Investigators installed piezometers to measure pore water pressure and sample water chemistry at three known spawning sites in the river. Implications of the observed results for brook trout spawning success are discussed.

### Effets des coupes forestières sur la disponibilité des sites de nidification pour le garrot à oeil d'or, *Bucephala clangula*, en sapinière boréale

Par Marianne Courteau, Marcel Darveau et Jean-Pierre L. Savard. Sainte-Foy, PQ : Environnement Canada, Direction de la conservation de l'environnement, Service canadien de la faune, Région du Québec, 1997. v, 22 p. : ill., *Bibl.* (Série de rapports techniques / Service canadien de la faune ; no. 270 ISSN 0831-6481)  
ISBN 0-662-81823-7 GCC-E no CW 69-5/270F  
MICROLOG 97-07389 (1 fiche)

Il est connu déjà que la densité de population des oiseaux nicheurs de cavités est directement influencée par le nombre de sites disponibles pour la nidification. La variation de ces sites peut être occasionnée par des processus naturels tels des feux de forêts ou encore par l'action humaine. En termes de conservation, la diminution des sites de nidification est évidente dans des régions où l'on aménage intensivement les forêts. Les arbres sont abattus avant qu'ils n'atteignent une dimension nécessaire pour fournir des cavités adéquates. Dans ce rapport on traite de la méthodologie, résultats, et discussion (arbres, cavités, et garrots).

### Electrofishing data from a monitoring program designed to detect the changes in acid toxicity that are expected to result from a reduction in the long-range transport of acid pollutants into Nova Scotian salmon rivers

By W.D. Watt, P.J. Zamora and W.J. White. Halifax : Dept. of Fisheries & Oceans, Maritimes Science Branch, Diadromous Fish Division, Habitat Research Section, 1997. v, 23 p. : *Maps, Bibl.* (Canadian data report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 1002 ISSN 0706-6465) CCG-P no. FS 97-13/1002E  
MICROLOG 97-07255 (1 fiche)

Provides locations and descriptions of 13 electrofishing sites on four Atlantic salmon rivers in Nova Scotia that have been acidified by long-range transport of acid pollution (acid rain). Annual electrofishing data from these sites are also tabulated for 1982 to 1995. The work is part of a program to monitor the recovery from acidification that is expected to follow the Canada-US agreement for control of sulphate emissions.

### Empowerment through community government legislation : a discussion paper on proposed changes to community government legislation

Yellowknife : NWT Municipal & Community Affairs ; Northwest Territories Assn of Municipalities, 1997. iii, 48 p. : ill.  
MICROLOG 97-07338 (1 fiche)

This paper presents proposals and options for changes to the legislation that provides for the organization and powers of community governments in the Northwest Territories. Acts under review are the Settlements Act, Hamlets Act, Charter Communities Act, and the Cities, Towns & Villages Act, and the review also involves the Property Assessment & Taxation Act and the Local Authorities Elections Act. The proposals and options are presented under a number of themes: simplification, clarification, and flexibility of upgraded legislation to enable community governments to respond more effectively to local needs; elimination of requirements and powers not justified by territorial interests; expansion of community government corporate powers; increasing accountability to local residents; response of municipal legislation to the changing political environment; local elections; and changes to local taxation and property assessment. ### Ending child labour exploitation, a Canadian agenda for action on global challenges : report

Canada. Parliament. House of Commons. Subcommittee on Sustainable Human Development. Ottawa : The Subcommittee, 1997. x, 74, x, 84 p. Bilingual (Mettre un terme à l'exploitation...). MICROLOG 97-07294 (2 fiche)

Part one of the subcommittee's report defines the parameters of child labour exploitation as a global challenge demanding Canadian responses. Insights from ongoing international research and from our witnesses provide a basis for developing a better understanding and analysis that can in turn lead to more effective Canadian actions in concert with those of other countries. Part two of the report proceeds from this to elaborating an action-oriented foreign policy framework for tackling child labour exploitation. CA CI DE EX LA PA SS

### Les Enfants disparus au Canada : rapport statistique annuel 1996, Bureau d'enregistrement des enfants disparus

Ottawa : Gendarmerie royale du Canada, 1997. 10, 10 p. Titre de la couv. : 1996, rapport annuel sur les enfants disparus au Canada : Bureau d'enregistrement des enfants disparus. Bilingue (Canada's missing children...). MICROLOG 97-07359 (1 fiche)

Le Bureau d'enregistrement des enfants disparus a pour objectif d'aider les services de police, tant à l'échelle nationale qu'internationale par l'intermédiaire d'Interpol, à retrouver rapidement et sûrement les enfants séparés de leur famille. Le rapport sur les enfants disparus décrit l'ampleur du problème au pays. Les statistiques figurant dans ce rapport proviennent du Centre d'information de la police canadienne. Le rapport donne une vue d'ensemble, et ensuite traite de l'enlèvement par un étranger ou par un parent, des fugues, des enfants en danger, ainsi que des tendances. On analyse des statistiques selon plusieurs critères tels le sexe ou la province. CA JU ND SA SS ST

### Enquête canadienne de 1994 sur l'alcool et les autres drogues : analyse des résultats

Par Patricia MacNeil et Ikuko Webster. Ottawa : Santé Canada, Bureau de l'alcool, des drogues et des questions de dépendance, 1997. xii, 102 p. : ill., Bibl. L'éd. anglaise (Canada's Alcohol and

### Environmental loading studies for the CSA offshore structures code

Norman Allyn...et al. Ottawa : Environmental Studies Research Funds, 1995. xv, 86 p. : ill., Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 131) ISBN 0-921652-34-8 MICROLOG 97-06900 (2 fiche)

Describes work conducted to examine issues related to the CSA/CAN S474 Code for Fixed Offshore Concrete Structures, divided into two phases: examination of the appropriateness of the 1.35 load factor specified for use on the 1 in 100 year iceberg for the design of the concrete strength; and examination of the load combination factors specified in the Code for rare environmental events occurring along with companion frequent environmental events. Sections describing phase I discuss the principles and computer programs used to determine iceberg loadings, the design of a force analysis model and the subsequent force analysis, analyze the structure for the reliability level under iceberg loads, and present an economic analysis for the different load factors. Sections describing phase II discuss methodology and theory used to calculate environmental loads, introduce computer analysis methods, and present analytical results including final calculated environmental loads and resulting calculated load combination factors. ### Environmental monitoring of uranium mining wastes using geophysical techniques, phase II : a comparison and evaluation of conductivity, resistivity, GPR and TDEM sounding methods to monitor acid mine drainage from uranium waste rock piles and tailings areas

By Rodney R. Koch, Mark Simpson and Peter Giamou. Ottawa : Atomic Energy Control Board, 1997. v, 118 p. : ill., Maps, Bibl. MICROLOG 97-07362 (2 fiche)

Describes phase 2 of a research project intended to lead to development of new methods to monitor the migration of acidic leachate from uranium mine waste rock piles and tailings facilities using geophysical methods. The research site was the Cluff Lake mine in northern Saskatchewan. Phase 2 work involved investigation of various Cluff Lake tailings and waste sites using conductivity, resistivity profiling/sounding, time domain electromagnetic sounding, and ground penetrating radar surveys. Instrumentation and survey procedures are described and results are presented and interpreted. CA EV MS ND NR PS SC

### Environmental refugees?

By Robert T. Stranks. Ottawa : Dept. of Foreign Affairs & International Trade, 1997. 8 p. : Bibl. (Policy commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 17) MICROLOG 97-07441 (1 fiche)

This paper focuses on an understanding of what is meant by the term 'environmental refugee.' Issues considered include the need to redefine the internationally agreed definition of a refugee to take into account a class of so-called environmental refugees; means of identifying environmental refugees as opposed to conventional refugees or environmental migrants; categories of events that may produce environmental refugees, including natural disasters, human induced environmental change, and military-political upheavals; and conditions that need to be met to be granted environmental refugee status. ### Établissements financiers et entreprises : une relation à la japonaise

Par James McCormack. Ottawa : Ministère des affaires étrangères et du commerce international, 1994. 64 p. : Bibl. (Document du Groupe des politiques / Canada. Ministère des affaires étrangères et du commerce international ; SP50F) (Documents sur le commerce régional et l'économie / Canada. Ministère des affaires étrangères et du commerce international ; 94/16) L'éd. anglaise (The Japanese way : the re-

tionship...): 97-00207/1.  
MICROLOG 97-07259 (1 fiche)

Selon qu'on se trouve en Amérique du Nord ou au Japon, on observe de profondes différences dans les liens qui se tissent entre les établissements financiers et les autres entreprises. La section 2 met les faits en perspective, en décrivant la structure du capital-actions des entreprises japonaises et en la comparant à la situation américaine. La section 3 s'intéresse à l'encadrement législatif des relations inter-sociétés au Japon. À la section 4, on étudie l'évolution de ces relations dans la pratique, en examinant de plus près le keiretsu et ses répercussions sur le commerce international. Dans la section 5, on brosse un portrait rapide du traitement que le Japon accorde aux établissements financiers d'origine étrangère, dans le but d'établir s'ils sont également en mesure de se lier de près avec des entreprises oeuvrant dans d'autres secteurs, et on se penche sur les conséquences que ce geste pourrait avoir pour eu, au plan des échanges internationaux. À la section 6, on expose nos conclusions et on tire certains enseignements de l'expérience japonaise, notamment au plan de la politique commerciale.

### Evaluation of a modified water cannon system to control small iceberg masses

By Gregory Warbanski and Erik Banke. Ottawa : Environmental Studies Research Funds, 1987. x, 142 p. : ill., Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 081) On title page: *Husky/Bow Valley East Coast Project*.  
ISBN 0-920783-80-5  
MICROLOG 97-07202 (2 fiche)

Describes equipment, methodology, and procedures used in tests of a water cannon system used for diverting small iceberg masses at sea. The system tested consisted of a single water cannon mounted on the bow of a vessel, with a motion compensation system and hydraulic control unit to enable continuous and consistent impacts of a water jet upon an ice mass to be deflected. The test program involved 54 push tests on icebergs ranging from 36 to 100,000 tonnes in size. Other tests were also conducted including vessel positioning tests next to icebergs, engine/pump tests with a range of nozzle diameters to maximize the reaction force created by the water jet, iceberg destruction tests, vessel motion tests, and motion compensation evaluation tests. Results presented indicate the degree of effectiveness of the water cannon in controlling ice masses up to about 60,000 tonnes.

### An Evaluation of hog marketing systems in Canada

K.K. Klein...et al. Ottawa : Agriculture & Agri-Food Canada, Policy Branch, 1995. xii, 135 p. : ill., Bibl. (Working paper / Canada. Agriculture & Agri-Food Canada. Policy Branch ; 4/95)  
MICROLOG 97-06950 (2 fiche)

The main objective of this study is to evaluate the hog marketing system in Canada, considering such questions as whether the system ensures adequate supply, encourages growth and expansion, and provides investment and employment opportunities. Various performance indicators are used to evaluate marketing goals. These indicators are developed from sources including interviews with hog-pork sector representatives and many types of secondary data. After an introduction, chapter 2 provides an overview of the Canadian hog-pork sector, including production, exports, and the role of various marketing bodies. Chapter 3 reviews the hog-pork sector in the United States, including markets and pricing systems for finished, feeder, and breeding hogs. Chapter 4 contains the evaluation of Canadian hog marketing goals using the performance indicators developed. The final chapter explores opportunities and challenges facing the Canadian hog-pork sector at the close of the 20th century.

### Evaluation of segregated early weaning (SEW) under Saskatchewan conditions : final report

See Evaluation of site segregated versus conventional early weaning on the growth performance, sow productivity and post-weaning behaviour : final report

### Evaluation of site segregated versus conventional early weaning on the growth performance, sow productivity and post-weaning behaviour : final report

J.F. Patten...et al. ; prepared by: Prairie Swine Centre. Regina : Agriculture Development Fund, 1997. 16 p. : ill., Bibl. Cover title: *Evaluation of segregated early weaning (SEW) under Saskatchewan conditions : final report*.  
MICROLOG 97-07000 (1 fiche)

Site-segregated early weaning (SSEW) refers to the practice of weaning piglets from the sow at an early age and placing them in a nursery that is physically isolated from the breeding herd. This report describes an experiment conducted to determine the implications of SSEW when the herd of origin has a high health status. Three treatments were used on 48 litters: weaning at about 21 days post-farrowing and placed in an on-site nursery room (control); weaning at about 12 days and placed in an on-site nursery room; and weaning at about 12 days and placed in an off-site nursery. Results presented include increase in piglet weight, observed piglet behaviour, and sow productivity.

### Evaluation of site-specific risk assessment for contaminated lands

Golder Associates. Ottawa : Canada Mortgage & Housing Corporation, 1997. vii, 160 p. : ill., Bibl.  
MICROLOG 97-06833 (2 fiche)

Provides results of a two-phase study examining the state of contaminated sites risk assessment in Canada. The first phase consisted of a survey of practitioners in the private and regulatory sectors. The intent of the private sector survey was to characterize the capabilities and experience of private firms engaged in human health risk assessment. Insight gained in this phase was used to assist in selection of participants for the round robin study in the second phase. The intent of the regulatory survey was to gain insight, on a regional basis, into regulator experience and acceptance of human health risk assessment of contaminated sites. In the second phase, practitioners with varying levels of expertise performed a screening-level risk assessment of a hypothetical case study, in order to assess the degree of variability in risk assessments among participants and to analyze the sources of variability and uncertainty. The case study involved a residential housing development proposed on former industrial lands.

### Evaluation of tailings treatment and relocation of Caribou tailings : final report

L. Cheung and R. Gilders ; prepared by New Brunswick Research and Productivity Council ; for Breakwater Resources Ltd. Fredericton : Natural Resources & Energy, Minerals & Energy, 1997. 153 p. : ill. (Open file report / New Brunswick. Minerals & Energy Division ; 97-4 ISSN 1198-0648) On cover: *Canada-New Brunswick Cooperation Agreement on Mineral Development*. Fold. maps not filmed.  
ISBN 1-55137-844-2  
MICROLOG 97-07423 (2 fiche)

The Anaconda tailings ponds at the Caribou mine site in New Brunswick are exposed and generate acid mine water. This report evaluates a proposed project to slurry the tailings, lime them, and pump them into the existing flooded tailings ponds at the mine site. The main objective of the study reported was to determine the most economical method of accomplishing the proposed relocation of the tailings. The study encompasses a preliminary technical evaluation of various process options and their feasibility through metallurgical testing to recover zinc, copper, gold, and silver from the tailings prior to their disposal. Recovery of these metals may offset costs incurred to relocate the tailings. Metallurgical testing was carried out using such processes as acid leaching, ferric sulphate and thiourea leaching, agglomeration, gravity separation, bulk sulphide flotation, and cyanide leaching. Preliminary mass balances, equipment sizing, and cost estimates are presented along with preliminary engineering studies conducted on the most favourable process options.

### Evaluation of the Canada/New Brunswick Cooperation Agreement on Cultural Development : final report

Baseline Market Research. Fredericton : The Province ; Ottawa : Government of Canada, 1995. 78 p. Executive summary (15 p.) laid in.  
MICROLOG 97-07460 (2 fiche)

The primary purpose of the Canada-New Brunswick Cooperation Agreement on Cultural Development is to undertake implementation of specific measures aimed at optimizing the economic benefits of the province's cultural sector, improving its long-term viability and stability, generating higher levels of income and employment, and promoting the expression and awareness of the province's arts and heritage. This report begins with background on the province's cultural community and on the Agreement, then sets out the evaluation's objectives and methodological approach.

Evaluation findings are then presented in two parts, the first covering those from management interviews and the second covering those from a cultural community survey. Issues considered in the evaluation include the Agreement goals and objectives, structure, communications, funding, administration, and economic impacts. Recommendations for consideration in the development of future agreements are also provided.

### L'Expérience de la Somalie d'un point de vue stratégique, répercussions sur les forces militaires dans une société libre et démocratique : étude

Par Berel Rodal. Ottawa : Commission d'enquête sur le déploiement des Forces canadiennes en Somalie, 1997. xlii, 166 p. : *Bibl.* L'éd. anglaise (The Somalia experience in strategic perspective...): 97-06944/2. ISBN 0-660-95690-X GCC-E no CP32-64/10-1997F  
MICROLOG 97-06841 (2 fiche)

Cette étude repose sur la prémisse selon laquelle le déploiement en Somalie et les événements étudiés par la Commission sont riches d'enseignements quant à la nature des choix que devra faire le gouvernement du Canada au sujet de la politique à adopter pour soutenir des forces armées utiles et efficaces à la veille du XXI<sup>e</sup> siècle. Il s'agit à la fois d'un travail de recherche et d'une analyse critique des événements, réalisés par l'auteur à partir de sa propre expérience et de ses discussions avec un certain nombre de personnes, notamment des militaires, des fonctionnaires et des spécialistes de la politique étrangère et de la politique de défense, de même que diverses personnalités canadiennes. Cette étude n'a pas pour objectif de reprendre l'examen des questions sur lesquelles la Commission se sera penchée de beaucoup plus près au cours de ses audiences, ni d'offrir un modèle détaillé d'organisation et de politique de défense. Elle vise plutôt à situer les conclusions de la Commission dans un cadre stratégique et théorique plus vaste, à tirer des conclusions plus générales de "l'affaire somalienne" et à examiner avec un soin particulier moyens d'empêcher la récurrence de problèmes semblables.

### The Familiar, the forgotten and the unthinkable : future economic scenarios and the Canadian housing sector

By Nicole Morgan. Ottawa : Canada Mortgage & Housing Corporation, Centre for Future Studies in Housing & Living Environments, 1996. x, 63 p. : *Bibl.* French ed. (Le Connu, l'oublié et l'impensable...): 97-06921/1. On cover: Experts in residence program. ISBN 0-660-16628-3 CCG-P no. NH15-149/1996E  
MICROLOG 97-06920 (1 fiche)

This paper is intended to stimulate thinking about the potential implications for the housing sector of three scenarios of future economic conditions. The first scenario postulates a continuity of economic patterns that became established in North America in the 1950s and 1960s. This scenario holds constant the familiar pattern of short-term recession and recovery, funding compensatory public spending with overall economic growth, and brings forward the implications of trends in other variables, particularly demographic and technological ones. Each of the other scenarios takes a modified set of economic postulates and applies them to the non-economic changes contemplated in the first scenario. The second scenario assumes a period of stagnation accompanied by disinvestment and a general deflation of prices. The third scenario involves a cultural transformation including dismantling of obsolete political boundaries, the rise of region-states, and new life styles imposed or influenced by technology.

### A Field guide to animal damage of Alberta's native trees

By Sheila A. Rangen and Laurence D. Roy. Vegreville, AB : Alberta Research Council ; Edmonton : Alberta Environmental Protection, 1997.

v, 56 p. : *ill.*, *Maps*, *Bibl.* ISBN 0-7732-5365-3  
MICROLOG 97-07103 (1 fiche)

The objective of this guide is to aid in identification of the animal species responsible for specific types of damage to Alberta trees. Identification is performed using a combination of diagnostic characteristics of tree injuries, tracks, scat, timing of damage, grazing history, geographic distribution, and other distinctive field signs of animals. The manual includes a key to identification, starting with selection of the most appropriate damage category and continuing with further steps until a species or species group is identified. The species can then be confirmed using information in the animal identification section of the guide, which describes other injury characteristics, field signs, and other features specific to the damage caused by that species. Animals listed include domestic livestock, large game such as bear and deer, beaver, other rodents, and some birds.

### Forced air de-icing trials for the 1994-95 winter

APS Aviation Inc. Montreal : Transport Canada, Dryden Commission Implementation Project, 1995. xviii, 102 p. : *ill.*  
MICROLOG 97-07397 (2 fiche)

Presents a two-part study addressing the application of blown air to remove snow, ice, and frost from aircraft wing surfaces. The first part addressed the application of hot blown air to remove frost from wing surfaces in very cold temperatures, using a ground heater fitted with a test nozzle. Field trials consisted of determining the most effective prototype nozzle outlet configuration and thereafter evaluating the efficiency and operational acceptability of applying the heated air. The second part evaluated the effectiveness of using ambient temperature forced air to remove snow and ice from wing surfaces, employing equipment already devel-

oped and in use by United Airlines.

### The Formative evaluation of the community skills centres : overview report

British Columbia. Ministry of Education, Skills & Training. Evaluation & Reporting Branch. Victoria : The Branch ; Hull, PQ : Human Resources Development Canada, 1997. vi, 24 p.  
MICROLOG 97-07405 (1 fiche)

Provides an overview of an evaluation of the federal/British Columbia program to establish Community Skills Centres (CSCs) which aim to increase access to training & to aid in labour market adjustment. The evaluation involved case studies, telephone interviews with CSC personnel and key stakeholders, a review of documents and administrative data, and a telephone survey of past participants. The overview begins with a brief description of the degree of implementation of the CSC at the community level. It then turns to an examination of the findings in relation to four objectives that frame CSC operations. For each objective, the perspectives of the CSCs, community partners and stakeholders, and key respondents who have a program-wide view of the initiative as a whole are set out.

### Formative evaluation results of the Assessment, Counseling and Referral Strategic Initiative

KPMG (Firm). Victoria : Ministry of Education, Skills & Training, Evaluation & Accountability Branch ; Ministry of Human Resources ; Hull, PQ : Human Resources Development Canada, 1997. 396 p. : *ill.*  
MICROLOG 97-07407 (5 fiche)

Presents results of case studies of ten pilot projects in the Assessment, Counseling and Referral Strategic Initiative (ACRSI), an initiative which had the objective of testing and demonstrating an enhanced assessment, counselling and referral system for people on income support. The initiative was expected to improve linkages within and between employment programs, the individual on income support, and the labour market. The case studies reflect the application of formative evaluation

methodologies which assess how each project has operated and identify what needs to be known to improve the operation of similar programs. For each study, information is included about the project background, research and data collection methodology, project characteristics and rationale, program design, administration infrastructure and program management, impacts and achievement of intended results, cost effectiveness, and recommended improvements.

### Framework for a research policy for Ontario : a discussion paper

By David C. Smith. Toronto : Ministry of Education & Training, 1997. 23 p. *French ed.* (*Pour une politique de la recherche...*) : 98-00722/1.  
MICROLOG 97-07388 (1 fiche)

The purpose of this discussion paper is to examine a recommendation that Ontario develop a research policy, focusing primarily on aspects of such a policy relevant to colleges and universities. It first discusses the key characteristics of a research policy, including its meaning and purpose, the role of colleges and universities, the scope of research activity, guardians of research quality, the research functions of universities, the relation between base funding and research capacity, infrastructure needs, coverage of overhead costs, and the linkage between research and advanced studies. The next section highlights features of provincial and federal policies that bear on the development of research in Ontario universities. Finally, consideration is given to the measurement of research performance and to gaps and overlaps which affect the attainment of the objectives of a research policy.

### A Framework to analyze income support and income stabilization policies in Canadian agriculture

By Derek P. Hum, Wayne Simpson and Darryl Kraft. Ottawa : Agriculture Canada, Policy Branch, Economic & Policy Analysis Directorate, Industry & Policy Analysis Division, 1995. iv, 42 p. : *ill.*, *Bibl.* (Technical paper / Canada. Agriculture Canada. Policy Branch ; 3/95)  
MICROLOG 97-06953 (1 fiche)

The presence of off-farm income in most farm households today raises important income maintenance and welfare issues, including the effects of proposed agricultural and non-agricultural policies on the division between farm and off-farm work. This report specifies a model of farm household behaviour and income determination that reflects these modern issues. It then considers how that model may be used to assess the implications of alternative income support policies on the distribution of income among farm households. Three generic policies are considered: price support policies, income support policies, and a guaranteed annual income for farm households. Appendices review

examples of targeted income support and income stabilization for farm families.

### Geology of the Striding-Athabasca mylonite zone, northern Saskatchewan and southeastern District of Mackenzie, Northwest Territories

By Simon Hanmer. Ottawa : Natural Resources Canada, Geological Survey of Canada, 1997. 92 p. : ill., *Maps, Bibl.* (Bulletin / Geological Survey of Canada ; 501) ISBN 0-660-16902-9 CCG-P no. M42-501E  
MICROLOG 97-07085 (2 fiche)

The Striding-Athabasca mylonite zone is a linked system of Archean granulite facies mylonite belts which trace a sinuous course along a train of lozenges of stiff Middle Archean crust in a southwest-northeast direction from northern Saskatchewan. This report documents the geology of part of the mylonite zone mapped during three-month field seasons in 1990 and 1991, focusing on two areas: a triangle located at the eastern end of Lake Athabasca, northern Saskatchewan, and a north-eastward extension of that triangle across the south-eastern corner of the District of Mackenzie, Northwest Territories. Information is included on the area's physical geography, general geology, tectonics, magmatism, mylonitization, and metamorphism, with detailed documentation of the structural and plutonic history of the mylonite belt and examination of its role in the Archean and Early Proterozoic tectonic evolution of the western Canadian Shield.

### Government contracting : report

Canada. Parliament. House of Commons. Standing Committee on Government Operations. Ottawa : The Standing Committee, 1997. v, 30, v, 32 p. *Bilingual (Les Marchés publics...).*  
MICROLOG 97-07316 (1 fiche)

The Standing Committee on Government Operations has been examining the various aspects of government contracting for goods and services within the federal jurisdiction over the last two years. The study was divided into three phases: in the first, the Committee considered the wide scope and definition of contracting in the public sector which in turn led to the identification of several problems and concerns in government contracting in the federal system. The second phase examined the competitiveness or non-competitiveness of government contracting, sole source contracts, the Open Bidding Service, and the problems relating to small and medium-sized enterprises contracting with the Government of Canada. In the third phase, our Committee challenged the Government with some early findings and recommendations, and subsequently received some favourable and positive responses.

### Government Task Force on Agencies, Boards and Commissions : report on operational agencies

Ontario. Task Force on Agencies, Boards & Commissions. Toronto : The Task Force, 1997. 23 p. *French ed. (Groupe d'étude du gouvernement...)* : 98-00291/1. ISBN 0-7778-5858-4  
MICROLOG 97-07135 (1 fiche)

Presents findings and recommendations of a task force assigned to review Ontario's 62 operational agencies, find candidates for elimination and/or consolidation, and advise ways to improve efficiency, customer service, and accountability in that sector. These agencies deliver goods and services ranging from museum operations to scientific research. The task force also examined such issues as the relevancy of the agency's mandate, the feasibility of delivering agency functions by other means, and the public benefit of the agency. Recommendations are presented for each of the agencies studied: some are to be eliminated, some will have their functions delivered through other means, some will have their services delivered differently, and some will be reviewed for effectiveness, customer service and accountability, with decision being deferred on the remainder.

### The Grassland natural region of Alberta

Prepared for the Special Places 2000 Provincial Coordinating Committee ; by Alberta Environmental Protection, Natural Resources Service, Recreation & Protected Areas Division, Natural Heritage Protection and Education Branch. Edmonton : The Branch, 1997. x, 274 p. : ill., *Maps, Bibl.*  
MICROLOG 97-07136 (3 fiche)

The purpose of this report is to provide an analysis of Alberta's grassland natural region from a landscape protection and biodiversity perspective, in order to assist in evaluating and ranking candidate Special Places sites. It begins with background information on North American grasslands and their ongoing fragmentation, historical trends, notable prairie species and species groups that are extirpated or endangered, and recent efforts aimed at conserving and restoring native grasslands. The report then reviews the philosophy behind the design of a protected areas network for the Alberta grassland natural region, identifies gaps in the system of protected lands in the province's four grassland sub-regions, and discusses the best candidate areas to be considered for protection within each sub-region.

Edmonton : Alberta Education, Special Education Branch, 1997. 34 p. : *Bibl.* ISBN 0-7732-5267-3  
MICROLOG 97-07332 (1 fiche)

Students with special needs, including those who are gifted and talented, require specialized learning opportunities in order to receive the best possible education. This guide sets out the requirements and expectations for the development and delivery of programs for students with special needs in Alberta. The guide first describes government legislation and policy. It then presents Alberta Education program delivery requirements and expectations in the following areas: screening for early identification, referral, assessment, program planning and implementation, program placement, outcomes, appeals, children's services, health-related support services, transition planning, and school board policy. The guide includes a glossary and definitions of the various categories of special needs which are generally accepted and used for administrative and funding purposes.

### Guide to the Contaminated Sites Remediation Act

Winnipeg : Manitoba Environ. 1997. 6 p.  
MICROLOG 97-06890 (1 fiche)

Provides a quick overview of the Manitoba Contaminated Sites Remediation Act, enacted to provide regulatory authority to designate and manage sites that have been exposed to environmental contaminants, and to address issues of liability and remediation of those sites. Key provisions of the Act are explained, including those related to site investigation and identification, site designation, remediation, and apportionment of responsibility. Other

provisions covered include those relating to appeals, offences and penalties, cost recovery, and the role of Manitoba Environment.

### Guide to the Nova Scotia achievement tests, level 12

Halifax : Dept. of Education & Culture, 1997. iii, 23 p.  
MICROLOG 97-07291 (1 fiche)

The Nova Scotia Achievement Tests are a series of tests measuring knowledge and the ability to use knowledge in each of three subject areas. They are designed to indicate the general level of achievement in these areas for the province as a whole and to provide regional school boards and schools with information on the achievement of their own students. This document explains what the Level 12 tests are; the areas tested under the subjects of reading, science, and mathematics; how results are reported to students, schools, and school districts; how the results are interpreted and used; and test data processing quality controls. Summaries are provided of 1996 provincial results.

### Guidelines for estimating wild boar cost of production based on a herd of 20 sows

Winnipeg : Manitoba Agriculture, Farm Business Management, 1997. 11 p. (Information update / Manitoba. Farm Management)  
MICROLOG 97-06888 (1 fiche)

This guide is designed to provide Manitoba producers with planning and information and a format for calculating costs of production on a 20-sow wild boar enterprise. Budget estimates are based on defined assumptions and input costs are based on a consensus of practices and/or information obtained from producers. Costs covered include feed, other operating costs, depreciation, land and buildings, equipment, the breeding herd, and labour. Worksheets for performing calculations are included, along with examples.

### The Housing conditions of Aboriginal people in Canada : summary report

Ark Research Associates. Ottawa : Canada Mortgage & Housing Corporation, Social & Economic Policy & Research, 1996. viii, 25 p. : ill., Maps, Bibl. French ed. (*Les Conditions de logement...*) on the same fiche. ISBN 0-660-16646-1 CCG-P no. NH15-151/1996E  
MICROLOG 97-06919 (1 fiche)

Many case studies have documented poor, unsafe, and crowded housing conditions in Canadian Aboriginal communities. These studies have used a variety of approaches, making it difficult to compare results or to obtain a national perspective. The primary purpose of this study is to portray the current housing situation of all peoples in Canada who identify themselves as Aboriginal. To do so, the study utilizes comprehensive data on Aboriginal peoples available from Statistics Canada's 1991 Census and the post-censal Aboriginal Peoples' Survey. The information is used in conjunction with norms and standards developed by CMHC to assess housing conditions and need.

### Housing in Regina : discussion paper

Regina : The City, 1990. v, 104 p. : ill., Maps  
MICROLOG 97-07015 (2 fiche)

The purpose of this discussion paper is to provide general background information on Regina housing and to serve as a basis for analyzing housing issues, establishing objectives, and formulating policies related to housing in the new Regina Development Plan. The first part of the paper contains an overview of historic information and related housing studies pertaining to Regina, including population demographics and household characteristics. Part 2 describes current housing characteristics, supply, and demand in Regina, and part 3 projects the city's housing requirements to the year 2020. Part 4 discusses housing issues within the city's four neighbourhood areas (inner city, developed, mature, and new/peripheral neighbourhoods). The final part makes recommendations regarding a strategic approach to housing in Regina and proposes housing policies.

### Humber River bacteria sources and pathways study : a report

Of the Toronto Area Watershed Management Strategy Steering Committee ; prepared by Judy MacDonald. Toronto : The Steering Committee, 1987. iv, 57 p. : ill., Maps, Bibl. (Technical report / Toronto Area Watershed Management Strategy Steering Committee (Ont.) ; no. 13)  
MICROLOG 97-07379 (1 fiche)

Reports a study that compiled and evaluated available data on fecal coliform bacteria in the urbanized Humber River, Toronto Metropolitan Area. A first-order systems model incorporating bacterial die-off was developed and calibrated to existing conditions, then applied to assess the in-stream fecal coliform levels (in both wet weather and dry weather conditions) due to the simulated implementation of proposed control options. Conclusions resulted in the development of a multiple-phase control strategy to reduce in-stream fecal coliform guideline violations and to reduce event bacterial loadings to the lake front.

### Iceberg and bergy bit probabilistic model sensitivity study

F.G. Bercha & Associates Ltd. Calgary, AB : National Energy Board, 1993. vii, 167 p. : ill., Bibl. On cover: *Program of Energy Research and Development*. ISBN 0-662-25503-6  
MICROLOG 97-07228 (2 fiche)

The work described in this report has the objective of developing a ranked list of critical input parameters that affect the determination of the value of the frequent and rare environmental ice loads on east coast structures, using a probabilistic ice load model. Following an introduction, the report describes the general approaches to the analysis, reviewing the background, philosophy, and principal uncertainties that enter into ice-structure interaction calculations of all types. Chapters 3 and 4 detail the selection and development of algorithms to be used for quantification of sea ice impacts against fixed and floating structures. Chapter 5 reviews the input data and their sources for icebergs, bergy bits, sea ice, and structural parameters. Chapters 6 and 7 present results of sensitivity analyses for fixed and floating structures, and the final chapter summarizes results and presents some recommendations. Appendices include input files for simulations, tables of basic output results, and detailed plots of results and sensitivity analyses.

### Ignace District fisheries management plan, 1987-2000

Toronto : Ministry of Natural Resources, 1988. 58 p. : Maps. Fold. map not filmed. ISBN 0-7729-3925-X  
MICROLOG 97-06862 (1 fiche)

The purpose of this plan is to establish direction for fisheries management efforts in order to create a more efficient and effective fisheries management program in the Ignace district of northern Ontario. The plan begins with an overview of the district's fisheries status, fish supply, harvest, and projected demand. It then sets out a management direction for the district, beginning with general fisheries management objectives, followed by specific objectives for sport and commercial fisheries. Management strategies and tactics for addressing specific problems such as overfishing in certain lakes, loss of fish habitat, tourism development, user conflicts, and public involvement in fisheries management. Finally, the fisheries management implementation schedule is outlined in a table. Includes glossary. The appendix includes a classification of public comments heard during consultations concerning the management plan.

### Impact of risk factor modification

Vivek Goel...et al. Toronto : Ministry of Health ; Premier's Council on Health, Well-Being & Social Justice, 1993. 45 p. : ill., Bibl. (Working paper / Ontario. Ministry of Health ; no. 6) *At head of title: Ontario Health Survey, 1990*.  
MICROLOG 97-07008 (1 fiche)

This report assesses the potential impact on mortality of interventions to modify the distribution of risk factors for chronic disease in the Ontario population. The 1990 Ontario Health Survey is used to provide baseline data on the prevalence of risk factors, and data are combined with follow-up data from the Nutrition Canada Survey on mortality experience by category of risk factor. The methodology used calculates etiologic factors, or the proportion of disease that may be attributable to each of the risk factors. Risk factors considered are smoking, alcohol consumption, high blood pressure, diabetes, and obesity. Outcomes included are all-cause mortality, cancer deaths, and cardiovascular deaths. Vital statistics on the number of deaths in each of these categories are used to estimate the role played by each risk factor. Impact of changes in risk factor levels is estimated by recalculating the proportion of deaths attributable to a risk factor if that factor were reduced or eliminated. Results are presented separately by gender and for two age groups (35-64 and 65-79).

### The Importance of research and development for innovation in small and large Canadian manufacturing firms

By John R. Baldwin. Ottawa : Statistics Canada, Analytical Studies Branch, 1997. iv, 39 p. : Bibl. (Research paper series / Statistics Canada. Analytical Studies Branch ; no. 107) *French ed. (Importance de la recherche et du développement...)* : 98-00123/1. ISSN 1200-5223  
ISBN 0-660-17140-6 SCC 11F0019MPE no. 107  
MICROLOG 97-07497 (1 fiche)

It has been claimed that small firms have different tendencies to use research and development (R&D) facilities than large firms and, therefore, require development of special programs that are directed at this sector. This paper examines the differences in the innovation profiles of small and large firms, and how R&D intensity and efficacy varies across different size classes. It investigates the contribution that R&D makes to success in the small and medium size population and the types of policies that small firms feel are the most appropriate to reduce the impediments to innovation that they face. Data for the main section of the paper come from the 1993 Survey of Innovation and Advanced Technology conducted using manufacturing firms of all sizes.

### An improved joint blind synchronization algorithm for M-PSK and M-QAM signals (U)

By Brian W. Kozminchuk and Zhijian Hu. Ottawa : National Defence, Defence Research Establishment Ottawa, 1996. x, 28 p. : ill. (Technical note / Defence Research Establishment Ottawa ; 96-007)  
MICROLOG 97-07399 (1 fiche)

Presents results of studies to improve the performance of a previously developed joint blind synchronization algorithm for phase shift keying and quadrature amplitude modulated signals using digital signal processing based approaches. In this context, blind implies that no a-priori information is known about the signal or its structure other than the symbol rate and the modulation type. The blind synchronization technique exploits the self-coherency of the received sampled data using a nearest neighbour type of search method whose objective is to minimize a certain cost function. The report describes two improvements made to the algorithm: lifting of a previous restriction of an integer relationship between the baud rate and the sampling rate of the analog to digital converter in the receiver, and a coarse two-dimensional search implemented to provide the original search strategy with initial starting points. Simulation results are presented to illustrate the performance improvements achieved.

### An inflatable bladder support system for military footwear : final report

By Scott Yule. Richmond, BC : M.E.T.A. Research Inc., 1996. 21 p. : ill. (DCIEM publication / Defence & Civil Institute of Environmental Medicine (Canada) ; 96-CR-13)

MICROLOG 97-07448 (1 fiche)

Describes a project to develop a technology demonstrator boot insert for military footwear, with the main goal of building a system that would allow a reduction of the number of boot sizes required without increasing the risk of chronic or acute injuries. Secondary goals concerning comfort, fit, and protection were also established. Background biomechanical information, preliminary design, and testing and modifications to arrive at a final design are described. The final system incorporates four bladders, a pump unit, and ankle support shells integrated into a sock in order to facilitate repair.

### Interrelations among health behaviours

Peggy McDonough...et al. Toronto : Ministry of Health ; Premier's Council on Health, Well-Being & Social Justice, 1993. iv, 54 p. : ill., Bibl. (Working paper / Ontario. Ministry of Health ; no. 4) *At head of title: Ontario Health Survey, 1990*.  
MICROLOG 97-07029 (1 fiche)

This report examines interrelations among health behaviours using data from adults participating in the Ontario Health Survey. Behaviours investigated included drinking, smoking, illicit drug use, prescription drug use, physical activity, eating patterns, safety practices, interactions with others, sexual activity, and self-destructive behaviour. Multivariate regression techniques were employed to examine relationships among the behaviours, both before and after controlling for four possible confounders: age, sex, social class, and ethnicity. The results identified certain high risk groups that could be best served by highly targeted interventions not aimed at the general population.

### Investigation of interleukin-8 expression in bovine pneumonia and arthritis : final report

University of Saskatchewan. Regina : Agriculture Development Fund, 1997. 12 p. : ill.  
MICROLOG 97-06832 (1 fiche)

Reports findings of a study conducted to determine whether the protein interleukin-8 is produced in tissues from cattle with pneumonia or arthritis, and to obtain preliminary data on the potential role of interleukin-8 in inducing neutrophil dominated inflammatory responses in cattle. Two types of evi-

dence are examined: the expression of mRNA for interleukin-8 and an enzyme-linked immunosorbent assay (ELISA) that detects the actual protein. Two types of cells are identified as sources of interleukin-8 and three methods (in-situ hybridization, Northern blot, and ELISA) are used to determine expression of the protein in pneumonia caused by bovine herpes virus and the bacterium *Pasteurella haemolytica*.

### Joint blind synchronization of M-PSK and M-QAM signals

By Brian W. Kozminchuk and Xinping Huang. Ottawa : National Defence, Defence Research Establishment Ottawa, 1996. x, 28 p. : ill. (Technical note / Defence Research Establishment Ottawa ; 96-004)  
MICROLOG 97-07400 (1 fiche)

Describes development of an algorithm for synchronization to phase shift keying and quadrature amplitude modulated signals for which little a-priori information is known, in the presence of timing and carrier frequency offsets. Some simplifications of the synchronization problem have been made so that this algorithm could be characterized independently of several variables. The algorithm is based on minimizing an objective function which is sensitive to the delay and frequency offsets. Using two one-dimensional searches in the delay-frequency plane, the algorithm attempts to find the optimum values which maximize the objective function. Simulation results are presented to illustrate the performance of the algorithm and to indicate areas where improvements can be made.

### A Joint maximum likelihood synchronization and demodulation algorithm for the STANAG 4285 modem

By Brian W. Kozminchuk and Xinping Huang. Ottawa : National Defence, Defence Research Establishment Ottawa, 1996. x, 42 p. : ill., Bibl. (Technical note / Defence Research Establishment Ottawa ; 96-005)  
MICROLOG 97-07450 (1 fiche)

Presents the results of the first phase of work concerning the development of a suite of algorithms that will ultimately address the blind signal demodulation problem. The first phase makes certain simplifications of the problem and develops an algorithm to provide frame and symbol-timing synchronization of a STANAG 4285 signal in the presence of frequency and phase offsets of the carrier. The algorithm consists of two main parts: a maximum likelihood ratio tests used as a means to indicate whether or not frame synchronization has occurred, combined with a polynomial-based interpolation procedure to estimate the optimum symbol-timing so that the signal-to-noise ratio at the output of the receiver's matched filter is maximized; and a maximum likelihood estimation of the carrier and phase offsets after frame and symbol synchronization have been achieved. Simulation results are presented to illustrate performance of the algorithm.

### Local business adaptation to east coast offshore energy development

Atlantic Consulting Economists Ltd. Ottawa : Environmental Studies Research Funds, 1987. ix, 61 p. : ill. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 071) MICROLOG 97-07197 (1 fiche)

The development of the Hibernia offshore oil field will generate substantial demand for a broad range of goods and services, representing an opportunity for local businesses. This study has two objectives: to identify and evaluate business strategies used by Newfoundland companies to participate in the commercial opportunities associated with the de-

velopment of offshore energy resources, and to review the oil industry experience with local suppliers and manufacturers in Newfoundland. Study methodology included a survey of a representative sample of 30 local companies and interviews with representatives of operating oil companies and their major contractors. Results are presented in three parts: an analysis of the results of the local company survey, discussion of the oil industry's assessment of local company business practices along with suggestions for increasing local company participation, and a comparison of selected results of the survey with results from a comparable study in Nova Scotia. Interview guides used in the study are appended.

### Long-range ice forecasting system (LRIFS) applied for the Beaufort Sea

By L.W. Davidson. Ottawa : Environmental Studies Research Funds, 1993. viii, 58 p. : ill., Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 125) ISBN 0-921652-27-5  
MICROLOG 97-06865 (1 fiche)

Statistical models based on empirical orthogonal function analyses of up to 40 years of regional surface and upper air weather data have been installed operationally since 1991 in the Long Range Ice Forecasting System at Ice Centre Environment Canada. These models are employed to predict the abundance of sea ice and icebergs on the Canadian east coast up to six months prior to occurrence. This report describes work undertaken to investigate whether these same or similar methods can successfully be applied to predict Beaufort Sea ice abundance and timing in advance of the ice season. The work included generalization of the ice prediction system from its east coast base to a configuration for use anywhere in the northern hemisphere, as well as introduction of major enhancements to automate the identification of potentially viable meteorological predictors. Tests have also been added to eliminate predictors showing artificial skill. The new system has been applied to develop operational long range forecast equations for Beaufort Sea ice area, and results are presented for various lead times.

### Mackay River herbicide trial : conifer response 9 years post-treatment

By George J. Harper, Balvinder S. Biring and Jean Heineman. Victoria : Ministry of Forests, Research Program, 1997. iv, 26 p. : ill., Bibl. (Research report / British Columbia. Ministry of Forests ; 11) ISBN 0-7726-3196-4  
MICROLOG 97-07430 (1 fiche)

Describes a 1986 field trial in which investigators applied four different treatments (glyphosate, 2,4-D amine, 2,4-D ester, and manual brushing) in an incomplete block design to a four-year-old fireweed/shrub community in the Mackay River drainage, south-west British Columbia. The purpose of the trial was to evaluate the effectiveness of the treatments in releasing hybrid spruce seedlings. Competing vegetation species, their height, and percent cover were determined in 1986-87 and 1995. The trial was re-measured in 1995 to determine whether there were any long-lasting effects of treatment on growth and condition of planted spruce seedlings. Statistical analyses were used to determine differences in spruce seedling root collar diameter, crown diameter, height, and height growth increments.

### Maintenance digest

By Mercedes Nolan. Downsview, ON : Ministry of Transportation, Maintenance Branch, 1988. ii, 203 p. : ill., Maps  
MICROLOG 97-06945 (3 fiche)

The purpose of this digest is to describe the Ontario Ministry of Transportation's maintenance func-

tion, primarily through the use of statistics. Section I reviews the Ministry's strategic management structure and processes and the fit of the maintenance function within that context, and describes resources management (from financial, human resources, and information management perspectives), privatization, and interrelationships between maintenance and other program areas. General information and statistics for the maintenance function are then presented, including meteorological conditions, district areas and populations, kilometres of highways maintained, numbers of staff, maintenance costs, and highway ages. Appendices include information on patrol yard locations, district offices, snowfall, organizational structures, and staff numbers.

### The Manitoba clean water guide

Winnipeg : Manitoba Environment, Water Quality Management Section, 1997. 64 p. : ill., Bibl.  
MICROLOG 97-06973 (2 fiche)

This guide has been written for cottage associations, river stewardship organizations, conservation districts, environmental organizations, waterfront residents, and other Manitobans interested in keeping the province's water clean. The first section provides background information on Manitoba water resources and the factors affecting them. The second section focuses on specific facts and figures relating to Manitoba water quality, including pollution sources, contaminants in fish, aquatic organisms, and pollutants. The third section contains information on how to protect and enhance water quality, covering such matters as shoreline protection, sewage treatment, waste disposal, and lawn/garden practices. The final section includes an outline of Manitoba water policies and regulations, a list of reference material, a directory of government agencies, and a glossary.

### Marine environmental assessment of the Estuary and Gulf of St. Lawrence

By Louise White and Frank Johns. Dartmouth, NS : Fisheries & Oceans Canada, Bedford Institute of Oceanography ; Mont-Joli : Maurice Lamontagne Institute, 1997. xii, 128 p. : ill., Maps, Bibl. *French ed. (Évaluation du milieu marin...)* : 97-06345/3. On cover: *Fisheries and Oceans Canada, Toxic Chemicals Program*. ISBN 0-660-16852-9 CCG-P no. Fs23-292/1997E  
MICROLOG 97-07328 (3 fiche)

This assessment summarizes the accumulated scientific understanding of the St. Lawrence River estuary and Gulf of St. Lawrence. It discusses the estuary and gulf under three disciplines: physics, biology, and chemistry. The initial chapter on physical oceanography describes the general physical characteristics of the estuary/gulf system to which all organisms must adjust. Chapters 2 and 3 review the system's biological status and commercial fisheries, including plankton, benthos, sea birds, marine mammals, fish distribution and migration, and fish population trends. Chapter 4 describes the sources and distribution of chemicals, both of natural and anthropogenic origin, in the physical environment and biota. The final chapter identifies and assesses the important issues of contaminants within and anthropogenic modifications to the marine environment. Recommendations are made for research required to resolve uncertainties.

### Marine innovations, ideas and comments on innovations in marine transportation in the Great Lakes and St Lawrence Seaway : final report of a consultative study with industry

Toronto : Ministry of Transportation, Marine Office, 1987. xv, 110 p. ISBN 0-7729-3357-X  
MICROLOG 97-06859 (2 fiche)

The bulk of this report consists of ideas regarding innovative practices and facilities for improving marine operations on the Great Lakes and St. Lawrence Seaway system, followed by comments received on those ideas in a shipping industry survey as well as the type of follow-up being carried out in response. Ideas regarded as having the greatest potential are outlined and discussed in the opening section. The innovations and comments are presented under the following categories: navigation system and fleets; vessels; new market penetration; shipper and system relationships; government and industry relationships; marine insurance; miscellaneous issues; loading and discharging op-

erations; paperwork reduction; pilotage; labour and management interaction; and training and education.

### Measurement of ocean waves by marine radar, phase I : final report

MacLaren Plansearch (Firm). Calgary, AB : National Energy Board, 1995. II, 96 p. : *ill., Bibl. On cover: Program of Energy Research and Development.* ISBN 0-662-25693-X MICROLOG 97-07234 (2 fiche)

MACRADAR is a wave sensor used to measure directional ocean wave spectra, and consists of a standard marine navigation radar interfaced to a personal computer via an image acquisition system. The acquired radar backscatter images of the ocean surface are used to provide a description of about 25 square kilometres of ocean surface over a period of 40 or 80 seconds. This report presents results of phase I of a project that collected MACRADAR data at two experiment sites off the east coast of Canada. It includes an overview of the MACRADAR system and information on the image data collection and analysis. The appendix contains a report on the development of a wave height measuring algorithm for marine navigation radar, including

descriptions of sea clutter mechanisms and the island/trough method of estimating sea state parameters.

### Measuring the capitalization of income transfer programs into agricultural asset values

Prepared by: Calum G. Turvey...et al. Ottawa : Agriculture Canada, Policy Branch, Economic & Policy Analysis Directorate, Industry & Policy Analysis Division, 1995. v, 89 p. : *ill., Bibl. (Technical paper / Canada. Agriculture Canada. Policy Branch ; 4/95)* MICROLOG 97-06952 (2 fiche)

This report examines the extent to which income transfer programs of the government are capitalized into agricultural asset values by Canadian producers. The report first reviews studies on movements in aggregate farmland prices, including supply and demand models and empirical evidence on the influence of government programs on land values. It then develops a theoretical model that extends the basic present value model by permitting the discount rate at which annual returns are capitalized into land values to be a function of the type of returns (market returns versus government support payments). The land capitalization model is applied to analyze farmland price changes in Ontario and Saskatchewan. In addition to long-run results generated from cointegration analysis, estimates of structural parameters are also obtained using regression analysis with a time-varying discount rate. The effect of government programs on quota values is also investigated. The final section shows how the asset capitalization model can be linked to the 1993 Deloitte & Touche structural model.

### Memorandum on legal issues related to the Pacific Salmon Treaty

By J. Alan Beesley. Victoria : The Province, 1997. 20 p. MICROLOG 97-07409 (1 fiche)

The 1995 Pacific Salmon Treaty is based on two principles of conservation and equity, the former obliging the United States and Canada to prevent overfishing and provide for optimum salmon production, and the latter provides for each country to receive fishery benefits equivalent to the production of salmon from its own rivers. The latter principle has still not been implemented and serious conservation problems are apparent, recently exacerbated by Alaskan overfishing. This document sets out the background on conventional treaty law on anadromous species, reviews the Alaskan claim of pasturage of salmon for part of their life cycle within United States territorial waters, reviews related provisions in the Salmon Treaty and other maritime treaties, and presents the British Columbia response to the Alaskan claim.

### Mesures d'inégalité divergentes, théorie et résultats empiriques -- Rév.

Par Michael C. Wolfson. Ottawa : Statistique Canada, Direction des études analytiques, 1997. 28 p. : *ill., Bibl. (Documents de recherche / Statistique Canada. Direction des études analytiques ; no 66)* L'éd. anglaise (*Divergent inequalities...*) sur la

même fiche. ISSN 1200-5231  
ISBN 0-662-99165-6 SCC 11 F0019MPF no. 66  
MICROLOG 97-06815 (1 fiche)

Certains indicateurs statistiques largement utilisés concernant l'inégalité et la disparition de la classe moyenne sont peut-être trompeurs. Quatre types de divergences entre les conclusions tirées et les données citées sont examinés. Premièrement, il existe une distinction entre les concepts fondamentaux d'inégalité et de polarisation. Deuxièmement, certaines mesures d'usage répandu ne respectent pas le concept du classement de l'inégalité selon les courbes de Lorenz, qui est le critère par excellence dans ce domaine. Au-delà de ces problèmes conceptuels, certaines affirmations relatives aux tendances de l'inégalité sont peut-être inexactes parce qu'elles ne tiennent pas compte de la variabilité d'échantillonnage, ou parce qu'elles ne font pas l'objet des réserves qui s'imposent, quand seulement une sous-population, par exemple les travailleurs à plein temps de sexe masculin, est examinée. Pour toutes ces possibilités de divergences, des exemples utilisant des données canadiennes sur les revenus du travail pour la période 1967-1991 sont présentés.

### Mettre un terme à l'exploitation de la main-d'oeuvre infantile, plan d'action canadien face aux défis mondiaux : rapport

Canada. Parlement. Chambre des communes. Sous-comité du développement durable humain. Ottawa : le Sous-comité, 1997. x, 84, x, 74 p. *Bilingue* (*Ending child labour...*). MICROLOG 97-07294 (2 fiche)

La première partie de ce rapport définit les paramètres de l'exploitation des enfants en tant que défi mondial exigeant une intervention de la part des Canadiens. Les données provenant de recherches internationales et les témoignages entendus permettent de mieux comprendre et analyser la situation. Dans la deuxième partie, on passe à l'élaboration d'un cadre de politique étrangère axé sur des mesures concrètes de lutte contre l'exploitation des enfants.

### Microbial degradation of hydrocarbon mixtures in a marine sediment under different temperature regimes

By J.W. Thorpe and K.E. Hellenbrand. Ottawa : Environmental Studies Research Funds, 1987. iv, 78 p. : *ill.*, *Bibl.* (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 083) ISBN 0-920783-82-1 MICROLOG 97-07204 (1 fiche)

Describes a laboratory study of the rate of biodegradation of various petroleum hydrocarbons under simulated conditions of a marine sediment at temperatures of 15, 10, and 5 degrees C. The goal of the study was to predict from the results the rates of degradation that may be expected at temperatures below 5 degrees C. Three hydrocarbon mixtures were used in the experiments: a crude oil, a bunker C oil, and a condensate. Concentrations of these hydrocarbons in the 1-3% range were mixed with sand and the samples were incorporated into sediment in which a flow of sea water was maintained, comparable to that of interstitial water in a sub-littoral sediment influenced by moderate waves. Results presented include total counts of aerobic bacteria, changes in the hydrocarbon mixtures as determined using solvent extraction and gas chromatography, and daily degradation rates. Estimates are made for theoretical daily degradation rates at zero and -5 degrees C.

### Migration and mobility of Canada's aboriginal population

By Stewart Clatworthy. Ottawa : Royal Commission on Aboriginal Peoples ; Canada Mortgage & Housing Corporation, Centre for Future Studies, 1996. xli, 36 p. : *ill.*, *Bibl.* *French ed.* (*Migration et mobilité...*) : 97-06927/1. ISBN 0-660-16626-7 CCG-P no. NH15-148/1996E MICROLOG 97-06926 (1 fiche)

This study explores various dimensions of the migration, residential mobility, and housing consumption patterns of Canada's Aboriginal population. The study documents patterns of Aboriginal migration over 1986-91 and estimates net migration volumes and net migration rates for various geographical areas. Separate estimates of migration are given for registered Indians, non-status Indians, Metis, and Inuit. The characteristics of Aboriginal migrants and factors underlying migration decisions are also presented. In addition, the study examines recent patterns of residential mobility among the Aboriginal population and, within the context of selected major urban areas, explores the relationships between residential mobility and housing consumption patterns.

### Migration et mobilité de la population autochtone du Canada

Par Stewart Clatworthy. Ottawa : Commission royale sur les peuples autochtones ; Société canadienne d'hypothèques et de logement, Centre d'études prospectives, 1996. xli, 39 p. : *ill.*, *Bibl.* L'éd. anglaise (*Migration and mobility...*) : 97-06926/1. ISBN 0-660-95371-4 GCC-E no NH15-148/1996F MICROLOG 97-06927 (1 fiche)

Cette étude examine diverses dimensions des tendances de migration, de mobilité résidentielle et de consommation de logement de la population autochtone du Canada. On y décrit les tendances de migration des Autochtones au cours de la période de 1986 à 1991, en donnant l'estimation des volumes nets de migration et des taux nets de migration pour une gamme de régions géographiques. L'étude offre des estimations distinctes de la migration pour les Indiens inscrits, les Indiens non inscrits, les Métis et les Inuits, et présente aussi les caractéristiques des migrants autochtones et les facteurs sous-jacents de la décision de migrer. En outre, l'étude se penche sur les tendances récentes de mobilité résidentielle de la population autochtone et, au sein de certaines grandes régions urbaines, explore les rapports entre les tendances de mobilité résidentielle et de consommation de logement.

### Mission report and real time analysis for D227 : thermosalinograph calibrations

By B.J. Topliss. Dartmouth, NS : Fisheries & Oceans Canada, Maritimes Region, Ocean Sciences Division, Bedford Institute of Oceanography, 1997. v. 42 p. : *ill.*, *Maps* (Canadian technical report of hydrography and ocean sciences / Canada. Dept. of Fisheries & Oceans ; no. 190 ISSN 0711-6764) CCG-P no. Fs 97-18/190E  
MICROLOG 97-06905 (1 fiche)

Mission 227 of the vessel Discovery was conducted in the North Atlantic in a region known to exhibit a spring bloom associated with development of the mixed layer. Part of the study involved investigation of links between surface and subsurface structure using in-situ oceanographic sensors, including sensors for temperature, ocean colour, and altimetric monitoring. This report provides details on the calibrations of the transmissometer and fluorometer used in the study, the data analysis procedures including multiple regression, the script files used for track plotting and contouring, and the parameters used to plot and contour all the variables. The information is intended to assist those analyzing data after the mission and to assist future scientists performing the same operations while at sea.

### Monitoring Bird Populations, the Canadian Experience : proceedings of a symposium

Erica H. Dunn, Michael D. Cadman, J. Bruce Falls, editors ; published for the symposium sponsors, [the Society of Canadian Ornithologists and the Wilson Ornithological Society,] by the Canadian Wildlife Service. Ottawa : Environment Canada, Canadian Wildlife Service, 1997. 62 p. : *ill.*, *Maps*, *Bibl.* (Occasional paper / Canadian Wildlife Service ; no. 95 ISSN 0576-6370)  
ISBN 0-662-25802-9 CCG-P no. CW69-1/95E  
MICROLOG 97-06928 (1 fiche)

Presents papers from a symposium intended to draw together work being performed in Canada related to the monitoring of bird species ranging from sea birds and waterfowl to migratory and resident land birds, with emphasis on the role of volunteers in many monitoring programs. The papers cover all the major, broad-scale multi-species monitoring programs in Canada aimed at tracking changes in

species abundance. The first few papers deal with monitoring of aquatic birds, monitored by government agencies, with the remainder of papers dealing with land birds, migratory birds, and wintering birds. The final paper provides an overview of land bird monitoring in Canada both by government and non-governmental organizations.

### Monitoring the long-term fate and effects of spilled oil in an Arctic marine subtidal environment

By William E. Cross and Blair Humphrey. Ottawa : Environmental Studies Research Funds, 1987. x, 120 p. : *ill.*, *Maps*, *Bibl.* (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 075)  
ISBN 0-920783-74-0  
MICROLOG 97-07199 (2 fiche)

This study reports a continuation of the Baffin Island Oil Spill project, during which oil was experimentally released during 1981 in nearshore waters at Cape Hatt, north-eastern Baffin Island. The objectives of this study were to monitor the fate and effects of the oil in subtidal sediments four years after the oil release. Data collected during 1985 in two of the project's study bays (surface oil release and reference) are analyzed along with corresponding data collected during 1981-83, including pre- and post-spill sampling periods. The study tests the predictions of increased oiling of sediments and effects on deposit-feeding benthos; elucidates whether the observed short-term biological effects improved, persisted, or worsened; and allows the opportunity of detecting possible long-term delayed effects that were not apparent in the second post-spill year.

### Mortgage terms : a study of optimal term selection in Canada, 1960-94

Mary McDonough Research Associates. Ottawa : Canada Mortgage & Housing Corporation, Market Analysis Centre, 1996. 23 p. : *ill.*  
MICROLOG 97-07376 (1 fiche)

Canadians continue to be faced with the issue of optimal mortgage term choice: should they lock into a longer-term rate or roll their mortgage over continuously into short terms? The objective of this technical paper is to address several key issues related to mortgage term selection. The first section compares, on a historical basis over the 1960-94 period, the relative costs of consistently choosing a short-term rollover strategy versus locking into a five-year term mortgage. It addresses the issue of predictability by attempting to derive a predictive model that could be used by mortgage borrowers in helping them determine under which conditions one term selection is better than another. Section two provides the overall framework for the analysis, containing a review of the evolution of the mortgage term environment in Canada and outlining the hypothesis related to optimal mortgage term selection. Section three outlines the methodology and estimation results. Finally, a series of multiple

regressions is used to test a more comprehensive model.

### Moving forward, strengthening health planning in Ontario : summary report/sommaire and implementation report

District Health Councils/Ministries Joint Task Force (Ont.). Toronto : Ministry of Health ; Assn of District Health Councils of Ontario, 1993. v. 97 p. : *Bibl.* ISBN 0-7778-1681-4  
MICROLOG 97-07168 (2 fiche)

Presents the report of a task force established to define the practical roles and mandates of Ontario district health councils as they relate to the Ministry of Health and, with respect to long-term health care reform, as they relate to the Ministry of Community & Social Services, to ensure adequate resourcing for these roles and mandates; and to maximize positive relationships among these three partners in health and social services system reform. A planning framework developed by the task force to clarify the responsibilities of district health councils is presented and four central themes are discussed which must be addressed to prepare and support those councils to accomplish their roles and responsibilities: authority and leadership, accountability, regional planning capacity, and linkages with other stakeholders in the health system. Finally, specific strategies for action and enabling mechanisms are set out under each of the four themes.

### Municipal viability issues : a scan for potential issues in local government

Edmonton : Alberta Municipal Affairs, Local Government Services, 1996. 10 p.  
MICROLOG 97-07341 (1 fiche)

A changed economy along with changing public expectations of their local governments mean that some Alberta municipalities may not be able to continue to operate or will have to restructure. This paper offers a means for communities to conduct a self-examination of their long-term viability. It begins with an outline of some characteristics of a viable municipality, then presents and explains a questionnaire to be used for determining municipal viability under five criteria: economic and population growth; local democracy and sense of community; municipal administrative capacity and financial management; ability to provide for local services at a cost residents are willing to pay; and ability to provide services from available financial resources. The paper ends with a table of brief analyses and potential outcomes of the results of the evaluation according to the five criteria.

### National Capital Region, technology forecasts for the telecommunications, software, life sciences and environment industries : final report

Ekos Research Associates Inc. Ottawa : National Research Council of Canada, Regional Innovation Office ; Regional Economic Diversification Opportunities, 1997. viii, 116 p. : *Bibl.* On cover: *Innovation*. ISBN 0-662-25823-1 CCG-P no. NR 16-37/1997E  
MICROLOG 97-06958 (2 fiche) (Available on fiche only)

The overall goal of this study is to develop technology and market forecasts for four industries perceived to be key growth sectors in the National Capital Region: software development, telecommunications, environment, and life sciences. Two main information sources were used to provide technology forecasts: a review of the most recent literature and a series of key informant interviews conducted with local experts and company personnel in each of the four sectors. Issues addressed in the interviews included anticipated trends in technology, how technological developments will affect products produced, anticipated growth and decline in various product categories, anticipated changes in customer demand and behaviour, major markets and their trends, industry characteristics, and implications of technology and market trends for human resource requirements and for the Region's industries. For each of the four sectors studied, the report reviews the industry in the Region and its broader context, presents the forecasts, and discusses market trends and other issues addressed in the interviews.

### National Workshop on Wildland Fire Activity in Canada : workshop report, a wake-up call for the sustainable development of Canada's forests

[by] Albert J. Simard. Ottawa : Natural Resources Canada, Canadian Forest Service, Science Branch, 1997. x, 38 p. (Information report / Canadian Forest Service ; ST-X-13 ISSN 0705-324X) *French ed. (Atelier national sur l'ampleur...) on the same fiche*. ISSN 1192-1064 ISBN 0-662-25651-4 CCG-P no. Fo29-33/13-1996E  
MICROLOG 97-07205 (2 fiche)

Increasing forest fire activity is of great concern to many Canadians. Forestry plays a key role in the Canadian economy and the Canadian way of living. This workshop had five objectives: determine whether fire activity has increased ; evaluate and prioritize the possible causes ; summarize the potential impacts ; recommend appropriate responses ; and communicate the findings and recommendations, which is the purpose of this report. The report combines presentation notes taken by Paul Ward and discussion notes taken by the rapporteurs. It summarizes the workshop and makes no attempt to interpret the discussions, findings, or recommendations from any particular perspective.

### Native plant and animal booklet, southern interior

Written and compiled by Richard Cannings...et al. ; funded by Environment Canada...et al. Victoria : Naturescape British Columbia, 1997. 56 p. : *Ill.* (Stewardship series / British Columbia and Canada) On cover: *Caring for wildlife habitat at home*. ISBN 0-7726-3261-8  
MICROLOG 97-07431 (1 fiche)

This guide provides guidance to those interested in creating wildlife habitat at home for those living in the southern interior of British Columbia. It first explains the concepts of ecosystems and ecosystem diversity, and applies those concepts specifically to the southern interior ecoprovince, reviewing the region's climate, vegetation, fauna, as well as characteristics of neighbouring ecological regions. It then discusses how to develop and enhance habitat in one's own yard, and provides specific information on developing a garden in the dry conditions typical of the southern interior using xeriscape principles. The guide concludes with tables listing native plants in the southern interior, giving their names, suitability for xeriscape projects, commercial availability, sun exposure and moisture preference, physical and cultivation characteristics, and wildlife habitat values; and tables listing southern interior fauna, giving their names, relative abundance, food plants consumed, habitat, distribution, natural history, behaviour, and how to attract.

### New registration algorithms for the North Warning System

By D.P. Xue and M. Farooq. Ottawa : Defence Research Establishment Ottawa, 1996. 54 p. : *ill.*, *Bibl.* (Contractor report / Defence Research Establishment Ottawa : 96-748)  
MICROLOG 97-07452 (1 fiche)

Summarizes work on a project that aims at proposing a cost effective approach to solve radar registration problems currently existing in the North Warning System. The focus of the registration problems is the ghost track in regions of overlapping radar coverage. The report analyzes the registration algorithm currently used in the system and proposes some new registration algorithms, which will be evaluated by simulation and compared with the one currently used. It first reviews previous efforts at remedying the currently used algorithm and presents results of tests of these methods on pure two-dimensional data, noting the assumptions made and their role in the performance of those methods. Four new algorithms are then explained, based on two directions: modification of the present projection scheme and alternation of the order of projection and estimation. Advantages of the new algorithms are noted.

### Nipigon Bay Remedial Action Plan, a discussion of remedial options in the Nipigon Bay area of concern

Prepared by: Nipigon Bay Remedial Action Plan Team ; with assistance from: Nipigon Bay Public Advisory Committee. Thunder Bay, ON : Lake Superior Programs Office, 1994. 69 p. : *Bibl.* *On cover: Making a great Lake Superior*. ISBN 0-7778-3265-8  
MICROLOG 97-07416 (1 fiche)

As part of the North Shore of Lake Superior Remedial Action Plans, examines the remedial options currently available to restore beneficial uses of the environment in the Nipigon Bay area, identified as one of the areas of concern under the Canada-United States Great Lakes Water Quality Agreement. Begins with background on the characteristics of the Bay area, the current status of environmental impairments (such as degradation of fish and wildlife populations, eutrophication, and habitat loss), and a review of remedial actions to date. Options for remediation are then discussed for the following areas: contaminated sediments; sewage treatment plants; sea lamprey control; Nipigon River water management; the Domtar Packaging plant; and aquatic habitat rehabilitation. Finally, issues that should be considered in selecting remedial options are outlined. Includes glossary.

### Nipigon Bay Remedial Action Plan, stage 2 : remedial strategies for ecosystem restoration

Prepared by: Nipigon Bay Remedial Action Plan Team ; with assistance from: Nipigon Bay Public Advisory Committee. Thunder Bay, ON : Lake Superior Programs Office, 1995. v, 118 p. : *Bibl.* *On cover: Making a great Lake Superior*. MICROLOG 97-07415 (2 fiche)

One of the North Shore of Lake Superior Remedial Action Plans, this document presents the stakeholder commitments and implementation timetables necessary to restore the impaired beneficial uses previously identified in a review of environmental conditions in the Nipigon Bay area. That area is one of four on the Lake Superior north shore that have been identified under the Canada-United States Great Lakes Water Quality Agreement as individual areas of concern requiring a remedial action plan. The document first reviews the physical and biological features of the Nipigon Bay ecosystem, along with a socio-economic profile of the Bay area and its sources of pollution. Nipigon Bay environmental impairments are then identified and goals for remediation are set out. Finally, remedial strategies for ecosystem restoration are presented under the following categories: fish and wildlife population dynamics and habitat loss; benthic population dynamics and habitat loss; aesthetics; education and stewardship; and future concerns. For each strategy, the current situation is summarized, restoration objectives are listed, and remedial actions to date are reviewed. Appendices include lists of Nipigon Bay flora and fauna, and presentation of partnership commitments and financial requirements for recommended remedial actions.

### Nipigon River, development of a water management plan : final report

Prepared for: Nipigon River Management Committee ; prepared by the study team: Atria Engineering Hydraulics Inc. ; in association with Ecological Services for Planning Ltd....et al. Thunder Bay, ON : Ministry of the Environment, 1994. 58 p. : *ill.*, *Bibl.* (North shore of Lake Superior remedial action plans technical report series / Ontario. Ministry of the Environment ; no. 20) *On cover: North Shore of Lake Superior Remedial Action Plans*. *On back cover: Canada-Ontario Agreement Respecting Great Lakes Water Quality*. *Cover title: Nipigon River, development of a water management plan : preferred option report*. MICROLOG 97-07477 (1 fiche)

Reports on the final phase of a project to establish, through public involvement, a management option that will reduce the impacts of operation of Ontario Hydro's Nipigon River hydroelectric dams on the Lake Nipigon/Nipigon River watershed, particularly on the fishery. The report outlines the public consultation process including the community-based working group, and how the interests of stakeholders (municipalities, First Nations, lake users, fish, hydroelectric power generators) were taken into account. A preferred option for managing the water quantity in the Nipigon system is presented, based on a previous evaluation of alternative options. Simulation results are presented to illustrate the expected performance of the preferred option with regard to water flows and lake levels. The rationale for changing the Nipigon water management plan is explained and recommendations are made for implementing the preferred option.

### Nipigon River, development of a water management plan : options report

Prepared for: Nipigon River Management Committee ; the study team: Atria Engineering Hydraulics Inc. ; in association with Ecological Services for Planning Ltd....et al. Thunder Bay, ON : Ministry of the Environment, 1994. vii, 198 p. : *ill.*, *Bibl.* (North shore of Lake Superior remedial action plans technical report series / Ontario. Minis-

try of the Environment ; no. 19) *On cover: North Shore of Lake Superior Remedial Action Plans. On back cover: Canada-Ontario Agreement Respecting Great Lakes Water Quality.*  
MICROLOG 97-07476 (3 fiche)

Reports on a project to establish, through public involvement, a management option that will reduce the impacts of operation of Ontario Hydro's Nipigon River hydroelectric dams on the Lake Nipigon/Nipigon River watershed, particularly on the fishery. The report outlines the continuing public consultation process including the community-based working group, and describes how the interests of stakeholders (municipalities, First Nations, lake users, fish, hydroelectric power generators) have been taken into account through the use of penalty functions and weighting factors. A range of options for managing the water quantity in the Nipigon system is presented, based on the weighting factors assigned to each stakeholder penalty function. Costs for each option are expressed in terms of relative changes in lake levels and river flows experienced by stakeholders due to each option. Simulation results are presented from a multi-objective optimization computer model used to develop the options. The results are compared with historically observed data.

### **Nitrogen, phosphorus, potassium, sulphur : answers to your questions, a producer's version**

Editors: Con A. Campbell, Don A. Rennie, Loraine D. Bailey. Swift Current, SK : Agriculture & Agri-Food Canada, Research Station, 1994. 48 p. ISBN 0-662-22501-5 CCG-P no. A22-148/1994E  
MICROLOG 97-07319 (1 fiche)

This manual was developed in an attempt to provide a ready reference source that is factual, brief, and easy to understand by producers and agricultural extension workers. It is written in a question and answer format, with questions selected from those asked of prairie agronomists by Saskatchewan producers. The questions relate to macronutrient utilization, crop responses, and soils, including general questions on soil nutrients and fertilizers, and specific questions on crop requirements and rotations, inorganic and organic nitrogen utilization, phosphorus fertilizers, potassium and sulphur in plant nutrition, soil testing and sampling, timing and placement of fertilization, forage crops, fertilization economics, biotechnology, and environmental aspects.

### **Northern Ontario Miners' Health Survey : a summary of the follow-up investigations**

Principal investigator: S.L. Rifat ; co-investigators: P.N. Corey, D.R.C. McLachlan. Toronto : Occupational Disease Panel, 1995. 18 p. : *Bibl.*  
MICROLOG 97-07432 (1 fiche)

A silicosis prophylaxis program was conducted in northern Ontario hard rock mines between 1944 and 1979. As part of this program, a finely ground aluminium dust was blown into miners' change rooms and the miners were asked to breathe in this

dust so that it would enter their lungs and bind with mine dust. A 1987 survey was conducted to determine whether differences existed between men exposed and not exposed to the aluminium dust, either in terms of their medical history, current health, or performance on cognitive screening tests. The results were inconclusive or difficult to interpret. This report presents a follow-up study conducted in 1992 to examine the risk for neurologic disorder associated with exposure to the aluminium dust. The study group consisted of a sample of those who participated in the earlier survey, and study methods involved field assessment by trained interviewers, physical examination, and neuropsychologic testing. Results of comparisons between exposed and unexposed study groups are presented.

### **Northern Saskatchewan regional training needs assessment report, 1997**

Produced by Northern Office, Post-Secondary Education and Skills Training, La Ronge, and Northlands College ; with the Northern Labour Market Committee ; submitted to Post-Secondary Education and Skills Training, Regina : Post-Secondary Education & Skills Training, 1997. 71 p. : *ill., Bibl.*  
MICROLOG 97-07109 (1 fiche)

This report begins with a demographic profile of northern Saskatchewan residents, a majority of whom are aboriginal, and predictions of anticipated changes in northern Saskatchewan demographics, incomes, labor force, and education. The report then analyzes trends in the industrial sectors important to the north, along with efforts being undertaken to meet future employment and training demands. The sectors analyzed include mining, forestry, transportation, agriculture, fishing, fur trapping, construction, and the services sector. The report contains tables identifying regional training needs and resources. It concludes with a summary of special training initiatives for addressing the shortage of skilled northern workers.

### **Not out of the (Bretton) woods yet : exchange rate disequilibria, trade and suggested reforms**

By James McCormack. Ottawa : Dept. of Foreign Affairs & International Trade, 1995. 15 p. : *Bibl.* (Policy staff commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 6)  
MICROLOG 97-07446 (1 fiche)

Focuses on the problems of exchange rate volatility and misalignments, with a review of the changes in the international economic system since the Bretton Woods agreement of 1944. The macroeconomic role of floating exchange rates is discussed and the concepts of real and effective exchange rates are introduced. This is followed by a review of exchange rate volatility and misalignment, and of suggested reforms such as transaction taxes and international macroeconomic policy co-ordination. Concludes with proposed directions for the future. The appendix shows examples of real and effective exchange rate calculations.

### **NRCB/CEAA Joint Review Panel, Little Bow Project/Highwood Diversion Plan : report of the pre-hearing conference, June 3rd and 4th, 1997, High River, Alberta, NRCB application #9601**

NRCB/CEAA Joint Review Panel (Alta.). Edmonton : Natural Resources Conservation Board ; Ottawa : Canadian Environmental Assessment Agency, 1997. 99 p. ISBN 0-7732-1920-X  
MICROLOG 97-07125 (2 fiche)

Alberta Public Works, Supply & Services requested approval to construct a water management project to convey and store water from the Highwood River, consisting of four inter-related components including canals, diversion works, dams, and reservoirs. A joint federal/provincial panel was established to review the project under federal and provincial environmental and resource-related legislation. This report summarizes a pre-hearing conference held to provide an opportunity for input into the subsequent review process. Matters considered at the conference included the scope and jurisdiction of the review, an identification of issues to be considered at the hearing, advance costs requests, procedures for the hearing, timing and location of the hearing, and deadlines for submissions. Panel conclusions respecting certain matters considered at the conference are also included.

**Ontario road safety agenda**

Downsview, ON : Ministry of Transportation, 1993. iii, 65 p. : *ill., Bibl.* ISBN 0-7778-2072-2  
MICROLOG 97-06974 (1 fiche)

This document is designed to familiarize readers with Ontario's road safety environment and programs, and is also a planning report that indicates problems and priorities, setting important goals and plotting a five-year course for measures to reduce collisions. It first reviews road safety in a social context, noting the social and health costs of road accidents. It then notes trends in Ontario road collisions and fatalities, with comparisons to other countries, and sets a target to be achieved by the road safety strategy that follows. That strategy is laid out under three main headings: opportunity areas perceived to have the most significant levers and interventions to change safety performance; the approach and tools which affect the way Ontario intervenes in safety; and the phasing of specific initiatives and activities planned or under way. The appendix includes background on current programs and knowledge in each opportunity area.

### Options de restauration de la dune de LeGoulet, Nouveau-Brunswick : une évaluation géomorphologique

Par Stéphane O'Carroll et Dominique Bérubé.  
Frédéricton : Natural Resources & Energy, Minerals & Energy, 1997. 43 p. : ill., *Bibl.* (Dossier public / Nouveau-Brunswick. Ressources minières et énergie ; 97-9 ISSN 1198-4201) *Carte géogr. pliante non filmée.* ISSN 1205-7436  
ISBN 1-55137-845-0  
MICROLOG 97-07422 (1 fiche)

La dune de LeGoulet se situe sur le littoral nord-est du Nouveau-Brunswick. En 1996, le Ministère des Ressources naturelles et de l'Énergie du Nouveau-Brunswick a cartographié la géomorphologie de la dune de LeGoulet afin de déterminer ses options de restauration. Un total de 23 formes majeures d'érosion a été identifié sur la dune (12 entailles, 7 brèches, 4 caoudeyres). Les auteurs suggèrent au conseil municipal de LeGoulet de restaurer d'abord les formes d'érosion anthropiques. Ce travail peut être réalisé en utilisant des clôtures à neige comme piège à sable.

### Oral vaccination of neonatal calves, induction of long term immunity : final report

By Philip Griebel. Regina : Agriculture Development Fund, 1997. 29 p. : ill. *On cover: Prepared by VIDO.*  
MICROLOG 97-07263 (1 fiche) (Available on fiche only)

The primary activity of the project described in this report of the Saskatchewan Beef Development Fund was to assess the potential use of an adenovirus vaccine vector for the induction of local immunity in the intestine of new-born calves. The test vaccine vector was a human adenovirus 5 vector, which contained the gD gene of bovine herpes virus 1. New-born lambs that had surgically prepared intestinal loops were used to assess the immune responses induced by the vaccine vector, which was injected into these loops one to three days after birth. The effect of maternal antibody in the colostrum was also tested. Intestinal and systemic immune responses are described and the applicability of the results to cattle is noted.

### Ornamental wheat selection : final report

University of Saskatchewan. Crop Development Centre, Saskatoon, SK : Agriculture Development Fund, 1997. 32 p. : ill.  
MICROLOG 97-07347 (1 fiche)

Wheat weaving has become a significant cottage industry in Saskatchewan. This report describes a two-year study conducted to identify exotic wheat strains with unique visual traits that could be used for wheat weaving and/or flower arrangement purposes. From nearly 200 wheat strains initially screened, 34 were selected for further evaluation and 23 finally selected for possible commercial use. Each wheat line was scored for seven traits by test weavers and results are presented.

### Paleontological resources of the Lakes District Land Resource Management Plan (LRMP) area, British Columbia

Prepared by the British Columbia Paleontological Alliance ; M.J. Thompson, R.L. Thompson, compiler. Ottawa : Geological Survey of Canada, 1997. iii, 27 p. : *Bibl.* (Open file / Geological Survey of Canada ; 3469)  
MICROLOG 97-07022 (1 fiche)

Reviews the geology and paleontological resources of the Lakes District Land Resource Management Plan area in south-western British Columbia in order to enable resource managers to make informed decisions about land designation issues relating to paleontological (fossil) resources in the area. Begins with an overview of the nature and importance of paleontological resources, and the role of amateur collecting in paleontological research. This is followed by a description of designated fossil sites in British Columbia, the geology of the Lakes District area, and the process used to assess the importance of paleontological sites. Specific recommendations are then made regarding sites felt to be of paleontological significance. The appendix includes a policy on fossil collecting and regulation.

### Perspectives à long terme du logement : augmentation des ménages au Canada et dans les provinces, 1991-2016

Par Roger Lewis. Ottawa : Société canadienne d'hypothèques et de logement, 1997. ii, 164 p. : ill. *L'éd. anglaise (The Long-term housing outlook : household growth...)* : 98-00338/2. ISBN 0-660-95397-8 GCC-E no NH15-154/2016F  
MICROLOG 97-07479 (2 fiche)

Ce rapport expose les résultats de projections élaborées par la SCHL relativement à la croissance du nombre de ménages au Canada et dans chaque province et territoire, jusqu'en 2016. Il est nécessaire d'établir des projections à long terme de la demande de logement, en raison de la longueur du cycle de production dans le secteur de l'habitation.

Depuis la planification du développement des municipalités jusqu'à la construction éventuelle de logements, peut prendre plusieurs années et nécessite la prise de décisions qui se répercuteront sur l'environnement naturel, social et économique. On décrit les méthodes et scénarios, et on donne les résultats nationaux et provinciaux. Ensuite on considère les conséquences de la croissance des ménages sur les mises en chantier résidentielles, la décomposition de la formation des ménages, et finalement on offre des perspectives.

### Pipe uplift resistance testing in frozen soil

Nixon Geotech Ltd. Calgary, AB : National Energy Board, 1993. vi, 95 p. : ill., Bibl. *On cover: Program of Energy Research and Development*. ISBN 0-662-25508-9  
MICROLOG 97-07231 (2 fiche)

Describes a research program to investigate the load-resistance response as a buried pipe is displaced upwards through frozen ground. Tests were carried out which provide the general shape of the load-displacement curve and the effects of backfill type, displacement rate, and temperature. Interesting crack patterns in the frozen soil around the pipe have been observed, and their role in limiting or controlling peak and residual uplift resistance is discussed. A series of uniaxial tensile tests on frozen silt specimens was also carried out to help correlate the uplift resistance with a more fundamental soil property. Analysis of the uplift resistance test results has provided a correlation that will allow pipeline designers to establish the load-displacement characteristics of a buried pipe displacing upwards through frozen soil, as required for structural analysis of a buried chilled pipe in discontinuous permafrost terrain.

### Planning to make external changes : municipal restructuring using amalgamation, dissolution or annexation

Edmonton : Alberta Municipal Affairs, Local Government Services, 1996. 13 p.  
MICROLOG 97-07343 (1 fiche)

The purpose of this paper is to review the required processes that Alberta municipalities generally follow when considering either amalgamation, dissolution, or annexation. It first defines those three options and then considers the benefits and trade-offs of each. Under each option, the steps of the process involved are set out and explained, and the role of Alberta Municipal Affairs in helping with the process is outlined. The final section presents brief discussion of financial support for implementation of dissolution or amalgamation, and of what happens to municipal debts and reserves after restructuring.

### Policy on HIV/AIDS-related discrimination, approved by the Commission in November 1996

Ontario Human Rights Commission. Toronto : The Commission, 1996. 14 p.  
ISBN 0-7778-5950-5  
MICROLOG 97-07156 (1 fiche)

This policy document clarifies the scope of the Ontario Human Rights Code's protection for persons who are, or are perceived to be, infected with human immunodeficiency virus (HIV) or who have contracted HIV-related illnesses such as AIDS. Relevant sections of the Code are summarized and guidance is provided on application of the Code. Subjects covered include respecting the spirit of the Code, HIV testing, ensuring privacy and confidentiality, and the role of the Ontario Human Rights Commission in resolving complaints.

### Policy on racial slurs and harassment and racial jokes, approved by the Commission on June 19, 1996

Ontario Human Rights Commission. Toronto : The Commission, 1996. 17 p. : Bibl.  
ISBN 0-7778-5956-4  
MICROLOG 97-07134 (1 fiche)

This policy document sets out the Ontario Human Rights Commission's interpretation of the provisions of the Ontario Human Rights Code relating to racial slurs, jokes, and harassment. Provisions covered apply to such matters as discrimination and harassment in employment, accommodation, and services, goods, and facilities; creation of a poisoned environment for persons affected; liability of employers for actions of their employees and agents; and complaints procedures.

### Policy on sexual harassment and inappropriate gender-related comments and conduct, approved by the Commission on September 10, 1996

Ontario Human Rights Commission. Toronto : The Commission, 1996. 20 p.  
ISBN 0-7778-5962-9  
MICROLOG 97-07155 (1 fiche)

The purpose of this policy document is to assist in understanding the scope of the protection provided by the Ontario Human Rights Code with regard to sexual harassment and inappropriate gender-related comments and conduct. The policy makes a clear distinction between accepted social interaction or consensual relations, and behaviour which is known or ought reasonably to be known to be unwelcome. The policy also provides a framework for educational initiatives, anti-harassment policies, and internal human rights complaint resolution mechanisms by employers and other establishments. Topics covered include the definition of harassment, sexual solicitation, reprisal, creation of a poisoned environment, burden of proof, corporate liability, and remedies under the Code.

### A Population-based study of injury-producing accidents

By Mary L. Chipman. Toronto : Ministry of Health ; Premier's Council on Health, Well-Being & Social Justice, 1993. 36 p. : Bibl. (Working paper / Ontario. Ministry of Health ; no. 1) *At head of title: Ontario Health Survey, 1990*.  
MICROLOG 97-07028 (1 fiche)

The objectives of this report are: to estimate the additional use of health services attributable to injuries; to examine the differences in current health status associated with recent injury; and to examine the strength of association between injury and potential risk factors. Cases were identified from the Ontario Health Survey as all those reporting at least one injury in the previous 12 months serious enough to limit normal activity. Controls were a randomly selected sample matched by age group, sex, and public health unit to the cases, from all Survey respondents who had reported no injuries in the same time interval. The file of all cases and controls was subdivided according to injuries reported in vehicular, work-related, sports/games, and other accident categories. Results are reported in terms of increases in chance of contact or frequency of use of various types of health services including primary care and physiotherapy.

### Population health promotion model : a resource binder

Regina : Saskatchewan Health, Population Health Branch, 1997. 673 p. : ill., Bibl.  
MICROLOG 97-07030 (7 fiche)

This resource binder was developed to assist in the use of the Population Health Promotion Model, to help health districts shift toward a population-based health approach, to help in understanding the determinants of health, and for use as a reference in the preparation of workshops, articles, and the like. It provides background information on the Population Health Promotion Model and its foundations, as well as information on determinants of health including income, social status, social support networks, education, employment and working conditions, physical environments, biology and genetics, personal health practices and coping skills, healthy child development, and health services. The final sections cover action strategies for promoting health and the use of evidence-based decision making.

### Prediction of wrinkling behavior of girth-welded line pipe

By L.T. Souza and D.W. Murray. Calgary, AB : National Energy Board, 1994. 141 p. : ill., *Bibl. On cover: Program of Energy Research and Development.* ISBN 0-662-23662-9  
MICROLOG 97-07226 (2 fiche)

The purpose of this report is to examine the techniques of modelling girth-welded pipe specimens to determine whether the state of the art in analytical methods is adequate to simulate confidently the response of such specimens to various loads (constant internal pressure, constant axial load, and monotonically increasing imposed curvatures). The feature of the analyses is the realistic inclusion of wrinkling behaviour. The characteristics of this type of pipeline behaviour are established from three-dimensional analysis of pipe segments. These characteristics are then incorporated into a two-dimensional interactive soil-structure pipeline-beam analysis to predict the development of wrinkling and to assess the significance of such wrinkling under pipeline service conditions. The first part of the report describes the computer modelling technique and compares analytical predictions with experimental observations with respect to moment-curvature curves and the deformed configurations. The second part presents the effect of changes in the finite element models used on the results predicted.

### A Preliminary Identification of processes and problems affecting marine birds in coastal and offshore areas of British Columbia

By Alan E. Burger, Ken H. Morgan and Jacqueline A. Booth. Delta, BC : Environment Canada, Environmental Conservation Branch, Canadian Wildlife Service, Pacific & Yukon Region, 1997. xiii, 111 p. : *Maps, Bibl.* (Technical report series / Canadian Wildlife Service ; no. 277 ISSN 0831-6481) ISBN 0-662-25699-9 CCG-P no. CW69-5/277E  
MICROLOG 97-06819 (2 fiche)

Reviews the physical and biological processes and the human-related problems affecting marine birds in British Columbia, focusing on Procellariiformes (such as albatrosses), Phalacrocoracidae (cormo-

rants), and Charadriiformes (such as gulls and terns), with some information on Gaviiformes (loons), Podicipediformes (grebes), and Anseriformes (waterfowl). Colonies and critical foraging areas are mapped, prey requirements of the birds are reviewed, and prey concentrations are mapped, with emphasis on zooplankton, salmonids, Pacific herring, and sand lance (Ammodytes hexapterus). The effects of coarse scale physical ocean processes on the distribution of sea birds are discussed, including bathymetry, upwelling, tides, and currents. Also reviewed are potential problems affecting marine birds, such as pollution, aquaculture, vessel traffic, shoreline development, and fishing. Areas with favourable or problematic conditions for birds are identified. The report ends with recommendations for future research and monitoring.

### Preliminary technical report summary of the 1991 Niagara River mussel biomonitoring survey

By Lisa A. Richman. Toronto : Ministry of Environment & Energy, 1993. 6 p. : *Bibl.* ISBN 0-7778-0912-5  
MICROLOG 97-07167 (1 fiche)

Summarizes a study designed to identify sources of contamination along the Niagara River, in which caged mussels were exposed to the river for three weeks in July and August 1991. The mussel tissues were then analyzed for a variety of contaminants including pesticides, polychlorinated biphenyls, industrial chlorinated compounds, and metals. Sampling sites were located at the mouth of several tributaries and near known industries and disposal sites on the Canadian and US sides of the river. The results are useful for comparing spatially the relative contribution of contaminants to the river from individual point and non-point sources and to assess temporal trends in general.

### Pressure Ridge Ice Scour Experiment (PRISE), phase II : progress report

Memorial University of Newfoundland. Centre for Cold Ocean Resources Engineering. Calgary, AB : National Energy Board, 1993. xvi, 198 p. : ill., Bibl. On cover: Program of Energy Research and Development.  
MICROLOG 97-07230 (3 fiche)

Describes results of activities in three areas of work carried out as part of a progressing series of inter-related and focused studies directed at solving the problem of protecting seabed oil and gas pipelines from the effects of sea ice and iceberg scour. The first area of work is a field study carried out in the Beaufort Sea to demonstrate the potential of a method for quantifying the recurrence interval of deep ice keel scour events by direct age dating of existing features using a radiometric dating technique. The second area was a series of centrifuge model experiments investigating ice scour in clay soils. The third area was a finite element analysis of sub-scour deformation, and results of two- and three- dimensional models are presented for a variety of soil conditions. Appendices provide detailed accounts of the experimental and modelling results.

### Prevention of low birthweight in Canada : literature review and strategies

Canadian Institute of Child Health. Toronto : Ministry of Health, Health Promotion Branch, 1993. 125 p. : ill., Bibl. At head of title: *Best Start, community action for healthy babies*.  
MICROLOG 97-07166 (2 fiche)

Low birth weight is defined as weighing under 2.5 kilograms at birth. Low birth weight babies are at serious risk of dying or developing serious health problems that may last all their life. This report reviews the literature on low birth weight and its prevention. It begins with an introduction on understanding low birth weight, including its significance, trends in Canada and other countries, and the multi-faceted nature of the problem. The second section presents a community-wide approach for preventing low birth weight. The final section reviews factors and interventions associated with low birth weight, including poverty, smoking, alcohol use, nutrition, physical activity, and prenatal care. Appendices include question-and-answer fact sheets about low birth weight and prematurity, and a directory of programs addressing low birth weight prevention, arranged by province (plus three US programs).

### Pricing and packaging strategies of remote fly-in tourism operations in northern Ontario

By Len Hunt and Wolfgang Haider. Thunder Bay, ON : Ministry of Natural Resources, Centre for Northern Forest Ecosystem Research, 1997. v, 17 p. : Bibl. (CNFER technical report / Ontario. Centre for Northern Forest Ecosystem Research ; TR-001 ISSN 1206-016x) ISBN 0-7778-5580-1  
MICROLOG 97-07264 (1 fiche)

To better understand the resource-based tourism sector of northern Ontario, this study examined price and regional variations in the reported quality among the fly-in, fishing outposts of northern Ontario. The study linked the price charged by these outposts to variables collected from operator brochures. From a regression analysis, the degree of variation in prices was linked to such factors as flight distance, the regional base flown from, and the presence of food, a freezer, and a shower at the outposts. The trends in availability of facilities, presence of preferred fish species, catch-and-release ethic, and flying distances across the north are also noted along with their relationship to price. Finally, the potential distorting effect of economics of scale is discussed.

### Proceedings of the PERD Workshop on New Ice Load Models

By Canatec Consultants Ltd. Calgary, AB : National Energy Board, 1992. iv, 144 p. : ill., Bibl. On cover: *Program of Energy Research and Development*. ISBN 0-662-20260-0  
MICROLOG 97-07222 (2 fiche)

Proceedings of a workshop held to present four new ice load models and to review data which could be used to verify those models. Three of the models employ standard physics and engineering principles, assuming elastic theory in the far field, stress in the near field using damage-dependent constitutive equations, and a failure criterion to determine maximum load. A Mohr-Coulomb based model was used to determine the forces associated with extrusion of pulverized ice at the ice-structure interface. The fourth model uses fractal theory to explain the pressure/area relationship for ice. After sections presenting and reviewing the models, data for model verification are reviewed and general workshop reviews and comments are presented. The final section provides thoughts on future needs for ice-structure interaction research.

### Production of isobutylene/isobutane from the catalytic conversion of canola oil : final report

By R.O. Idem and N.N. Bakhshi. Regina : Saskatchewan Agriculture & Food, ADF, 1997. vii, 211 p. : ill., Bibl. On cover: *Prepared by University of Saskatchewan*.  
MICROLOG 97-07081 (3 fiche)

There is growing demand for iso-C4 hydrocarbons as raw materials for the manufacture of fuel additives and other chemicals, traditionally produced from petroleum sources. This report describes research on producing isobutylene and isobutane from a renewable resource, canola oil. The experiments involved catalytic conversion of canola oil in either single- or dual-reactor set-ups using cracking catalysts such as silica-alumina, zeolites, pillared clays, and mixtures. The objective of the studies

was to determine the best catalyst and operating conditions for obtaining maximum amounts of feed products and maximum product yields. Two types of processes were designed for the production of isobutylene and isobutane, one with and one without recycle. Preliminary feasibility studies showed the variation in the rate of return with the cost of the canola oil feedstock.

### Profile of a changing world, 1996 community agency survey

Toronto : Municipality of Metropolitan Toronto ; City of Toronto ; Social Planning Council of Metropolitan Toronto, 1997. 64 p. : ill.  
MICROLOG 97-07206 (1 fiche) (Available on fiche only)

Presents findings of a 1996 survey of broader community-based social service agencies in metropolitan Toronto, with comparisons to a similar 1995 survey. The agencies surveyed were asked questions about the agency overall, such as types of clients served, budget, and gaps in service, as well as questions regarding each specific program for which the agency was responsible. Added to the 1996 survey were questions about program additions, full-time staff equivalents in paid and volunteer work, and barriers to service access. After describing the survey methodology, this report profiles the types of agencies surveyed and presents an in-depth analysis of the social service funding situation. Different sources of funding are examined along with the funding shifts that occurred between 1995 and 1996. The impacts of these shifts on agencies are then explored. Subsequent sections examine staffing resources and impacts on staff as a result of funding cuts; present in-depth profiles of agency programs and services; and describe strategies being used to respond to changes in the funding environment.

### Le Programme des études d'impact sur les richesses du patrimoine du Manitoba, exercice 1995-96

Winnipeg : Culture, patrimoine et citoyenneté Manitoba, Ressources historiques, 1996. 44, 44 p. : ill., Bibl. *Bilingue (Manitoba Heritage Resources Impact Assessment...)*.  
MICROLOG 97-06949 (1 fiche)

La Loi sur les richesses du patrimoine encourage et facilite la préservation et la protection des richesses du patrimoine du Manitoba en prévoyant la tenue d'études d'impact en matière de richesses du patrimoine. Ces richesses sont des oeuvres de la nature ou du travail humain qui présentent une valeur culturelle, naturelle, scientifique ou esthétique. L'étude d'impact est une évaluation des effets que peut avoir un projet d'aménagement et décrit le projet dans ses grandes lignes, le contexte culturel et naturel, l'impact des travaux et elle recommande des moyens d'en éliminer et d'en atténuer les effets sur les richesses du patrimoine ou les ossements humains. On démontre en tableaux les régions et organismes des projets renvoyés pour consultation. Ensuite on fait la liste des études avec ou de permis, archéologue responsable, endroit, et résultats. On donne plus de détail pour quelques études importantes.

Ottawa : Canadian Council on Social Development, 1996. 64 p. : ill., Bibl. *French ed. (Le Progrès des enfants au Canada, 1996)* : 97-07434/2. ISBN 0-88810-440-5  
MICROLOG 97-07433 (2 fiche) (Available on fiche only)

This report is intended to inform Canadians about the status of children and youth, presenting indicators selected to identify influences that shape the lives and development of children and families, and measure outcomes. Five environmental indicators (family life, economic security, physical safety, community resources, and civic vitality) and four progress indicators organized by five age groups (health status, social engagement, learning, and labour market status) are evaluated to provide a snapshot of child well-being in Canada. After overview profiles of Canadian children and families, evaluation results are presented in chapters covering the five environmental indicators and the five age groups (pre-birth to age three, school age, young teens (age 10-14), teens, and young adults to age 24).

### Projections of the population with Aboriginal identity, Canada, 1991-2016 : summary report

By Mary Jane Norris, François Nault et Don Kerr. Ottawa : Royal Commission on Aboriginal Peoples ; Canada Mortgage & Housing Corpora-

tion, 1996. x, 42 p. : ill., *Bibl. French ed. (Les Projections de la population...)* : 97-06931/1. ISBN 0-660-16645-3 CCG-P no. NH15-150/2016E MICROLOG 97-06930 (1 fiche)

This report represents a summary of a more comprehensive and technical background document prepared for the Royal Commission on Aboriginal Peoples. It focuses on results of population projections prepared using Statistics Canada's regional cohort component approach in which the 1991 base population for each Aboriginal group is projected by age and sex, using assumptions about the components of growth by province/region and territories, and by place of residence. Assumptions were developed for four major components of growth: fertility, mortality, migration, and reinstatement and status inheritance rules of the revised Indian Act. Component assumptions were developed for four major Aboriginal groups: registered Indians, non-status Indians, Métis, and Inuit. Four projections provide a range of growth, including continuation of current trends and three tempos of growth. Limitations of the projections are discussed.

### Proposal for the New Brunswick Arts Board

By François Colbert. Fredericton : The Board, 1997. 13 p. *French ed. (Proposition pour le Conseil des arts...)* on the same fiche. MICROLOG 97-06875 (1 fiche)

The consultant mandate was to undertake a complete review of the New Brunswick Arts Board (NBAB)'s operations and mandate to establish its future role and its relationship to government. The consultant was to work with a steering committee comprised of two representatives from the Arts Branch of MCH and two representatives appointed by the actual Arts Board. The consultant was to report to the actual board of the NBAB. This document presents a proposal for the New Brunswick Arts Board.

### A Proposed framework for the implementation of monetary policy in the Large Value Transfer System environment : discussion paper 2

Ottawa : Bank of Canada, 1996. 10 p. *French ed. (Cadre proposé pour la mise en oeuvre...)* on the same fiche. MICROLOG 97-07473 (1 fiche)

This paper deals with two important technical matters raised by the introduction of the LVTS system. First, the impact on the level of settlement balances of the Bank's own transactions and of the flows of federal government payments through the Bank of Canada would continue to be neutralized through the transfer of government deposits rather than

open market buyback operations. The second matter is the treatment of the clearing results of the remaining paper-based payments. CA CO ND SS

### A Proposed framework for the implementation of monetary policy in the Large Value Transfer System environment : discussion paper 1

Ottawa : Bank of Canada, 1995. 11 p. : ill. *French ed. (Cadre proposé pour la mise en oeuvre...)* on the same fiche. MICROLOG 97-07472 (1 fiche)

As it implements monetary policy & influences interest rates, the Bank's payments clear in the form of cheques & other paper-based items. This paper discusses two important technical matters raised by the introduction of the large value transfer system environment (LVTS) system. First, there is the issue of how to neutralize the impact on the level of settlement balances of the flows of federal government payments through the Bank of Canada, as well as the Bank's own transactions. The second matter is the treatment of the clearing results of the remaining paper-based payments, for which there are currently two options. The net clearing outcome of paper payments of a given day could be dated on the next day, or dated that same day on a retroactive basis following the clearing process as is currently the case. The discussion paper explores some of the implications of these two options.

### Prospects of further reforms in India

By I. Prakash Sharma. Ottawa : Dept. of Foreign Affairs & International Trade, 1995. 16 p. : *Bibl. (Policy staff commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 12)* MICROLOG 97-07462 (1 fiche)

This note discusses whether recent economic reforms in India are likely to persist. It begins with background on the reforms undertaken 1991-95

which were aimed at restructuring the economy and make it based on private ownership of property and a competitive market system. Future challenges are noted with regard to privatization, market reform, and opening the economy to foreign investment. Comparative strengths for further reforms are then reviewed, such as the presence of private property rights and the rule of law based on common law. Finally, the political economy of future reforms is outlined, including internal politics and power structures. The appendix provides basic information on various aspects of the Indian economy. ### Prototype, mesoscale simulator for the study of oil weathering under severe conditions

By E. Pelletier and C. Brochu. Ottawa : Environmental Studies Research Funds, 1987. vii, 55 p. : ill., *Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 086)* ISBN 0-920783-85-6 MICROLOG 97-06868 (1 fiche)

Describes research using a low-cost simulation tank for studying the long-term fate and behaviour of crude oil under severe weather conditions and also in the presence of ice cover. As a prototype, the investigators constructed a protected outdoor tank with the surface of the contained seawater exposed to natural weather conditions but with the water column protected from extreme temperature variations. The design included such experimental features as a conical bottom, sediment trap, deck, and small instrument room. A full technical description of the prototype, mesoscale simulator is provided as well as the results of three long-term weathering experiments using chemically dispersed crude oil. The research also studied the stability of oil dispersions at near- to sub-zero temperatures and the relative role of evaporation and biodegradation on weathering of surface emulsions and water column oil.

### Public Service Pension Plan : Annual report 1996

Alberta. Public Service Pension Board. Edmonton : The Board, 1997. 40 p. MICROLOG 97-07327 (1 fiche)

The Public Service Pension Plan was established in 1947 as a contributory defined benefit plan for employees of the Alberta Government, its agencies, boards, commissions and other public bodies approved by the Lieutenant Governor in Council upon the recommendation of the Board. The Plan is

governed by a six-member Board. Their mandate is to act solely in the interest of Plan stakeholders to ensure that contributions are invested prudently, that the Plan is managed effectively and efficiently and is operated in compliance with legislation and regulations. This annual report provides a 5 year review of Plan data, and a review of financial data. A profile of the Board is provided, as well as comments from them. Investment and administration highlights, the actuarial cost certificate, employer listings, a glossary of investment terms and a directory are also included. Financial statements are provided as well.

#### Rail freight rates and grain shippers : the dilemma facing policy makers

Saskatchewan. Saskatchewan Agriculture & Food. Regina : The Dept., 1997. 10 p. MICROLOG 97-07096 (1 fiche)

The purpose of this paper is to discuss various issues related to rail freight pricing for grain shippers in Saskatchewan. It begins with background on the historical evolution of government regulation of the rail sector for both grain and non-grain commodities. It then describes various alternatives to achieve competition in the rail sector, including inter-switching provisions, producer ownership of rail cars, joint running rights, and common access. The final section reviews alternative regulatory measures that could be used if regulation of the rail sector continues. These measures include different types of rate caps, accountability measures, and different rates for different rail lines.

**Recent capital inflows to Latin America : too good to last?**

By Richard E. Mueller. Ottawa : Dept. of Foreign Affairs & International Trade, 1994. 10 p. : *Bibl.* (Policy staff commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 5)  
MICROLOG 97-07466 (1 fiche)

Recent net flows of financial capital to Latin America have recovered from their decline throughout the 1980s, but it is still possible that these flows could reverse themselves sometime in the future. This paper begins with a review of net capital flows to Latin America and the composition of those flows. It then reviews the factors behind the resurgence of capital flows, such as domestic changes in Latin American countries, financial market regulation changes in developed countries, and free trade agreements. The possibility that these flows could reverse in the future is discussed along with the implications of such capital outflows for the international financial system.

**Regional cost optimization study of the new R-2000 standard : final report**

To Natural Resources Canada, CAN-MET/EAETB/EED ; by Energy Building Group Ltd. Nepean, ON : The Group, 1995. 63 p. : *ill.*  
MICROLOG 97-06871 (1 fiche)

Summarizes results of a cost optimization study of the impact of the new R-2000 standard using a typical new house located in five different regions across Canada: Halifax, Montreal, Toronto, Edmonton, and Vancouver. A single base case house, typical of single detached developer-built housing, was used in the study: a two-floor, three-bedroom, full-basement house of 177 square metres gross outside floor area. A set of 28 upgrades was established for analysis including both alternate heating systems and various improvements to the building envelope. Upgrades were applied to each house/heating system combination in cost-effective order until the new R-2000 energy target was just achieved, resulting in the least-cost R-2000 package. The energy savings potential of the new R-2000 standard is compared to that of houses built using current building codes.

**Regional testing and development of winter wheat cultivars : final report**

University of Saskatchewan. Crop Development Centre. Regina : Agriculture Development Fund, 1997. 10 p. : *Bibl.*  
MICROLOG 97-07004 (1 fiche)

Reviews a project started in 1993 to: identify wheat cultivar lines with regional adaptation for Saskatchewan; conduct final tests required for cultivar registration; develop a data base for reliable regional cultivar recommendations; and provide regional demonstrations for winter wheat in Saskatchewan. Test sites were located to represent the primary winter wheat production areas of Saskatchewan while minimizing the costs of extensive travel. Plots were fertilized, sprayed, staked, and assessed for winter damage in April and May of each year. Normal plot maintenance, disease evaluation, and data collection were carried out in May to July. Plots were harvested in August and superior genotypes selected. Seeding was completed in early September and stands were assessed in October. Agronomic and quality data were analyzed and summarized over the August to December period.

**Reliability of offshore structural systems : theory, computation and guidelines for application**

MARTEC Ltd. Calgary, AB : National Energy Board, 1993. xv, 400 p. : *ill.*, *Bibl.* *On cover: Program of Energy Research and Development.* ISBN 0-662-25505-4  
MICROLOG 97-07150 (5 fiche)

Provides comprehensive and integrated information on probabilistic reliability and risk analysis and their engineering applications, with a special focus on offshore structures. Begins with theoretical background on probability theory, random variables and processes, and risk assessment. Chapter 2 discusses probabilistic models of all important loads for offshore structures (waves, wind, currents, ice, earthquakes). Chapter 3 presents methods for estimating the response to these loads via analytical and numerical procedures. Chapter 4 covers failure modes that constitute the basis for assessing

structural integrity, while chapter 5 deals with the probabilistic modelling of capacity. Fatigue reliability for marine structures is given special consideration in chapter 6. Chapter 7 reviews the unique operating conditions characteristic of offshore installations and operations, and the associated risks and hazards (such as blowouts, fires, collisions, and explosions) as well as the principles and procedures for safety management. This is extended to discussion of human and organizational error effects on reliability in chapter 8. In chapter 9, computational methodologies for component as well as system reliability analysis are presented, and chapter 10 surveys relevant available software packages. Chapter 11 presents demonstrative applications, especially with reference to the calculation of loads acting on offshore structures. The final chapter gives guidelines for practical applications and recommendations for bringing the state of practice closer to the state of the art.

### Remote sensing ice detection capabilities, east coast

James R. Rossiter... et al. Ottawa : Environmental Studies Research Funds, 1995. x, 173 p. : *Ill.*, *Maps*, *Bibl.* (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 132) ISBN 0-921652-36-4 MICROLOG 97-06902 (2 fiche)

Summarizes state-of-the-art sensor technologies for remote sensing of sea ice and icebergs off Canada's east coast. The study included four tasks: determination of offshore operator needs with regard to sea ice detection; a comprehensive review of available sensors; description of the main technologies involved; and evaluation of the reviewed sensors in relation to the operator needs. The study report includes a summary of operator needs for east coast operating scenarios (oil production and exploratory drilling); descriptions of individual sensors in a common format, including radars, passive microwave sensors, acoustic systems, optical systems, and other sensors; a matrix of sensors versus needs, for each scenario; and a summary of suggested systems for each scenario. In addition, the report summarizes marine communications systems of relevance.

### Removal of stranded oil from remote beaches by in-situ combustion

John A. Bennett... et al. Ottawa : Environmental Studies Research Funds, 1987. ix, 122 p. : *Ill.*, *Bibl.* (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 074) ISBN 0-920783-73-2 MICROLOG 97-07198 (2 fiche)

The first part of this report describes the development and testing of a prototype burner designed to remove stranded oil from a beach. An impinging flame that vaporizes and ignites the stranded oil is contained within a combustion chamber in the burner, maintaining temperature and ensuring clean burning. Results are presented from field tests conducted on removal of simulated spills on test beds constructed to simulate various types of beaches from sand to cobble beaches. The second part describes the design of a full-scale beach burner, carried on a standard Kubota KH-35 excavator and accompanied by an equipment support trailer towed by the excavator. Cost estimates for the equipment and for various beach clean-up options are included.

### Renewing the vision : response to the Hearing Officers' report

Niagara Escarpment Commission (Ont.). Georgetown, ON : The Commission, 1993. iv, 535 p. *At head of title: Niagara Escarpment Plan review hearing. On cover: MAB.* MICROLOG 97-07151 (6 fiche)

In a previous report, officers conducting hearings that reviewed various aspects of the Niagara Escarpment Plan made a number of comments and recommendations for changes. This report represents the Niagara Escarpment Commission's response to that report and to the recommendations it contains. It begins with an introduction making general observations on the hearing officers' report and criticism of the philosophical basis of its recommendations. The bulk of the report presents the Commission's response to the hearing officers' recommendations along with summaries of comments received at the hearings from interested parties. The responses and comments are arranged in the order of the hearing officers' recommendations and cover such issues as municipal official plans, plan amendments, lot creation, land use, infilling, subdivision, mineral resource extraction, heritage resources, site-specific amendments, and the Niagara Escarpment Parks System.

### Report and recommendations in the matter of Sections...of the Environmental Protection and Enhancement Act...and in the matter of an appeal filed by Ms. Bernice Kozdrowski with respect to Approval no. 10348-01-00 issued by the Director, Chemicals Assessment and Management Division, Alberta Environmental Protection to Laidlaw Environmental Services (Ryley) Ltd. for the operation and reclamation of a hazardous waste storage and hazardous recyclable storage and processing facility and the construction, operation and reclamation of a hazardous waste landfill

Alberta. Environmental Appeal Board. Edmonton : The Board, 1997. 56 p. : *Bibl.* *At head of title: Appeal no. 96-059.* MICROLOG 97-07058 (1 fiche)

In June 1996, Alberta Environmental Protection issued an approval to Laidlaw Environmental Services for construction, operation, and reclamation of a hazardous waste landfill in Ryley, Alberta. An appeal of this approval was launched and a hearing was held in March 1997 before the Environmental Appeal Board to consider issues raised in the appeal. Views of intervenors at the hearing are summarized, along with Board decisions and recommendations. Issues considered were the integrity of the landfill liner, the hydrogeology of the landfill area, and the possible contamination of area

groundwater from landfill leakage.

### Report of the Educational Boundaries Commission with respect to an application for land transfer from the Humboldt Rural School Division no. 47 to the Tiger Lily School Division no. 54

Saskatchewan. Educational Boundaries Commission. Regina : The Commission, 1997. 363 p. : *Ill.*, *Maps* *Notes and observations of the Commission (18 p.) laid in.* MICROLOG 97-06995 (4 fiche)

In early 1997, the Saskatchewan Minister of Education received petitions from electors in both the Annapolis and Englefield school districts in Humboldt Rural School Division no. 47 requesting a transfer of the schools and lands in the districts to the jurisdiction of the Tiger Lily School Division no. 54. The petitions had the support of a substantial majority of the electors in each of those districts. This document summarizes the findings of a commission that reviewed the land transfer issue involved in that request. Commission activities included meetings with the boards of education, local industry representatives, and local communities, as well as a review of submissions regarding the transfer. The appendix, forming the bulk of the document, contains copies of the written submissions.

**Report of the Ontario Healthcare Materials Management Task Force**

Ontario. Healthcare Materials Management Task Force. Toronto : The Task Force, 1993. xii, 57 p. : ill.  
MICROLOG 97-07164 (1 fiche)

Presents the findings and recommendations of a task force that conducted a study of the opportunities for standardization and improved efficiencies that could lead to reduced materials management and procurement costs for Ontario hospitals. The study had three phases: a survey to assess the procurement, inventory management, and internal and external distribution practices of Ontario hospitals; a review of the state of the art of alternative inventory management and distribution systems within the private and public sectors, and assessment of their applicability to Ontario hospitals; and formulation of options for improvement, based on information from the first two phases. Best practices for materials management found at hospitals and other institutions are reviewed and benefits of improved practices are evaluated with regard to group purchasing, information systems, inventory systems, vendor rationalization, and shared facilities.

### Report on the review of the dual role immersion suit systems for Canadian offshore operations

Cord Group Ltd. Calgary, AB : National Energy Board, 1995. 28 p. *On cover: Program of Energy Research and Development.* ISBN 0-662-25692-1 MICROLOG 97-07233 (1 fiche)

There is a requirement for the offshore oil and gas industry to provide cold water immersion protection for personnel during helicopter flights to and from offshore installations and on the installations in the event of emergency abandonment. These requirements have historically been met by providing two different immersion suits, one for helicopter transport and one kept on the offshore installation. This report examines the advantages and drawbacks of the dual role immersion suit concept, i.e. a single immersion suit being used for both helicopter transport and during emergency abandonment. It reviews the two Canadian standards for immersion suits to determine whether one system may be able to achieve dual approval, and summarizes interviews with those involved in operations using dual-role immersion suit systems in Norway and the United Kingdom. Recommendations are made regarding the suitability of a dual-role system for Canadian conditions and an appropriate means of implementing such a system.

### Report to the Workers' Compensation Board on cancer of the larynx in workers in primary nickel production

Ontario. Occupational Disease Panel. Toronto : The Panel, 1997. 92 p. : ill., *Bibl.* (ODP report / Ontario. Occupational Disease Panel ; 19)

ISSN 0840-7274 ISBN 0-7778-6413-4  
MICROLOG 97-07239 (2 fiche)

Presents a report from the Occupational Disease Panel on the following: whether there is a causal relationship between occupational exposure to nickel and the development of laryngeal cancer; and if so, what should be the criteria and eligibility rules for evaluation of claims respecting laryngeal cancer among nickel-exposed workers. The Panel contracted a study examining cases of cancer of the larynx among nickel industry workers, whether that cancer was cause of death or not. After an introduction, the report reviews evidence and conclusions relevant to the relationship between laryngeal cancer and nickel or nickel production, arranged by the following operations: nickel mining; nickel milling, including crushing and concentrating; nickel smelting and sintering; and nickel refining. Epidemiological factors and potential causative agents are discussed. The report then evaluates other possible causes of laryngeal cancer such as smoking. Finally, conclusions and recommendations for the Workers' Compensation Board are presented.

### Risk analysis basis for pipeline life cycle safety

By Brian J. Griffith. Calgary, AB : National Energy Board, 1994. iv, 113 p. : *ill.*, *Bibl.* *On cover: Program of Energy Research and Development.*

ISBN 0-662-23661-0

MICROLOG 97-07225 (2 fiche)

This report begins with an introduction to risk analysis including definitions, descriptions of alternate measurements, discussions of risk management and analysis processes, summaries of risk analysis methods, and assessments of risk mitigation and acceptability. It then develops a risk analysis basis which presents an approach to assist in the management of public and environmental risks from pipeline systems throughout their life cycle. This basis provided the link between design, construction, and operational criteria defined in codes and

practices and their associated impact on public safety and environmental protection. Specific applications of risk analysis methodology to pipeline systems are reviewed, and recommendations are made for the application of the proposed risk analysis basis.

### Risk-based calibration of reliability levels for limit states design of pipelines

By Quishi Chen. Calgary, AB : National Energy Board, 1994. v, 45 p. : *ill.*, *Bibl.* *On cover: Program of Energy Research and Development.*

ISBN 0-662-23663-7

MICROLOG 97-07227 (1 fiche)

The main objectives of the project described in this report were to select target reliability levels and recommend safety classes for the design of oil and gas pipelines. By using a risk-based calibration approach, target reliability levels were selected based on the failure probabilities and consequences associated with different products and locations. Criteria considered in the selection included economic optimization, life safety, and environmental safety. In addition, a review was made of historical data on failure causes, probabilities, and consequences. Areas adjacent to pipelines were classified into different categories based on population density and environmental sensitivity. Using the governing criterion for each case, five reliability levels were developed and five safety classes are recommended.

### Roberts Bank nearshore survey, PGC95003, March 21-31, 1995

By David C. Mosher. Ottawa : Natural Resources Canada, Geological Survey of Canada, 1995. i, 24 p. : *ill.*, *Maps*, *Bibl.* (Open file / Geological Survey of Canada ; 3202)

MICROLOG 97-07021 (1 fiche)

Describes and presents results of a survey of the near-shore regions of the southern Strait of Georgia hydro cable corridor using seismic and side-scan sonar technologies to: provide a link between onshore and offshore data; investigate an up-slope extension of the Roberts Bank Failure Complex; investigate sediment erosion and transport in the up-slope and shelf portions of Roberts Bank to address their possible impact on offshore facilities; and obtain geophysical ties to offshore and nearshore geotechnical boreholes. Details are included on the instrumentation and procedures used and recommendations are made for further geophysical surveying.

### Robust adaptive beamforming

By David N. Swingler. Dartmouth, NS : National Defence, Research & Development Branch, Defence Research Establishment Atlantic, 1996. 76 p. : *ill.*, *Bibl.* (DREA contractor report / Defence Research Establishment Atlantic ; DREA CR/96/450)

MICROLOG 97-07453 (1 fiche)

The minimum-variance distortionless-response (MVDR) beamforming method revolves around the computation of a set of sensor weights via a sample covariance matrix formed from field observations made at the sensors. Reducing or constraining the sensor weight amplitudes is an effective way of ameliorating problems with the method and can be optimally implemented in many cases by an extremely simple modification of the sample covariance matrix prior to computing the weights. This consists of writing the weights in vector form, where the constraint is on the value of the inner product vectors known as a quadratic function. This report features a reasonably extensive set of simulation results which attempt to examine the practical impact of the quadratically constrained MVDR approach. Infinite- and finite-time behaviour are discussed for various scenarios known to cause performance degradation for the standard MVDR adaptive beamformer. The transient behaviour of

the method in highly dynamic fields is also briefly examined. Performance gains using the new method are demonstrated in terms of output signal-to-noise ratio.

### Rouge Valley Park preliminary management plan : report no. 3

Prepared by the Rouge Valley Park Advisory Committee and Hough Stansbury Woodland Limited. Scarborough, ON : The Advisory Committee, 1992. iv, 160 p. : ill., Maps, Bibl. On cover: *Rouge Valley Park Project*. MICROLOG 97-06947 (2 fiche)

This report culminates the third main step of the Rouge Valley Park planning process and includes presentation of a recommended draft concept and policies for park management. It begins with a statement of park vision, goal, objectives, and planning principles, and a summary of issues and opportunities including those related to natural and cultural heritage, existing park policies, land use, and infrastructure. It then recommends a park boundary and sets out general policies for land securement. Subsequent sections cover park zoning, existing development and land uses within the park, natural and cultural heritage management policies, park programs, facilities and operations policies, park management structure, and management plan implementation. Includes glossary.

### Salmon aquaculture review : summary

British Columbia. Environmental Assessment Office. Victoria : The Office, 1997. 38 p. MICROLOG 97-07455 (1 fiche)

Summarizes the background, review procedure, general conclusions, highlights, and recommendations of a review of British Columbia salmon aquaculture operations, environmental issues, and policies. Highlights cover the following aspects of the review: siting and environmental issues, including the effects of escaped farm salmon, fish health, waste discharges, and interactions with coastal mammals and other species; First Nations issues; addressing risk and uncertainty in salmon farming; alternate salmon farming technologies including closed, circulating marine systems and land-based saltwater systems; dispute avoidance; the aquaculture policy context; and implementation of the review recommendations. A consolidated list of recommendations is included.

### Salmon aquaculture review, vol. 1 : report

British Columbia. Environmental Assessment Office. Victoria : The Office, 1997. x, 389 p. : ill. ISBN 0-7726-3317-7 MICROLOG 97-07456 (5 fiche)

Presents a comprehensive review of the environmental risks associated with salmon farming in British Columbia along with recommendations to mitigate those risks, with the Broughton Archipelago (where the salmon farming industry is well-established) used as a study area. The review methodology included input from the public and stakeholder groups, working sessions, field trips, and expert review of papers developed by the review team. After an introduction on the review process, this report reviews the salmon aquaculture industry and management system in British Columbia, then considers issues related to: salmon farm siting; escaped farmed salmon; farm and wild fish health, including possible effects of drug residues and assessment of existing measures to manage fish health; waste discharges from farm sites; interactions with coastal mammals and other species; First Nations issues; management of risk and uncertainty; alternative salmon farming technology; dispute avoidance and resolution; aquaculture policy context and advice; environmental, economic, and social implications of salmon farming; and implica-

tions of implementation of the recommendations, along with implementation priorities. Includes glossary.

### Salmon aquaculture review, vol. 3 : Technical Advisory Team discussion papers

British Columbia. Environmental Assessment Office. Victoria : The Office, 1997. i, 644 p. : ill., Maps, Bibl. ISBN 0-7726-3317-7 MICROLOG 97-07458 (7 fiche)

Contains a report from the British Columbia salmon aquaculture review's technical advisory team, plus five technical papers prepared for the review. The advisory team report contains an overview of the major findings of the technical papers and makes recommendations regarding such matters as the improvement of salmon farming practices and the mitigation of environmental impacts. The technical papers cover the following topics: environmental and ecological concerns over escaped farm salmon; assessment of risks from diseases of farmed salmon, the introduction of exotic diseases, and fish health management practices; environmental impacts of waste discharges from salmon farms, including sedimentation, waste composition, effects of discharges on water, waste management and monitoring, and risk assessment; interactions between farm salmon and other animals, including mammals, wild fish, and birds; and the site selection of salmon farms, including biophysical and socio-cultural issues, the coastal management context, regulatory approaches, site assessment and approval, and a case study in the Broughton Archipelago area.

### Salmon aquaculture review, vol. 4 : ancillary technical papers

British Columbia. Environmental Assessment Office. Victoria : The Office, 1997. i, 320 p. : ill., Bibl. ISBN 0-7726-3317-7 MICROLOG 97-07459 (4 fiche)

Contains four technical papers prepared for a review of salmon aquaculture in British Columbia. The first identifies social and economic impacts of the existing salmon farming industry in the province, and includes a review of the current state of the industry. The second presents an overview of the management and regulatory framework for salmon aquaculture in British Columbia, with outlines of the main legislation, regulations, policies, and programs currently in place to assess applications and regulate ongoing operations related to salmon farming. The third paper outlines the regulatory and management framework for salmon aquaculture in various jurisdictions in which salmon farming is an important industry (Norway, Scotland, New Brunswick, Washington state, Alaska, Chile). The fourth reviews existing and developing technologies for commercial salmon culture, including exposed offshore open marine systems, closed circulating marine systems, land-based saltwater systems, and a comparative analysis of their

advantages and drawbacks. The appendix to the last paper includes a process design and preliminary cost estimate for a land-based salmonid rearing facility located in coastal British Columbia.

#### **The Saskatchewan dry bean development program, phase II : final report**

By A.E. Slinkard and A. Vandenberg. Regina : Agriculture Development Fund, 1997. 12 p. : Bibl.  
On cover: Prepared by Crop Development Centre.  
MICROLOG 97-07010 (1 fiche)

Summarizes activities carried out in a program to develop dry bean germplasm for eventual release of varieties adapted to Saskatchewan growing conditions. Over 250 dry bean crosses were developed from six crossing cycles initiated during the program. Crosses were designed to develop adapted germplasm suitable for direct harvest systems in the pinto, great northern, red, pink, black, and navy bean market classes. A gene that reduces lignin content in pod walls was included in many crosses to eventually develop varieties that show reduced shattering. Other activities included development of appropriate production packages, determination of market quality profiles for new dry bean varieties, management of registration trials and regional test-

ing, and producing breeder seed of new bean varieties.

Fredericton : Dept. of Education, 1997. v, 68 p. : *Bibl.* French ed. (*Manuel à l'intention des comités...*) : 97-07426/1.  
MICROLOG 97-07425 (1 fiche)

A school parent advisory committee is composed of parent and community members who work in an advisory capacity with school principals and staff in order to enhance student learning and development, and to enrich the educational experience by increasing family and community involvement. This manual presents information regarding school parent advisory committees for New Brunswick schools. Sections of the manual cover: characteristics and membership; roles and responsibilities; communication with parents and community; codes of conduct; special interests or complaints; committee establishment, including election procedures and filling of vacancies; committee terms of office; meetings, including quorum, times and noti-

fication, agenda, motions, meeting procedures, and record keeping; decision making; and effective meeting strategies. Appendices include election instructions and a glossary.

### Scientific activities of the Government of Manitoba, 1995-96 survey results

By Bev Watier. Ottawa : Statistics Canada, Science & Technology Section, Science & Technology Redesign Project, 1997. 80 p. : *ill.*  
MICROLOG 97-06889 (1 fiche)

Summarizes results of an annual survey of scientific activities of the Manitoba government, covering work in both the natural sciences and the social sciences/humanities. Statistics are included on such matters as expenditures on scientific activities, personnel engaged in those activities, and objectives of expenditures. Data may be divided by

activity, department or agency, activity, and performing sector. Some historical and interprovincial comparisons are included, as well as estimates for 1996-97.

### Scientific criteria document for the development of interim provincial water quality objectives for 2,4-dinitrotoluene and 2,6-dinitrotoluene

By S.G. Abernethy. Toronto : Ministry of Environment & Energy, 1997. vi, 35 p. : *Bibl.*  
ISBN 0-7778-6426-6  
MICROLOG 97-07154 (1 fiche)

The purpose of this document is to derive a provincial water quality objective for two dinitrotoluene isomers, wherever possible using at least a minimum required amount of toxicological information. The document reviews the sources and uses of these chemicals in Ontario, their properties and fate in the environment, and their detection limits and ambient concentrations. The document also reviews the literature on the toxicity of the isomers to aquatic organisms, their bioconcentration, and the effects of the two dinitrotoluene isomers on water odour. The report ends with a description of the derivation of the interim provincial water quality objective for dinitrotoluene to protect freshwater aquatic life and identifies research required for water quality criteria development.

### A Search procedure for ships in RADARSAT imagery (U)

By Maria T. Rey, Anastasios Drosopoulos and Dusan Petrovic. Ottawa : National Defence, Defence Research Establishment Ottawa, 1996. xii, 40 p. : *ill.*, *Bibl.* (Report / Defence Research Establishment Ottawa ; no. 1305)  
MICROLOG 97-07451 (1 fiche)

The Ocean Features Workstation (OFW) is a RADARSAT ground terminal developed to facilitate the detection and tracking of ocean surface features such as ships, icebergs, and wave currents. This report describes the constant false alarm rate (CFAR) ship detection procedure under development for the OFW, based on the K distributed sea clutter model from synthetic aperture radar images. A number of scenes from the Earth Resources Satellite and RADARSAT are examined and the goodness of fit of the sea clutter model is investigated. The performance of the CFAR procedure in detecting ship targets is compared to the previous method used on the OFW.

### Section 270 of the Highway Traffic Act

Manitoba. Law Reform Commission. Winnipeg : The Commission, 1997. ii, 36 p. : *Bibl.* (Report / Manitoba. Law Reform Commission ; no. 97)  
ISBN 0-7711-1476-1  
MICROLOG 97-06886 (1 fiche)

Section 270 of the Manitoba Highway Traffic Act provides mandatory suspension of a driver's license and motor vehicle registrations where an unpaid motor accident judgment exists, whether or not the judgment has been extinguished in bankruptcy. This has been a feature of Manitoba law for over 65 years. This report examines whether there is a continuing policy justification for such suspensions, and if not, how this aspect of the law should be changed to reflect a modern society. Chapter 2 outlines the current law, similarities and differences in equivalent legislation in other provinces, and some constitutional issues. In chapter 3, the historical origin and purpose of Section 270 are explored to understand how and why this power arose, in order to assess its continuing purpose and justification. Chapter 4 examines whether reform is needed, and recommendations are made in the final chapter.

### The Somalia experience in strategic perspective, implications for the military in a free and democratic society : a study

By Berel Rodal. Ottawa : Commission of Inquiry into the Deployment of Canadian Forces to Somalia, 1997. xii, 156 p. : *Bibl. French ed. (L'Expérience de la Somalie d'un point de vue stratégique...)* ; 97-06841/2. ISBN 0-660-17082-5 CCG-P no. CP32-64/10-1997E  
MICROLOG 97-06944 (2 fiche)

This study proceeds from the proposition that the deployment of Canadian Forces in Somalia and the events that occurred there have something to tell Canadians about the nature of the policy choices facing the federal government in sustaining effective and relevant armed forces in the 1990s and beyond. The study focus is on developments in the domestic and international environment which are affecting the demands for, and on, the armed forces of the industrialized democracies; the experience in employing armed forces in the new environment; and on the lessons being learned and issues for policy. Study themes relate specifically to peace and stability operations, their place in the strategic scheme, their dynamics, significance, and implications. The study begins by reviewing changed international strategic conditions following the Cold War era and the experience of Canada and other democracies in responding to the new conditions. Lessons learned and policy issues are then discussed, and a chapter on the home front aims to identify societal changes and developments in national attitudes, policies, and legislation germane to raising, organizing, and deploying armed forces and to maintaining both military effectiveness in the new conditions and understanding and support for defence. The final chapter reviews and assesses lessons learned from new peace-keeping operations and from the Somalia experience, suggesting areas and issues for further study.

### Spills-of-opportunity research

Hatfield Consultants Ltd. Ottawa : Environmental Studies Revolving Funds, 1987. ix, 124 p. : ill., *Bibl.* (Environmental Studies Revolving Funds report / Environmental Studies Revolving Funds (Canada) ; no. 069) ISBN 0-920783-68-6  
MICROLOG 97-07182 (2 fiche)

This report recommends an ordered sequence of studies to provide investigation of spills of opportunity, or accidental oil spills. The recommended studies are based on following spilled oil from its point of release through to its subsequent fate and behaviour, on its biological effects, and onto the steps taken to control and remove the spilled oil. The report first introduces a general framework and co-ordinated approach to undertaking studies of spill incidents. It then sets out objectives, rationale, location, timing, methodologies, equipment/facili-

ties/personnel and services requirements, costs, and success potential for potential studies related to spill fate and behaviour (advection and spreading, stranding of oil, natural dispersion, sedimentation, oil properties and composition), biology (assessment of effects of oil on benthos, pelagic environments, birds, and marine mammals), and countermeasures (containment, physical recovery, chemical dispersion, temporary storage, transfer, ultimate disposal, and in-situ burning).

### St. Mary's River Remedial Action Plan : St. Mary's Rapids hydrology study

By Environmental Hydraulics Group ; for the St. Mary's River RAP Team. Thunder Bay, ON : Lake Superior Programs Office, 1995. iv, 54 p. : ill., Maps, Bibl. On cover: Making a great Lake Superior.  
MICROLOG 97-07491 (1 fiche)

The environmental area of concern in the St. Mary's River on the Ontario-Michigan boundary has historically experienced reductions in fish habitat due to the reduction of flow and size of the rapids area. The purpose of the study described is to define the hydraulic characteristics and constraints pertaining to increasing the watered area in the rapids with a minimum possible flow requirement. A two-dimensional computer model was applied to analyze flow in the rapids area and for the investigation of different locations and combinations of gate openings in the rapids area. A field investigation including substrate sampling and water level measurement was also carried out. The effects of berm improvement, channel dredging, and downstream remedial work were evaluated using the model and simulation results are presented. Finally, the effects of creation of a wetland east of Whitefish Island are examined and a future field test program is proposed.

### Stalking

Manitoba. Law Reform Commission. Winnipeg : The Commission, 1997. iv, 127 p. : Bibl. (Report / Manitoba. Law Reform Commission ; no. 98) ISBN 0-7711-1485-0  
MICROLOG 97-06887 (2 fiche)

This report explores the current legal response in Manitoba to stalking, a term which refers to any type of harassing and intimidating conduct that causes a person to fear for his or her safety. Stalking can include actions in themselves unlawful, such as using threatening language and making obscene phone calls, but also actions legal and socially acceptable in isolation, such as sending gifts or following someone. The report also examines the experience of other jurisdictions in Canada and elsewhere, and recommends reforms designed to provide enhanced protections and remedies for those affected by stalking. Provisions of the proposed Stalking Protection, Prevention, and Compensation and Consequential Amendments Act are explained and a copy of the proposed Act is appended.

### State of the environment : report for Manitoba 1997

Winnipeg : Manitoba Environment, 1997. 174 p. : ill., Maps, Bibl. At head of title: Moving toward sustainable development reporting : conditions and trends, facts and figures, problems and solutions. ISSN 1185-6762  
MICROLOG 97-06979 (3 fiche)

This report describes Manitoba's environment quality and related activities as well as future environmental issues, projected trends and environmental management activities. The format of the report is to present news stories on significant issues, describing each issue's significance, explaining what is being done to resolve it and citing data to throw more light on the subject. The focus on the 1995 report is agriculture. The 1st section is devoted to the history of agriculture in Manitoba, current environmental concerns related to agriculture and advancements in improving the sustainability of agriculture. The rest of the report looks at issues in the natural environment (air, water, fish, forests, wildlife, natural lands and special places) and socioeconomic environment (energy, mines, transportation, education, business, industry and government, waste management), updating issues discussed in the last report and considering new ones.

### Stock assessment for British Columbia herring in 1996 and forecasts of the potential catch in 1997

By J.F. Schweigert, L. Hamer and C. Fort. Nanaimo, BC : Dept. of Fisheries & Oceans, Science Branch, Pacific Region, Pacific Biological Station, 1997. viii, 73 p. : *Ill., Bibl.* (Canadian technical report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2173 ISSN 0706-6457) MICROLOG 97-06845 (1 fiche)

Herring are an important component of the British Columbia commercial fishery with catch records dating from 1877. Since 1983, herring fisheries have been managed with a fixed quota system in which catch levels are determined prior to the season based on a fixed percentage of forecast stock abundance. This report presents stock assessments from escapement and age-structured analytical models that were developed explicitly for B.C. herring. Both models reconstruct stock abundance from 1951 to last year and forecast pre-spawning abundance for the coming year. Forecasts of recruit spawners are presented as poor, average and good, based on historical recruitment levels. The report does not discuss the development and evaluation of empirical models for forecasting recruitment. BC CA CF FI ND SC

### Une Stratégie de renouvellement du réseau routier national : rapport

### Stratigraphy of the Middle Cambrian platform succession, southern Rocky Mountains

By J.D. Aitken. Ottawa : Natural Resources Canada, Geological Survey of Canada, 1997. 322 p. : *Ill., Maps, Bibl.* (Bulletin / Geological Survey of Canada ; 398) *Fold. maps not filmed.* ISBN 0-660-16893-6 CCG-P no. M42-398E MICROLOG 97-07494 (4 fiche)

The 1.3-kilometre-thick, virtually complete Middle Cambrian platform succession of the southern Rocky Mountains consists of four grand cycles, each beginning with a formation of the inner detrital facies belt and ending with a formation of the middle carbonate facies belt. The first three cycles share a common depositional style and are the main subject of this bulletin. The bulletin provides a comprehensive current analyses of these Middle Cambrian strata and includes abundant basic data including: the classification and understanding of algal/microbial limestones; the recognition and interpretation of large-scale depositional cycles; and the mechanism and history of subsidence of the western continental margin. The bulletin clarifies the existing lithostratigraphic nomenclature. Several new reference sections are designated and nine new members are defined. Data on a network of sections of the platform facies of the Middle Cambrian are interpreted in terms of modern sedimentological concepts and depositional models. AL BC CA DE NR SC

### Strawberry cultivar trial, 1995-96

Charlottetown : Agriculture & Agri-Food Canada, Charlottetown Research Centre, 1997. 2 p. (Agri-Info factsheet / Charlottetown Research Centre (Canada) ; 97-02) *At head of title: Horticulture.* MICROLOG 97-07390 (1 fiche)

Reviews field trials of 14 selections and cultivars of strawberries planted in 1994 on fine sandy loam soil at the Charlottetown Research Centre. Yields recorded for the first and second crop are presented. AG AP CA ND SC

### Street proofing and safety programs for children and youth

By Brenda J. Smith. Ottawa : Royal Canadian Mounted Police, Crime Prevention/Victim Services Branch, 1997. viii, 154 p. *French ed. (Programmes de sensibilisation...)* : 97-07241/2. *Cover title: Directory of street proofing and safety programs for children and youth.* ISBN 0-660-16860-X CCG-P no. JS62-92/1997E MICROLOG 97-07240 (2 fiche)

This directory has been compiled in an attempt to better serve the needs of individuals interested in accessing child safety programs. Program information is arranged by province/territory and city, and includes name of program, content of program, format of program, age group of the children to whom the program is relevant, audience to which the program is geared, name of person or organization responsible for providing the program and/or its development, and name of agency that offers the program. A program title index is included. CA DE SA SS

### Structure and content of clinical study reports

Ottawa : Health Canada, Drugs Directorate, 1996. xii, 45 p. *French ed. (Structure et contenu des rapports...)* : 97-07244/1. *At head of title: Drugs Directorate guidelines : ICH harmonised tripartite guideline, International Conference on Harmonisation of Technical Requirements for Registration of Pharmaceuticals for Human Use.* ISBN 0-662-25292-6 CCG-P no. H42-2/67-10-1996E MICROLOG 97-07243 (1 fiche)

The objective of this guideline is to allow the compilation of a single core clinical study report acceptable to all regulatory authorities of the International Conference on Harmonisation regions. The clinical study report described in this guideline is an integrated full report of an individual study of any therapeutic, prophylactic, or diagnostic agent conducted in patients, in which the clinical and statistical description, presentations, and analyses are integrated into a single report. The guideline is intended to assist sponsors in the development of a report that is complete, free of ambiguity, well organized, and easy to review. Topics covered by the guideline include report title page, synopsis, table of contents, list of abbreviations and definitions of terms, ethics, investigators and study administrative structure, report introduction, study objectives, investigational plan, study patients, efficacy evaluation, safety evaluation, tables/figures/graphs, reference list, and report appendices. ### A study of domestic violence and the justice system in Manitoba : report

Commission of Inquiry into the Deaths of Rhonda Lavoie and Roy Lavoie ; Perry W. Schulman, Commissioner. Winnipeg : The Commission, 1997. xvi, 246 p. : ill., Bibl.  
MICROLOG 97-07385 (3 fiche)

Rhonda and Roy Lavoie were married, but separated, when they were found dead in a murder/suicide incident in a van at a farm north of Gimli, Manitoba, on January 20, 1995. In the months preceding their deaths, Roy had been charged with a number of criminal offences associated with domestic violence, and both had been involved with one or more government departments or social service agencies which provide services to victims of domestic violence or domestic violence offenders. This report presents findings and recommendations of a commission asked to examine how the criminal justice system and each of those departments or agencies responded to the couple, and to assess whether that response was appropriate in the surrounding circumstances. The commission also determined whether appropriate systems and processes exist in Manitoba to adequately meet the needs of all victims of domestic violence and domestic violence offenders. After a review of the facts of the case and of the cycle of domestic violence (in general and in the Lavoie case), the report considers issues related to the Winnipeg Police Service, the Family Violence Court, the Women's Advocacy Program, community and youth corrections, civil restraining orders, social service agencies, social allowances, the legal profession, and public awareness. The appendix includes a report on constitutional considerations regarding ways of defusing domestic violence.

### Study of summer and fall movements and dive behaviour of Beaufort Sea belugas, using satellite telemetry, 1992-95

By Pierre R. Richard, J.R. Orr and A.R. Martin. Ottawa : Environmental Studies Research Funds, 1997. v, 39 p. : ill., Maps, Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 134) ISBN 0-92162-39-9  
MICROLOG 97-06885 (1 fiche)

Describes project methods and presents highlights of results from a study of Beaufort Sea belugas, involving the tracking and recording of dive behaviour using satellite-linked time-depth recorders. Over four years of field and laboratory work and analysis, 14 males and six female belugas were live-captured and tagged in the Mackenzie River delta with satellite transmitters that were used to obtain detailed behavioural data to study migration routes to summer and winter concentration areas, to understand the effect of beluga movements and diving on population estimates based on aerial surveys, and to study habitat preferences and habitat use. Results showed unexpected behaviour on the part of Beaufort Sea belugas.

### Summary of formative evaluation results of the Assessment, Counseling and Referral Strategic Initiative -- Draft report

KPMG (Firm). Victoria : Ministry of Education, Skills & Training, Evaluation & Accountability Branch ; Ministry of Human Resources ; Hull, PQ : Human Resources Development Canada, 1997. 68 p. : ill.  
MICROLOG 97-07406 (1 fiche)

Sets out the findings of an evaluation of the Assessment, Counselling and Referral Strategic Initiative (ACRSI), an initiative which had the objective of testing and demonstrating an enhanced assessment, counselling and referral system for people on income support. The initiative was expected to improve linkages within and between employment programs, the individual on income support, and the labour market. The purpose of the evaluation was to assess how well the ACRSI was designed and managed, and what factors were likely to affect the efficiency, economy, and effectiveness of the initiative. Evaluation issues were addressed through an examination of documents, on-site interviews, follow-up telephone interviews, and administration of a formative questionnaire to members of the nine local ACRSI committees and the service providers involved in ACRSI pilot projects.

## Tainting of finfish by petroleum hydrocarbons

R.J. Ernst...et al. Ottawa : Environmental Studies Research Funds, 1987. xiii, 150 p. : ill., Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 080) ISBN 0-920783-79-1 MICROLOG 97-07201 (2 fiche)

The main goal of the study reported was to establish a scientific basis for assessing taint in a representative commercial finfish in relation to the occurrence and persistence of soluble petroleum hydrocarbons. Experimenters conducted a series of short- and long-term exposure studies to evaluate the threshold concentrations of petroleum hydrocarbons in sea water which can lead to tainting problems in Atlantic cod and to obtain an appreciation of the time to recover (depuration period) once the tainting has occurred. Four oils were used in the study, the first three being crude oils and the last a middle distillate. Hydrocarbon concentration of the fish-exposed contaminated waters ranged from 0.03 to 3.00 parts per million. The sensory evaluation compared the flavour and taste of fillets from fish exposed to hydrocarbons with the flavour and taste of a control group of fish held in uncontaminated water. Bioaccumulation of hydrocarbons in fillets and lipid content of fish were also investigated for the case of fish exposed to Hibernia water-soluble fraction hydrocarbons.

## Taxonomy and biostratigraphy of Middle and Late Triassic elasmobranch ichthyoliths from northeastern British Columbia

By M.J. Johns, M.J. Orchard and C.R. Barnes. Ottawa : Natural Resources Canada, Geological Survey of Canada, 1997. 235 p. : ill., Bibl. (Bulletin / Geological Survey of Canada ; 502) *Folded chart not filmed*. ISBN 0-660-16894-4 CCG-P no. M42-502E MICROLOG 97-07032 (3 fiche)

Diverse and abundant Middle and Late Triassic elasmobranch ichthyoliths (microscopic shark teeth and scales) coexisting with conodonts, ammonoids, and bivalves recovered from carbonates in the Peace River area of British Columbia provide an excellent biostratigraphic framework for Triassic strata. This report provides systematic descriptions and illustrations of Triassic elasmobranch ichthyoliths including seven species of teeth and 19 new form genera and 53 new form species of scales. A provisional ichthyolith zonation for the Middle and Upper Triassic is proposed for the Peace River area, and new approaches to ichthyolith identification are discussed. Results from this study demonstrate the use of ichthyoliths in basin analyses to data and correlate strata.

**Thermal consolidation effects around a high level repository, phase II : final report**

By A.P. Selvadurai. Ottawa : Atomic Energy Control Board, 1997. iv, 144 p. : ill., *Bibl.*  
MICROLOG 97-07361 (2 fiche)

Presents work conducted in connection with a research project that investigated the thermo-hydro-mechanical (THM) processes occurring in granitic rocks either in an intact condition or containing a discrete fracture, and subjected to combinations of thermal and mechanical loads. Outlines the background leading to development of the research initiative and the experimental research facility designed to conduct the THM studies involving large specimens (510 by 570 millimetres). The experimental configuration is intended to be a unique test facility without the limitations usually associated with tests conducted on smaller core samples. The important features of the facility are summarized, and results are presented of: isothermal pulse tests conducted on both dry and saturated specimens of intact granite; pulse tests conducted in the presence of internal heating of the fluid-filled central cavity; and constant flow rate tests conducted on fractured cylinders, examining the influence

of axial stress normal to the plane of fracture and various states of differential thermal loading at the exterior of the cylinders on the permeability of the fracture.

**Thunder Bay Remedial Action Plan, stage 1 : environmental conditions and problem definition**

Prepared by: Thunder Bay Remedial Action Plan Team ; with assistance from: Thunder Bay Public Advisory Committee. Thunder Bay, ON : Lake Superior Programs Office, 1991. xxxvi, 140 p. : ill., *Maps, Bibl.* On cover: *Making a great Lake Superior.* On title page: *North Shore of Lake Superior Remedial Action Plans. Originally published by Ontario Ministry of the Environment, Environment Canada, Ontario Ministry of Natural Resources, Department of Fisheries and Oceans.* ISBN 0-7729-9032-8  
MICROLOG 97-07490 (2 fiche)

This report first summarizes background information on the Thunder Bay area of Lake Superior, identified as an area of concern under the Canada-Ontario Agreement on Great Lakes Water Quality. Information is included on the area's biogeography, land and water uses, and environmental conditions, and describes sources of pollution, notably those related to the forest industry. It then identifies impaired uses of the area environment, including degradation of fish and wildlife populations, restrictions on drinking water consumption and beach use, and habitat loss. It also documents efforts to restore beneficial uses, indicates any resultant improvements, points out information gaps for which research is needed, and identifies specific studies needed to fill those gaps. Finally, public involvement in the Thunder Bay Remedial Action Plan process is documented.

**Toronto's response to the KPMG report, Fresh start : an estimate of potential savings and costs from the creation of single-tier local government for Toronto**

By Andrew Sancton. Toronto : Board of Management, 1996. 7 p. At head of title: *Amalgamation.*  
MICROLOG 97-07475 (1 fiche)

Presents the City of Toronto response to a report estimating potential savings and costs of amalgamation of Metropolitan Toronto and its six constituent municipalities into one large city. Two basic problems with the report are addressed: its projection of potential savings as being related to efficiency enhancements rather than to amalgamation as such; and the sketchiness and incompleteness of the analysis of the projected potential savings directly attributable to amalgamation. Four different factors related to amalgamation that will increase costs are also discussed: standardization of service levels, harmonization of collective agreements, costs of decentralization measures, and costs of the new mayor and council.

**Towards development of a new school facilities capital plan for Alberta's students : discussion paper**

Alberta. School Facility Task Force. Edmonton : The Task Force, 1997. 22 p. ISBN 0-7732-9874-6  
MICROLOG 97-07219 (1 fiche)

This paper is intended to stimulate public discussion about funding school facilities in the Alberta education system, under a new capital plan that must be developed and introduced in 1998. Issues identified include: maintenance, renovation, and replacement of existing facilities; accommodating growth in school enrolment; accommodating new educational programs and different delivery meth-

ods; maximizing the use of existing facilities; sharing facilities, resources, and activities; and planning and managing school facilities capital. Appendices include background information on Alberta school facilities and their funding.

### Towards regional economic blocs : are we there yet?

By Julie K. Fujimura. Ottawa : Dept. of Foreign Affairs & International Trade, 1995. 59 p. : *ill.*, *Bibl.* (Policy staff paper / Canada. Dept. of Foreign Affairs & International Trade ; SP59A) (Regional trade and economic series / Canada. Dept. of Foreign Affairs & International Trade ; 95/01)  
MICROLOG 97-07281 (1 fiche)

The formation of regional economic blocs is seen by some as a potential threat to multilateral liberalization and to smaller trading nations such as Canada. This paper examines whether regional economic blocs are emerging and the potential implications of regional economic integration for globalization and economic welfare. The first section discusses general economic concepts such as globalization and regionalization and seeks to find an adequate working definition of trading blocs. The next section surveys the literature on various concepts of blocs. This is followed by an empirical study of intra-regional trade in the three regions of North America, Europe, and Asia, attempting to determine whether regional trading blocs are emerging or growing in these regions. A study of international direct investment patterns, similar to that of international trade patterns, is then undertaken to determine whether there are increasingly regional patterns in international investment. Finally, general conclusions and policy implications are derived from the empirical evidence regarding trade and investment patterns and the findings of the literature survey.

### Towards safer communities : a progress report on the safe homes, safe streets agenda

Canada. Dept. of Justice, Communications & Consultation Branch. Ottawa : Interdepartmental Communications Committee on Violence in Society & Crime Prevention, 1995. ii, 37, ii, 39 p. *Bilingual* (Rapport d'étape sur la sécurité...)  
MICROLOG 97-06924 (1 fiche)

Canadians are concerned about crime, particularly violent crime. Between 1982 and 1992, the rate of violent crime reported to the police has increased by an average of six percent each year. While in 1994, the rate of violent crime dropped 3 percent and violent crime constitutes 11 percent of all reported crime, Canadians are increasingly fearful for their own safety. This document presents a progress report on the safe homes, safe streets agenda. Topics covered are: strengthening the system; crime prevention and community involvement; youth and violence; family violence; and, aboriginal justice.

### Trade and direct investment statistics : the twain have met

By James McCormack. Ottawa : Dept. of Foreign Affairs & International Trade, 1994. 7 p. (Policy staff commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 3)  
MICROLOG 97-07468 (1 fiche)

As the international economy has become more integrated, the adequacy of standard cross-border trade statistics has come into question. This commentary reviews several alternatives that have been developed for determining cross-border trade: the United States National Academy of Science proposal, which calculates the net US sales to foreigners as the sum of net US cross-border sales to foreigners by domestically owned companies and by foreign-based affiliates of US companies, plus net US sales to US-based affiliates of foreign companies; the Julius proposal that excludes payments to labour and other factors of production as well as local purchases by foreign affiliates in arriving at a net sales figure; and a residency-based approach that is an attempt to combine the additional information available from company ownership with standard balance of payments residency concepts. The advantages and drawbacks of these alternatives are discussed.

### Traders in tennis shoes : derivatives, volatility, risk and supervisory issues

By James McCormack. Ottawa : Dept. of Foreign Affairs & International Trade, 1995. 10 p. : *Bibl.* (Policy staff commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 11)  
MICROLOG 97-07442 (1 fiche)

This commentary examines financial derivatives markets and where Group of Seven energies might best be directed to deal with the risks that financial instability and derivatives pose for markets and participant firms. It begins with an explanation of what derivatives are, their uses, and the markets in which they are traded. It then discusses derivatives in the context of two related themes woven into most suggested reforms of financial markets: concern about excess volatility in those markets, and the possibility of either an institutional collapse or difficulties in a specific market spreading rapidly and uncontrollably around the world (also known as a systemic risk). Specific reforms examined include a tax on financial transactions, trade restrictions, information exchange regarding potential systemic risks, and improvement of credit risk assessment.

### The Transfer efficiency assessment of individual income-based whole farm support programs

Prepared by: Calum G. Turvey...et al. Ottawa : Agriculture Canada, Policy Branch, Economic & Policy Analysis Directorate, Industry & Policy Analysis Division, 1995. v, 73 p. : *ill.*, *Bibl.* (Technical paper / Canada. Agriculture Canada. Policy Branch ; 5/95)  
MICROLOG 97-06951 (1 fiche)

In light of recent trade agreements, the current direction of Canadian agricultural policy is toward whole-farm income stabilization and away from traditional, commodity-specific price and income support programs. This study develops a framework to evaluate whole-farm based programs and presents a prototype programming model to examine the effects of various support programs. Section two reviews the classical economic arguments for government intervention in the market. Section three provides an overview of existing support programs for Canadian agriculture, including the basic features of each program and their possible future direction, and provides alternative definitions and interpretations of decoupled farm programs. Section four develops a general framework for analyzing the farm firm and examines impacts of price stabilization and insurance on farm-level production decisions. Section five provides a framework for investigating transfer efficiency and section six describes a whole-farm risk minimization model using the BEAR Plus spreadsheet program.

### Tree Farm Licence 8 issued to Pope & Talbot Limited : rationale for allowable annual cut (AAC) determination, effective September 1, 1997

By Larry Pedersen. Victoria : Ministry of Forests, 1997. 41 p. : Bibl.  
MICROLOG 97-07412 (1 fiche)

Tree Farm Licence (TFL) comprises two separate blocks covering 77,664 hectares in south central interior British Columbia. The TFL is held by Pope & Talbot Ltd. and about 96% of the TFL area is classified as productive forest. After a brief description of the TFL area, this report reviews the principles for determining the allowable annual cut for the area and presents an accounting of the factors and the rationale used in making that determination. These factors include the role of the base-case timber supply forecast, the existing forest inventory, the expected rate of forest growth, the land base contributing to timber harvesting, expected rate of growth, silvicultural systems, decay and wastage, integrated resource management objectives, land use plans, harvest flows, and forest industry facilities. The appendix contains relevant sections of provincial forestry legislation.

### The Trouble with numbers : military spending in developing countries

By James McCormack. Ottawa : Dept. of Foreign Affairs & International Trade, 1995. 11 p. (Policy staff commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 8)  
MICROLOG 97-07464 (1 fiche)

Once a minimum level of national security is in place, there is a potential trade-off between further military spending and economic advancement. To address the issue of acceptable versus excessive levels of military spending, this commentary indicates the weaknesses and gaps in the currently available data on military spending, and identifies which indicators might be useful for international analyses and comparisons. Indicators discussed include military spending as a share of gross domestic product, military spending as a share of health and education spending, armed forces per capita, total deaths due to conflict, and arms imports as a share of total imports. The need for country-specific analysis is emphasized. Includes a table of various indicators of military spending for 150 developing countries.

### Unfinished business : toward a global environmental organization

By Robert T. Stranks. Ottawa : Dept. of Foreign Affairs & International Trade, 1995. 14 p. : Bibl. (Policy staff commentary / Canada. Dept. of Foreign Affairs & International Trade ; no. 9)  
MICROLOG 97-07443 (1 fiche)

The purpose of this commentary is to raise the idea of a Global Environmental Organization (GEO) and to set out some key issues that arise in considering the establishment of such an organization. The institutional challenge is to develop a structure that focuses on environmental issues, but simulta-

neously effectively addresses environmental links with other issues such as economic development and trade. The commentary first reviews the international environmental agenda and current institutional mechanisms for addressing that agenda. It then outlines the mandate of a GEO and presents a new paradigm of co-operation, collaboration and joint decision making in a GEO framework. Aspects of a GEO discussed include its role in dispute settlement, scientific information and research, and public participation. The commentary ends with a call for action.

#### Use of bacterial inoculants to enhance the growth and yield of wheat on eroded soils : final report

By J.R. De Freitas and J.J. Germida. Regina : Saskatchewan Agriculture & Food, ADF, 1997. 49 p. : *ill.*, *Bibl.* On title page: Prepared by University of Saskatchewan.  
MICROLOG 97-07011 (1 fiche)

Describes a study investigating the hypothesis that specific bacteria isolated from crop rhizospheres can be used as seed-applied inoculants to enhance crop growth and yields on poor quality soils. The bacteria studied were *Xanthomonas maltophilia* R85, *Pseudomonas putida* R104, and *P. fluorescens* R111. Field effectiveness of the rhizobacteria as inoculants for wheat and canola was assessed on field sites having a range of soil quality and climatic conditions across various soil zones in Saskatchewan. The ability of the R85 strain to exhibit biological control against *R. solani* and *Phytophthora* species on roots of canola and wheat was also studied. Also investigated were the mechanisms, such as enhanced nutrient or moisture uptake, by which the bacterial inoculants enhanced crop growth on eroded soils, and soil factors that mediate inoculant efficacy.

#### The Use of chemical dispersants in salt marshes

Patricia A. Lane...et al. Ottawa : Environmental Studies Research Funds, 1987. xvi, 100 p. : *ill.*, *Bibl.* (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 070) ISBN 0-9207983-69-4.  
MICROLOG 97-07196 (3 fiche)

Documents results of a study of the environmental impacts and efficiency of dispersing stranded oil in a salt marsh. Impacts of oil, dispersant, and oil plus dispersant treatments on vascular plants, algal-bacterial communities, sediment properties, and the chemical fate of the oil in the sediment were examined in field and greenhouse studies. In the field study, replicate study plots were established in three distinct vegetation zones at Petpeswick Inlet, Nova Scotia. In the greenhouse experiment, replicate samples of each of these vegetation zones were removed from the marsh and cultivated. Control, oil, dispersant, and dispersant plus oil treatments were incorporated into the stratified random experimental design in both greenhouse and field. Physical parameters studied included soil temperature and structure observations. Vascular plant parameters studied included height, stem density, species cover, leaf anatomy, and physiological variable fluorescence measurements. Algal and bacterial parameters studied included estimates of cover, heterotrophic activity, and nitrogen fixation rates.

#### Utilization of the Campbell River estuary by juvenile chinook salmon, *Oncorhynchus tshawytscha*, in 1994

By J. Korman, C.D. Levings and B.A. Bravender. Nanaimo, BC : Dept. of Fisheries & Oceans, Science Branch, Pacific Region, Pacific Biological Station, 1997. viii, 45 p. : *ill.*, *Bibl.* (Canadian technical report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2169 ISSN 0706-6457) CCG-P no. Fs 97-6/2169E  
MICROLOG 97-06846 (1 fiche)

Presents an analysis of juvenile salmon population growth and abundance data collected in the Campbell River estuary in 1994 to describe chinook habitat use, residency timing, growth, and potential competitive interactions between wild chinook fry, hatchery chinook, and other salmon species. Results are compared with previous information on habitat use, residence timing, and growth of wild and hatchery chinook. Analyses are presented in five parts: use of a discriminant function to predict the origin of chinook juveniles whose origin could not be field-determined; estimation of density and biomass of juvenile salmon in the estuary and a comparison of habitat use and residence timing; calculation of growth rates for wild and hatchery chinook; prediction of wild chinook fry weight based on total salmon biomass; and estimation of the carrying capacity of the estuary for juvenile chinook, coho, and all salmon species combined, based on mark-recapture and escapement-biostandard methods.

#### Violence and racial prejudice in the context of peacekeeping : a study

By Jean-Paul Brodeur. Ottawa : Commission of Inquiry into the Deployment of Canadian Forces to Somalia, 1997. xx, 341 p. : *Bibl.* ISBN 0-660-16870-7 CCG-P no. CP32-64/3-1997E  
MICROLOG 97-06843 (4 fiche)

This study examines the issues of peacekeeping, racism, and accountability in relation to the Canadian Forces experience in Somalia. The issues are first addressed from a theoretical perspective, including peacekeeping in the historical and Canadian contexts, racial-ethnic prejudice, racism in the military, who should be accountable, and what should be accounted for. The issues are then discussed in the context of the actual mission to Somalia, divided in three phases: pre-deployment, including selection and screening, training, and hazing rituals; in-theatre operations, including racial prejudice, use of force, and rules of engagement; and post-deployment, in which accountability issues are examined in more detail. A separate chapter studies the role of the Canadian Airborne Regiment and its mission. Recommendations are made regarding training for peacekeeping, developing policies against racial discrimination, and increasing accountability.

### Water chemistry data from a monitoring program designed to detect changes in the long range transport of acidic pollutants into Nova Scotia's acidified Atlantic salmon rivers

By W.D. Watt, C.D. Scott and P. Mandell. Halifax : Dept. of Fisheries & Oceans, Maritimes Science Branch, Diadromous Fish Division, 1996. vi, 103 p. : Maps, Bibl. (Canadian data report of

fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 972 ISSN 0706-6465)  
ISSN 0706-6465 CCG-P no. FS 97-13/972E  
MICROLOG 97-07256 (2 fiche)

Provides locations and catchment descriptions for nine water sampling sites on acidified (acid rain) Atlantic salmon rivers in Nova Scotia, along with monthly water chemistry data and water temperatures from these sites for the period 1981-1994. The work was conducted as part of a program to monitor the recovery from acidification that is expected to follow the international agreement for the control of sulphate emissions.

### Water temperature monitoring in the Salmon River (Shuswap), B.C., 1995 : implications of measured temperatures for anadromous salmonids

By L.C. Walthers and J.C. Nener. Vancouver, BC : Dept. of Fisheries & Oceans, 1997. v, 57 p. : ill., Maps, Bibl. (Canadian manuscript report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2424 ISSN 0706-6473)  
On cover: Fraser River Action Plan. CCG-P no. Fs 97-4/2424E  
MICROLOG 97-07465 (1 fiche)

The Salmon River in British Columbia experiences summer water temperatures which exceed lethal thresholds for Pacific salmon. This report presents results of temperature monitoring studies carried out in the river during the summer of 1995 using data loggers. Temperature data were collected to detect potential temperature concerns and to assess a number of differences between sites on the river. Results presented include daily maximum, minimum, and mean water temperatures.

### Watershed stewardship, a guide for agriculture

Victoria : The Province ; Ottawa : Dept. of Fisheries & Oceans, 1997. 60 p. : ill., Bibl. (Stewardship series / British Columbia and Canada)  
Funding under Fraser River Action plan and the Habitat Action Plan. ISBN 0-7726-3174-3  
MICROLOG 97-07404 (1 fiche)

This guide is designed for British Columbia agricultural producers to assist them in applying watershed stewardship principles, improving their operations and enhancing the quality of their local environment at the same time. It first discusses the concept of stewardship and explains its role in protecting the province's aquatic resources. It then reviews the features and functions of watersheds and their components such as riparian areas, flood plains, and groundwater. This is followed by an introduction to stewardship practices for farms, including site planning, livestock management, waste management, soil management and conservation, pest management, irrigation, and working near water. Profiles of successful stewardship projects are presented as examples. Finally, the guide summarizes legislation and policy related to watershed stewardship, along with approval and licensing processes required for working in or near streams.

### Wave hindcast sensitivity

By Frank X. Penicka. Ottawa : Environmental Studies Revolving Funds, 1987. xxi, 263 p. : ill., Maps, Bibl. (Environmental Studies Revolving Funds report / Environmental Studies Revolving Funds (Canada) ; no. 088) On cover: Environmental Studies Research Funds. ISBN 0-920783-87-2  
MICROLOG 97-06869 (3 fiche)

The purpose of this study was to evaluate the sensitivity of a numerical wave model developed by D.T. Resio to a number of factors which may affect the accuracy of the model's wave hindcasts. In the first set of tests, the sensitivity of the model to errors in input in wind fields was determined using

synthetic storm input subjected to a random perturbation in central pressure and in storm centre velocity. In the second set, the model's sensitivity to grid spacing and time step was evaluated using both synthetic and real event inputs. Two events from a list of severe storms were hindcast in order to test the performance of the model, and results are compared to measured wave parameters.

### West coast Newfoundland oil spill sensitivity atlas

J. Dempsey...et al. Ottawa : Environmental Studies Research Funds, 1995. ix, 189 p. : Maps, Bibl. (Environmental Studies Research Funds report / Environmental Studies Research Funds (Canada) ; no. 127) ISBN 0-921652-29-1  
MICROLOG 97-06899 (3 fiche)

Describes the development and content of the West Coast Newfoundland Oil Spill Sensitivity Atlas, produced as a planning tool to assist in the preparation, prioritization, and implementation of countermeasures that may be required in response to an oil spill related to future oil and gas drilling activities in the Newfoundland west coast offshore. The atlas is in the form of a computer-based geographic information system (GIS) product developed to run on a personal computer using Intergraph Tidyac SpansMap software. Information is included on the atlas structure, base maps and image processing, GIS applications, shoreline description, biological and fisheries description, human use description, physical environment and logistics facilities inclusion, countermeasures options considered for the area, and future enhancements of the atlas. Samples of map products available from the atlas are provided. The appendix includes a catalogue of atlas data files, classification schemes, and geographical descriptions of atlas regions.

### What will it mean to be an Albertan in the 21st century? Report

Premier's Council Forum (1996 : Edmonton, Alta.). Edmonton : Premier's Council on the Status of Persons with Disabilities, 1996. 21 p.  
MICROLOG 97-07216 (1 fiche)

Summarizes a forum held with leaders of key Alberta sectors to consider the following issues facing the province: the critical changes brought about by the provincial restructuring agenda and their impact; new challenges facing government, business, and voluntary sectors as a result of these changes; and a framework to build on government achievements to date and to address fundamental role redefinitions in Alberta society. An introductory section reviews the changing context of Alberta public policy, including debt reduction and government restructuring. Themes discussed in the forum include opportunities provided by post-deficit Alberta, social policy priorities in relation to economic policy, the role of government, the capacity of non-governmental sectors to handle new responsibilities, and the changing roles of the government, business, and voluntary sectors. Concludes with a summary of recommendations regarding government policies.

### What will it mean to be an Albertan in the 21st century? The Calgary perspective : report

Forum Involving Calgary's Business & Community Leaders (1997 : Calgary, Alta.). Edmonton : Premier's Council on the Status of Persons with Disabilities ; Calgary, Alta. : Bethany Care Society, 1997. 19 p.  
MICROLOG 97-07174 (1 fiche)

Summarizes a forum held to gather Calgary community and business leaders to discuss the need for a social vision and share ideas related to the following: securing of social inclusion for all citizens; planning and co-ordination of community services; partnerships to provide for community needs; and

the determinants of healthy communities. Presentations, suggestions from participants, and recommendations for actions are summarized under the following key themes: re-invention of human service structures; new models for regional services; clarification of the roles of the government, business, and voluntary sectors; and a moral approach to community services.

### White-tailed deer, financial and production information -- Rev.

Regina : Saskatchewan Agriculture & Food, 1997. 48 p. ISBN 0-88656-673-8  
MICROLOG 97-07098 (1 fiche)

The objective of this publication is to assist in assessing the economic opportunity for establishing a white-tailed deer enterprise in Saskatchewan. Information is included on the deer industry and markets, game farm regulations, deer management, game farm finances, capital asset requirements (land, fences, handling facilities, pasture, equipment, livestock), and operating requirements (labour, feed, materials, veterinary fees, stock purchases, maintenance, marketing, and other costs). Projected income and costs are set out for a 100-deer enterprise, with detailed projections over a 10-year period provided in the appendix.

### Winter distributions of thick-billed murres from the eastern Canadian Arctic and western Greenland in relation to age and time of year

Garry M. Donaldson...et al. Ottawa : Environment Canada, Canadian Wildlife Service, 1997. 26 p. : *ill., Maps, Bibl.* (Occasional paper / Canadian Wildlife Service ; no. 96 ISSN 0576-6370) ISBN 0-662-25915-7 CCG-P no. CW69-1/96E  
MICROLOG 97-06910 (1 fiche)

The thick-billed murre *Uria lomvia* is the most numerous species of sea bird breeding in the eastern Canadian Arctic and is hunted in large numbers by residents of Newfoundland and Labrador. This paper reports a study conducted to gain better understanding of the implications of current hunting restrictions for murre population dynamics. Available band recovery data from Canada and western Greenland were analyzed to determine the geographic and temporal distribution around Newfoundland colonies of murres of different ages and from different colonies. Results show how the proportion of birds from different colonies differs among hunting areas around Newfoundland, and also indicates the degree of temporal segregation in recovery of first-year versus older birds. Implications of the results for murre hunting management in Newfoundland are discussed.

### Working for Value : final task force report

Manitoba. Working for Value Task Force. Winnipeg : The Task Force, 1997. 40 p. : *ill.*  
MICROLOG 97-06891 (1 fiche)

Presents findings and recommendations of a task force appointed to solicit views from rural Manitobans on increasing value-added exports from rural Manitoba. The task force travelled to 26 rural communities in the province and also heard presentations from individuals, organizations, and business about activities that add value or enhance the diversification of the provincial economy. Issues covered include entrepreneurship, the role of government in fostering rural business development, access to government information, regulatory reform, producer-owned structures, investment, marketing, rural infrastructure, tourism, research and development linkages, and environmental concerns. A review is also provided of the changes in rural Manitoba that require some response (shrinking farm population, trade reform, dependence on bulk exports), and of opportunities and strengths of the Manitoba rural economy.

# Personal Name Index

## Index des noms propres

### A

#### Abel, Sharon M.

Author: The Development of speech communication capability tests : final report. MICROLOG 97-07447 (1 fiche)

#### Abernethy, S.G.

Author: Scientific criteria document for the development of interim provincial water quality objectives for 2,4-dinitrotoluene and 2,6-dinitrotoluene. MICROLOG 97-07154 (1 fiche)

#### Adare, K.

Éditeur(trice): Rapport de l'évaluation des contaminants dans l'Arctique canadien. MICROLOG 97-07437 (8 fiche)

#### Aitken, J.D.

Author: Stratigraphy of the Middle Cambrian platform succession, southern Rocky Mountains. MICROLOG 97-07494 (4 fiche)

#### Allyn, Norman

Author: Environmental loading studies for the CSA offshore structures code. MICROLOG 97-06900 (2 fiche)

#### Anderson, Jim

Author: Alberta lakes and reservoirs : reference index, 1996. MICROLOG 97-07108 (1 fiche)

### B

#### Bagchi-Sen, Sharmistha

Author: The Evolution of service multinationals : an analysis of accounting and advertising firms. MICROLOG 97-06821 (1 fiche)

#### Bailey, Lorraine D.

Editor: Nitrogen, phosphorus, potassium, sulphur : answers to your questions, a producer's version. MICROLOG 97-07319 (1 fiche)

#### Bakhshi, N.N.

Author: Production of isobutylene/isobutane from the catalytic conversion of canola oil : final report. MICROLOG 97-07081 (3 fiche)

#### Baldwin, John R.

Author: The Importance of research and development for innovation in small and large Canadian manufacturing firms. MICROLOG 97-07497 (1 fiche)

#### Bail, Helen

Author: Summary of small fish surveys conducted in the rivers entering Thunder Bay Harbour, 1990. MICROLOG 97-06893 (1 fiche)

#### Banke, Erik

Author: Evaluation of a modified water cannon system to control small iceberg masses. MICROLOG 97-07202 (2 fiche)

#### Barber, Doug

Auteur: Rapport sur l'offre et l'utilisation du boeuf canadien par niveau de qualité. MICROLOG 97-07186 (2 fiche)  
Author: Report on Canadian beef supply and disposition with beef quality categorization. MICROLOG 97-07186 (2 fiche)

#### Barl, Branka

Author: Development of marketable herb-flavoured honey products : final report. MICROLOG 97-06999 (1 fiche)

#### Barnes, C.R.

Author: Taxonomy and biostratigraphy of Middle and Late Triassic elasmobranch ichthyoliths from northeastern British Columbia. MICROLOG 97-07032 (3 fiche)

#### Beck, Judi

Auteur: Une Méthode d'évaluation de la menace d'incendie de forêt. MICROLOG 97-07301 (1 fiche)  
Author: A Wildfire threat rating system. MICROLOG 97-07301 (1 fiche)

#### Beesley, J. Alan

Author: Memorandum on legal issues related to the Pacific Salmon Treaty. MICROLOG 97-07409 (1 fiche)

#### Bell, Ronald W.

Author: Air quality survey in the vicinity of Dofasco, Stelco, Columbian Chemical and the Industrial sector of Hamilton, October 1986. MICROLOG 97-07380 (1 fiche)

#### Belore, Randy

Author: Drop size and dispersant effectiveness : small-scale laboratory testing. MICROLOG 97-07203 (1 fiche)

#### Bennett, John A.

Author: Removal of stranded oil from remote beaches by in-situ combustion. MICROLOG 97-07198 (2 fiche)

#### Bérubé, Dominique

Auteur: Options de restauration de la dune de LeGoulet, Nouveau-Brunswick : une évaluation géomorphologique. MICROLOG 97-07422 (1 fiche)

#### Biring, Balvinder S.

Author: Mackay River herbicide trial : conifer response 9 years post-treatment. MICROLOG 97-07430 (1 fiche)

#### Bitran, Maurice

Author: Background ELF magnetic fields in Ontario offices. MICROLOG 97-06836 (1 fiche)

#### Black, Richard

Author: Canadian policy analysis model : CPAM. MICROLOG 97-06855 (1 fiche)

#### Booth, Jacqueline A.

Author: A Preliminary Identification of processes and problems affecting marine birds in coastal and offshore areas of British Columbia. MICROLOG 97-06819 (2 fiche)

#### Bourdeau, Jean-Pierre

Auteur: La Population autochtone du Canada, 1981-91 : rapport sommaire. MICROLOG 97-06929 (1 fiche)

#### Bowers, Wade W.

Author: Checklist of insect specimens, museum : Natural Resources Canada, Canadian Forest Service, St. John's, Newfoundland. MICROLOG 97-07307 (2 fiche)

#### Bowes, Garry

Author: Brush encroachment control. MICROLOG 97-07014 (1 fiche)

#### Bowry, D. Michael

Author: Design and performance of a high dynamic range clamping amplifier for a MAWS transceiver (U). MICROLOG 97-07449 (1 fiche)

#### Bravender, B.A.

Author: Utilization of the Campbell River estuary by juvenile chinook salmon, *Oncorhynchus tshawytscha*, in 1994. MICROLOG 97-06846 (1 fiche)

#### Bredin, Katherine A.

Author: Volunteer surveys of waterbirds of the Sydney, Nova Scotia area, including the Sydney Tar Ponds, 1993-96. MICROLOG 97-07322 (1 fiche)

#### Brochu, C.

Author: Prototype, mesoscale simulator for the study of oil weathering under severe conditions. MICROLOG 97-06868 (1 fiche)

#### Brodeur, Jean-Paul

Author: Violence and racial prejudice in the context of peacekeeping : a study. MICROLOG 97-06843 (4 fiche)

#### Brown, Allen

Author: Canada : drawers of water, hewers of wood and dangers of other myths. MICROLOG 97-07484 (1 fiche)

#### Brown, Dennis J.

Author: Effects of aerial spraying of forestry herbicides on aquatic ecosystems, part V : results from environmental monitoring of study sites. MICROLOG 97-06858 (2 fiche)  
Author: Effects of aerial spraying of forestry herbicides on aquatic ecosystems, part VI : effects on *Typha* spp. MICROLOG 97-06903 (1 fiche)

#### Brown, R.D.

Author: Climatology of severe storms affecting coastal areas of eastern Canada. MICROLOG 97-06925 (3 fiche)

#### Browning, Mark H.

Author: OMNR Science Forum, 1996 : an ecosystem approach to ecological sustainability. MICROLOG 97-07120 (1 fiche)

#### Burger, Alan E.

Author: A Preliminary Identification of processes and problems affecting marine birds in coastal and offshore areas of British Columbia. MICROLOG 97-06819 (2 fiche)

#### Burwash, K.L.

Author: Descriptive sensory analysis : the profiling approach. MICROLOG 97-07249 (1 fiche)

### C

#### Cadman, Michael D.

Editor: Monitoring Bird Populations, the Canadian Experience : proceedings of a symposium. MICROLOG 97-06928 (1 fiche)

#### Callaghan, Jessie M.

# Series Titles

## Titres de collections

### AECL research. Atomic Energy of Canada Ltd.

**AECL-11603** Analysis of triethylenediamine by theoretical techniques. MICROLOG 97-07383 (1 fiche)

**AECL-11683** The Calculated solubilities of hematite, magnetite and lepidocrocite in steam generator feedtrains. MICROLOG 97-07299 (1 fiche)

**AECL-11725** Dating fractures and fracture movement in the Lac du Bonnet Batholith. MICROLOG 97-07237 (2 fiche)

**AECL-11753** Autogenous healing properties of cement-based grouts. MICROLOG 97-07384 (1 fiche)

### Agri-info factsheet. Charlottetown Research Centre (Canada)

**96-17** Response of three potato varieties to metribuzin. MICROLOG 97-07372 (1 fiche)

**97-01** Supplemental soil sulphur increases cabbage yield. MICROLOG 97-07373 (1 fiche)

**97-02** Strawberry cultivar trial, 1995-96. MICROLOG 97-07390 (1 fiche)

**97-03** Potato program : research summary. MICROLOG 97-07139 (1 fiche)

**97-04** Frost seeding forage legumes and grasses. MICROLOG 97-07131 (1 fiche)

**97-05** Growing berseem clover, Persian clover and hairy vetch. MICROLOG 97-07141 (1 fiche)

**97-06** Characterization of rapidly changing populations of *Phytophthora infestans* in Canada, 1996. MICROLOG 97-07140 (1 fiche)

### Bulletin. Geological Survey of Canada

**398** Stratigraphy of the Middle Cambrian platform succession, southern Rocky Mountains. MICROLOG 97-07494 (4 fiche)

**501** Geology of the Striding-Athabasca mylonite zone, northern Saskatchewan and southeastern District of Mackenzie, Northwest Territories. MICROLOG 97-07085 (2 fiche)

**502** Taxonomy and biostratigraphy of Middle and Late Triassic elasmobranch ichthyoliths from northeastern British Columbia. MICROLOG 97-07032 (3 fiche)

### Cahiers de biologie. Service canadien de la faune

**no 211** Dépense d'énergie quotidienne et cycle de l'eau chez les oiseaux de rivage à Alert, sur l'île d'Ellesmere, T.N.-O. MICROLOG 97-07016 (1 fiche)

### Canadian data report of fisheries and aquatic sciences. Canada. Dept. of Fisheries & Oceans

**no. 972** Water chemistry data from a monitoring program designed to detect changes in the long range transport of acidic pollutants into Nova Scotia's acidified Atlantic salmon rivers. MICROLOG 97-07256 (2 fiche)

**no. 1002** Electrofishing data from a monitoring program designed to detect the changes in acid toxicity that are expected to result from a reduction in the long-range transport of acid pollutants into Nova Scotian salmon rivers. MICROLOG 97-07255 (1 fiche)

### Canadian manuscript report of fisheries and aquatic sciences. Canada. Dept. of Fisheries & Oceans

**no. 2424** Water temperature monitoring in the Salmon River (Shuswap), B.C., 1995 : Implications of measured temperatures for anadromous salmonids. MICROLOG 97-07465 (1 fiche)

### Canadian meteorological memoirs. Canada. Atmospheric Environment Service

**no. 32** Special Symposium on Atmospheric Research in Canada in Honour of Dr. Warren L. Godson's Fifty Years of Public Service : proceedings of papers contributed at the symposium. MICROLOG 97-07395 (2 fiche)

### Canadian technical report of fisheries and aquatic sciences. Canada. Dept. of Fisheries & Oceans

**no. 2146** How to age rockfish (*Sebastes*) using *S. alutus* as an example, the otolith burnt section technique. MICROLOG 97-06847 (1 fiche)

**no. 2169** Utilization of the Campbell River estuary by juvenile chinook salmon, *Oncorhynchus tshawytscha*, in 1994. MICROLOG 97-06846 (1 fiche)

**no. 2173** Stock assessment for British Columbia herring in 1996 and forecasts of the potential catch in, 1997 / By J.F. Schweigert, L. Hamer and C. Fort. Nanaimo, BC : Dept. of Fisheries & Oceans, Science Branch, Pacific Region, Pacific Biological Station, 1997. viii, 73 p. : ill., Bibl. MICROLOG 97-06845 (1 fiche)

**no. 2177** Geostatistical analysis of sediment distribution in the southern Gulf of St. Lawrence snow crab fisheries. MICROLOG 97-06848 (1 fiche)

### Canadian technical report of hydrography and ocean sciences. Canada. Dept. of Fisheries & Oceans

**no. 189** Oceanographic and ice observations on Nain Bank and vicinity. MICROLOG 97-06906 (2 fiche)

**no. 190** Mission report and real time analysis for D227 : thermosalinograph calibrations. MICROLOG 97-06905 (1 fiche)

### CLBRR contribution. Center for Land & Biological Resources Research (Canada)

**no. 94-22** The Soils of Lakeview, Rural Municipality no. 337, Saskatchewan. MICROLOG 97-07265 (1 fiche)

### CNFER technical report. Ontario. Centre for Northern Forest Ecosystem Research

**TR-001** Pricing and packaging strategies of remote fly-in tourism operations in northern Ontario. MICROLOG 97-07264 (1 fiche)

### Contractor report. Defence Research Establishment Ottawa

**96-748** New registration algorithms for the North Warning System. MICROLOG 97-07452 (1 fiche)

### Data report series. Lake Superior Programs Office

**#1** Data summary of small fish collection surveys, Thunder Bay, 1991-95. MICROLOG 97-07417 (1 fiche)

**#2** Data summary of small fish collection surveys, Nipigon Bay, 1991-95. MICROLOG 97-07418 (1 fiche)

**#3** Index netting for fish contaminant analysis, Lake Superior, 1992-93, including 1994 addendum. MICROLOG 97-07419 (1 fiche)

**#4** Characteristics of the walleye (*Stizostedion vitreum vitreum*) population of Thunder Bay. MICROLOG 97-07420 (1 fiche)

### DCIEM publication. Defence & Civil Institute of Environmental Medicine (Canada)

**96-CR-13** An Inflatable bladder support system for military footwear : final report. MICROLOG 97-07448 (1 fiche)

### Discussion paper. Canada. Citizenship & Immigration Canada. Legislative Review Advisory Group

**number 1** Immigration legislative review : concepts, principles and values. MICROLOG 97-07268 (1 fiche)

**number 2** Immigration legislative review : economic objectives. MICROLOG 97-07270 (1 fiche)

**number 3** Immigration legislative review : family. MICROLOG 97-07271 (1 fiche)

**number 4** Immigration legislative review : persons in need of protection. MICROLOG 97-07272 (1 fiche)

**number 5** Immigration legislative review : managing the system. MICROLOG 97-07273 (1 fiche)

### Document de travail. Canada. Citoyenneté et immigration Canada. Groupe consultatif de la révision de la législation

**numéro 1** Révision de la législation sur l'immigration : les concepts, principes et valeurs. MICROLOG 97-07268 (1 fiche)

**numéro 2** Révision de la législation sur l'immigration : les objectifs économiques. MICROLOG 97-07270 (1 fiche)

**numéro 3** Révision de la législation sur l'immigration : la famille. MICROLOG 97-07271 (1 fiche)

**numéro 5** Révision de la législation sur l'immigration : la gestion du système. MICROLOG 97-07273 (1 fiche)

### Document de travail. Canada. Industrie Canada

**no 15** L'Économie du savoir et l'évolution de la production industrielle. MICROLOG 97-06818 (3 fiche)

### Document de travail interne. Nouveau-Brunswick. Direction de la gestion des matières ligneuses

**97-01** Programme de pulvérisation aérienne d'herbicide de, 1996. Frédéricton : Ressources naturelles et énergie, Direction de l'aménagement des forêts, 1997. 36, 36 p. *Bilingue (Aerial herbicide...)*. MICROLOG 97-07142 (1 fiche)

**Document du Groupe des politiques.****Canada. Ministère des affaires étrangères et du commerce international**

SP50F Établissements financiers et entreprises : une relation à la japonaise. MICROLOG 97-07259 (1 fiche)

**Documents de recherche. Statistique****Canada. Direction des études statistiques**

no 66 Mesures d'inégalité divergentes, théorie et résultats empiriques -- Rév. MICROLOG 97-06815 (1 fiche)

no 96 Les Canadiens sont-ils plus susceptibles de perdre leur emploi au cours des années 1990? MICROLOG 97-06817 (2 fiche)

**Documents sur le commerce régional et l'économie. Canada. Ministère des affaires étrangères et du commerce international**

94/16 Établissements financiers et entreprises : une relation à la japonaise. MICROLOG 97-07259 (1 fiche)

**Dossier public. Nouveau-Brunswick.****Ressources minières et énergie**

97-9 Options de restauration de la dune de LeGoulet, Nouveau-Brunswick : une évaluation géomorphologique. MICROLOG 97-07422 (1 fiche)

**DREA contractor report. Defence Research Establishment Atlantic**

DREA CR/96/404SPK A Matched field processing environmental database : database vs flat file implementation. MICROLOG 97-07454 (1 fiche)

DREA CR/96/450 Robust adaptive beamforming. MICROLOG 97-07453 (1 fiche)

**Environmental Studies Research Funds****report. Environmental Studies Research Funds (Canada)**

no. 070 The Use of chemical dispersants in salt marshes. MICROLOG 97-07196 (3 fiche)

no. 071 Local business adaptation to east coast offshore energy development. MICROLOG 97-07197 (1 fiche)

no. 074 Removal of stranded oil from remote beaches by in-situ combustion. MICROLOG 97-07198 (2 fiche)

no. 075 Monitoring the long-term fate and effects of spilled oil in an Arctic marine subtidal environment. MICROLOG 97-07199 (2 fiche)

no. 077 Analytical modelling of oil and gas spreading under ice. MICROLOG 97-07183 (1 fiche)

no. 079 The Development of a Canadian oil-spill countermeasures training programme. MICROLOG 97-07200 (3 fiche)

no. 080 Tainting of finfish by petroleum hydrocarbons. MICROLOG 97-07201 (2 fiche)

no. 081 Evaluation of a modified water cannon system to control small iceberg masses. MICROLOG 97-07202 (2 fiche)

no. 082 Drop size and dispersant effectiveness : small-scale laboratory testing. MICROLOG 97-07203 (1 fiche)

no. 083 Microbial degradation of hydrocarbon mixtures in a marine sediment under different temperature regimes. MICROLOG 97-07204 (1 fiche)

no. 084 Laboratory studies of the behaviour and fate of waxy crude oil spills. MICROLOG 97-06867 (3 fiche)

no. 086 Prototype, mesoscale simulator for the study of oil weathering under severe conditions. MICROLOG 97-06868 (1 fiche)

no. 125 Long-range ice forecasting system (LRIFS) applied for the Beaufort Sea. MICROLOG 97-06865 (1 fiche)

no. 127 West coast Newfoundland oil spill sensitivity atlas. MICROLOG 97-06899 (3 fiche)

no. 128 East coast repetitive seafloor mapping, 1979/1990. MICROLOG 97-06901 (2 fiche)

no. 129 1990 Beaufort Sea ice scour repetitive mapping program, vol. 1. MICROLOG 97-06916 (4 fiche)

no. 131 Environmental loading studies for the CSA offshore structures code. MICROLOG 97-06900 (2 fiche)

no. 132 Remote sensing ice detection capabilities, east coast. MICROLOG 97-06902 (2 fiche)

no. 133 Characterisation of iceberg pits on the Grand Banks of Newfoundland. MICROLOG 97-06972 (3 fiche)

no. 134 Study of summer and fall movements and dive behaviour of Beaufort Sea belugas, using satellite telemetry, 1992-95. MICROLOG 97-06885 (1 fiche)

**Environmental Studies Revolving Funds report. Environmental Studies Revolving Funds (Canada)**

no. 020 Climatology of severe storms affecting coastal areas of eastern Canada. MICROLOG 97-06925 (3 fiche)

no. 023 Beaufort Sea extreme wave studies assessment. MICROLOG 97-07195 (2 fiche)

no. 043 Design of an iceberg scour repetitive mapping network for the Canadian east coast. MICROLOG 97-07354 (1 fiche)

no. 069 Spills-of-opportunity research. MICROLOG 97-07182 (2 fiche)

no. 088 Wave hindcast sensitivity. MICROLOG 97-06869 (3 fiche)

no. 099 Comparison of directional wave spectra. MICROLOG 97-06866 (3 fiche)

**Forest research information paper. Ontario Forest Research Institute**

no. 136 OMNR Science Forum, 1996 : an ecosystem approach to ecological sustainability. MICROLOG 97-07120 (1 fiche)

**Forest research note. Ontario Forest Research Institute**

no. 56 Assessing conifer seed for fungal pathogens. MICROLOG 97-07488 (1 fiche)

**Information report. Canadian Forest Service**

ST-X-13 National Workshop on Wildland Fire Activity in Canada : workshop report, a wake-up call for the sustainable development of Canada's forests. MICROLOG 97-07205 (2 fiche)

**Information report. Newfoundland Forestry Centre**

N-X-300 Checklist of insect specimens, museum : Natural Resources Canada, Canadian Forest Service, St. John's, Newfoundland. MICROLOG 97-07307 (2 fiche)

**Information report. Pacific Forestry Centre**

BC-X-371 An Annotated bibliography of *Acleris variana* and *Acleris gloverana*. MICROLOG 97-07207 (1 fiche)

### Agriculture

1996 field survey to identify best management practices for tender fruit production in Ontario. 97-07260/1  
Adaptation and recommendation testing of forage varieties in Saskatchewan : final report. 97-06938/1  
Agricultural statistics, 1996. 97-07177/1  
Ammoniation of straw mulch for strawberries : final report. 97-07003/1  
Animal agriculture, our living business : video and supportive booklet, final report. 97-07346/1  
Best management practices : nutrient management. 97-06967/2  
Best management practices : soil management. 97-06969/2  
Brush encroachment control. 97-07014/1  
Cattle FACS brochures : final report. 97-07344/1  
Characterization of rapidly changing populations of *Phytophthora infestans* in Canada, 1996. 97-07140/1  
Chemical products from Saskatchewan wild plants : final report. 97-07012/1  
Cultural and chemical control of pythium seed and root rot of field pea : final report. 97-07026/1  
Dangerous goods and the agricultural industry. 97-07172/1  
Descriptive sensory analysis : the profiling approach. 97-07249/1  
Developing improved waxy and high amylose barley varieties : final report. 97-07013/1  
Development of marketable herb-flavoured honey products : final report. 97-06999/1  
Development of optimal fertilizer rate recommendations for use when direct seeding canola with an air seeder : final report. 97-07119/1  
Direct seeding of alfalfa and meadow brome grass for hay and seed production : final report. 97-07002/1

An Evaluation of hog marketing systems in Canada. 97-06950/2  
Evaluation of site segregated versus conventional early weaning on the growth performance, sow productivity and post-weaning behaviour : final report. 97-07000/1  
Field crop recommendations, 1997-98. 97-07333/3  
A Framework to analyze income support and income stabilization policies in Canadian agriculture. 97-06953/1  
Frost seeding forage legumes and grasses. 97-07131/1  
Grain and forage crops : estimated production costs, Ontario, 1984. 97-07302/1  
Growing berseem clover, Persian clover and hairy vetch. 97-07141/1  
Guidelines for estimating honey production costs -- Rev.. 97-07320/1  
Guidelines for estimating wild boar cost of production based on a herd of 20 sows. 97-06888/1  
Handbook of selected agricultural statistics : Newfoundland and Labrador, 1996. 97-07252/1  
Immunocastration of bulls : effects on aggressive behavior and carcass quality : final report. 97-06937/1  
Industry profile, 1990-91 : bakery products. 97-06828/1  
Industry profile, 1990-91 : biscuits. 97-06827/1  
Industry profile, 1990-91 : cattle processing. 97-06826/1  
Industry profile, 1990-91 : edible oil products. 97-07208/1  
Industry profile, 1990-91 : hog processing. 97-06822/1  
Industry profile, 1990-91 : pet foods. 97-07214/1  
Industry profile, 1990-91 : starch and related products. 97-07209/1  
Industry profile : bakery products. 97-07194/1

Industry profile : biscuits. 97-06991/1  
Industry profile : confectionery. 97-06849/1  
Industry profile : food processing equipment. 97-06852/1  
Industry profile : processed forage. 97-07366/1  
Industry profile : soft drink manufacturers. 97-06856/1  
Measuring the capitalization of income transfer programs into agricultural asset values. 97-06952/2  
Ministry business plan, 1996/97-1998/99. 97-07065/2  
Ministry business plan, 1997/98-1999/2000. 97-07064/2  
New sulphur fertilizer sources for canola : final report. 97-07001/1  
Nitrogen, phosphorus, potassium, sulphur : answers to your questions, a producer's version. 97-07319/1  
Ontario farm groundwater quality survey, summer 1992. 97-06948/2  
Ontario Food Terminal Board : Annual report 1994-95. 97-07126/1  
Annual report 1995-96. 97-07357/1  
Oral vaccination of neonatal calves, induction of long term immunity : final report. 97-07263/1  
Ornamental wheat selection : final report. 97-07347/1  
Plantago ovata (psyllium), investigating its adaption in Saskatchewan : final report. 97-07005/1  
Potato program : research summary. 97-07139/1  
Practical processing of canola seed and meal to produce economical protein sources for use in salmonid diets : final report. 97-07027/1  
Les Pratiques de gestion optimales : gestion des éléments nutritifs. 97-06968/2  
Prince Edward Island Food Technology Centre : Annual report 1995-96. 97-06980/1

# Other Canadian Reference Sources

## - Available from Micromedia -

---

### Canadian Index

A comprehensive index providing access to nearly 100,000 citations each year from: nine major daily newspapers, over 200 Canadian trade and business periodicals, over 50 specialized Canadian trade magazines for which indexing is unavailable elsewhere, and more than 350 general periodicals.

---

### KIOSK: CBCA

KIOSK: CBCA is a reference tool which combines a high quality indexing and abstracting database (CBCA) with direct access to the fulltext content of the articles indexed.

---

### CBCA Fulltext

CBCA Fulltext provides fulltext access to Canadian periodicals and current affairs information, and incorporates the largest and most comprehensive subject guide to periodical literature. CBCA Fulltext allows searching on Windows, Macintosh, DOS and UNIX platforms.

---

### CBCA OnDisc

CBCA OnDisc is the Knight Ridder CD-ROM version of the Canadian Index, giving you access to ten years of indexing. It includes every citation in the Canadian Index, plus thousands of informative abstracts which do not appear in the print edition.

---

### KIOSK: Maclean's

Published in cooperation with Maclean's magazine, KIOSK: Maclean's contains every article and news report published by Canada's Weekly Newsmagazine over an eight year period.

---

### CNI Clips: Press Clippings on Microfiche

CNI Clips is a unique service which provides the full text of more than 40,000 Canadian Press news stories and feature articles each year, and is delivered in a practical and economical microfiche format.

---

### Canadian Education Index

Canadian Education Index covers more than 200 Canadian education periodicals, as well as reports and monographs from the educational research community across Canada. In addition, the Index covers report literature from government agencies, educational faculties and teachers' associations, and large school boards.

---

### Canadian Education Index Thesaurus

Canadian Education Index Thesaurus is a bilingual controlled vocabulary of over 5,000 terms, developed for the indexing and retrieval of French or English-language material in Canadian education, and is an invaluable research aid for users of the Canadian Education Index.
